Santa Barbara
Unified School District

Dear Dr. Cash:

California *Education Code* Section 1240 requires that Santa Barbara County Education Office visit schools identified in our county, review information in the areas noted below, and report to you the results of the visits and reviews. As the county superintendent designee, I am pleased to provide the third quarterly report for fiscal year 2012-13 as required by *Education Code* section 1240(c)(2)(G) pursuant to the Williams Settlement. This report presents the results of the visits and reviews at Adams, Cleveland, Franklin, Harding, and McKinley Schools for the period of January, February, and March 2013.

The purpose of the visits as specified in California Education Code 1240 was to:

1. Determine if students have "sufficient" standards-aligned instructional materials in four core subject areas (English language arts, mathematics, history/social science and science), including science laboratory equipment in grades 9-12, and, as appropriate, in foreign languages, and health;
2. Determine if there is any facility condition that "poses an emergency or urgent threat to the health or safety of pupils or staff"; and
3. Determine if the school has provided accurate data on the annual school accountability report card related to the sufficiency of instructional materials and the safety, cleanliness, and adequacy of school facilities, including "good repair."

The law further requires that the county superintendent:

1. Annually monitor and review teacher misassignments and teacher vacancies in schools ranked in deciles 1-3 (2009 Base API); and
2. Receive quarterly reports on complaints filed within the school district concerning insufficient instructional materials, teacher vacancies and misassignments, and emergency or urgent facilities issues under the Uniform Complaint Procedure.

Dr. David E. Cash, Superintendent

While the Uniform Complaint data are not mandated to be a part of this report to you, they are being included so that you and the citizens of our community will have a complete understanding of the environment in which the schools are functioning.

Before proceeding with the report, let me define some basic terms:

- "Sufficient textbooks or instructional materials" means each pupil, including English language learners, has a standards-aligned textbook, or instructional materials, or both, to use in class and to take home or to use after class.
- A school facility condition that poses an "emergency or urgent threat" is a "condition that poses a threat to the health or safety of pupils or staff while at school."
- "Good Repair" means the school facilities are clean, safe and functional as determined pursuant to the school facility inspection and evaluation instrument developed by the Office of Public School Construction or a local evaluation instrument that meets the same criteria. Each school district that receives state funding for facilities maintenance is required to establish a facilities inspection system to ensure that each of its schools is maintained in "good repair."

The findings of the visits are summarized in the attached report.

Please extend to your governing board, administration and site staff my appreciation for their professionalism in addressing the compliance requirements for the Williams Settlement Legislation.

Sincerely,

Jan Clevenger
Assistant Superintendent
