School Safety Plan

Signature Page for 2013-14

The undersigned members of the School Safety Planning Committee certify that the requirements for the School Safety Plan have been met.

Director of Operations

Circle of trustees Parent Representative

Santa Barbara Charter School Teacher Representative

Law Enforcement Representative

Preface

The Comprehensive School Safety Plan process is designed to be utilized as a school resource for prevention/mitigation, preparedness, response and recovery planning and training as well as meeting the requirements for the annual Safety Plan process under Senate Bill 187 and the National Incident Management System. It is designed to be an electronic and hard copy safety plan. This document must be updated as necessary to meet site, district and community needs, forms or requirements. It is not intended to be a “grab and go” guide in an actual emergency.

NOTE: Some elements of this School Safety Plan are confidential. Copies of these confidential elements are secured at the school site and district office. These elements include: student and staff personal information, emergency evacuation, ingress/egress routes and other sensitive emergency contact information.

Following any emergency, notify the district superintendent's office: 805-896-1727

Chapter 1: School Safety Plan

Introduction

This guide will provide a timeline and related administrative tasks to provide a process to ensure compliance with the requirements of Senate Bill 187, Comprehensive School Safety Plan.

The guideline/checklist has been organized into two parts:

1. An assessment by the Safety Planning Committee of the school climate in relation to the current status of school crime committed on campus and at school-related functions. Based on this assessment, safety goals have been set for the upcoming school year.
2. The annual review and evaluation of the school comprehensive safety plan which is certified by the members of the School Safety Planning Committee, the School Site Council president, and the school principal before being presented to the board of education for final review and adoption. This review includes the following mandated components:
 - Child Abuse reporting procedures
 - Policies pursuant to Education Code 48915(c) and other school-designated serious acts which would lead to suspension, expulsion or mandatory expulsion recommendations
 - Procedures to notify teachers and counselors of dangerous students
 - Sexual harassment policy
 - Safe ingress and egress to and from school
 - Rules and procedures on school discipline in order to create a safe and orderly environment conducive to learning (discipline guidelines)
 - Dress code
 - Routine and emergency disaster procedures including natural disasters, human created disasters or power outages.

Staff Training Statement

The staff has been trained on the contents of this entire plan through an in-service.

Implementation of Plan

The plan has been distributed to all departments and is available to all staff, students, parents, and the community to review.

Chapter 2: School Safety Planning Committee

The school site council is responsible for developing the school site safety plan or for delegating the responsibility to a school safety planning committee (Education Code 35294.1). The school site safety committee is composed of the following members: the Director of Operations or designee, one teacher who is a representative of the recognized certificated employee organization, one parent/guardian whose child attends the school, one classified employee who is a representative of the recognized classified employee organization and other members, if desired (Education Code 35294.1). In addition, local law enforcement has been consulted (Education Code 39294.1).

The School Safety Planning Committee members are:

- | | |
|---|--|
| 1. <u>Dave Weisman</u>
Name | <u>Director of Operations</u>
Position |
| 2. <u>Les Stickle</u>

Position |

Other members of the school or community may provide valuable insights as members of the School Safety Planning Committee. Additional members may include:

- A representative from the local law enforcement agency
- School resource officers
- Guidance counselor
- Special education department chairperson
- One or more key community service providers
- Student representative(s)
- Disciplinary team member
- Staff leaders
- Additional parent representatives

Chapter 3: Annual Safety Goals

The School Safety Planning Committee shall make an assessment of the current status of school crime committed on campus and at school-related functions and of appropriate strategies and programs that will provide or maintain a high level of school safety. (Education Code 35924.2)

The school's Safety Planning Committee reviewed school, district and community crime data trends. Other data can bring value to the discussions. Such data may include: mental health data, state, district or site surveys (such as the California Healthy Kids Survey), disciplinary data and community police data.

Based on data analysis, the School Safety Planning Committee identified two safety-related goals for the next school year as well as the strategies and/or programs that will be used to meet those goals. The objective is to provide meaningful goals in order to improve the campus climate. The goals are reported, with the Safety Plan, to the board of education and are shared with the school staff and community. In order to keep the goals as a safety focus for the school year, at least three brief meetings were held to review data and progress.

Safety Plan Goals for 2013 - 2014

GOAL 1: Reduce the number of incidents of student bullying by 25 percent during school time.

Strategy	1.1: Refine Emergency Procedures, especially Shelter-in-Place and Intruder Procedures to match unique site requirements.	1.2: Research and implement guest identification methods that are effective in this environment, with this physical plant.	1.3: Use collaborative development to identify unanticipated conditions and contingencies for all types of emergencies via Teachers Council and Parent Alliance, et al.
Baseline	1.1: Staff members and students have drilled on existing procedures, comparable to other school sites. Physical plant conditions suggest additional contingency planning to accommodate current site circumstances.	Access material from the District, COE, UCSB. Local, state and US resources to collect available information on setting and meeting security goals, given this environment.	Survey staff, parents to learn which initiatives serve students and families well and incorporate into Emergency Plans as appropriate by D of O.
Assessment	1.1: Director of Op.s will monitor drills to determine efficacy of EOP components.	1.2: Observations and data to the Teachers Council, Parent Alliance...	1.3: Analysis and adjustment as indicated by the D. of O.

GOAL 2: Maintain/increase the sense of safety and well being of students at school.

Strategy	Strategy 2.1: Maintain what are currently low levels of serious incidents leading to suspensions/expulsions. Use conflict resolution practices to preempt serious or violent interactions. Ensure that students are aware of protections and responsibilities.	Strategy 2.1: Ensure all Instructional Aides are confident in conflict resolution practices. Provide training to parents and volunteers throughout school year in both anecdotal and formal training.
Baseline	2.1: The number of visits to the Health Office will be	Strategy 2.2: Student attendance will be monitored

	reviewed for baseline data.	through the school office
Assessment	2.1: Statistics from Health Office visits will be monitored.	2.2: The annual percentage of absences will be compared to past years.

Chapter 4: Policies and Procedures

Mandated Policies and Procedures

The School Safety Planning Committee has reviewed the site safety plan and made necessary updates and revisions. The safety plan includes the following components (Education Code 35294.2):

- Child abuse reporting consistent with Penal Code 11166.
- Policies pursuant to Education Code 48915 and other school-designated serious acts which would lead to suspension, expulsion or mandatory expulsion recommendations.
- Procedures to notify teachers and counselors (amended Welfare and Institutions Code 827) of dangerous students pursuant to Education Code 49079.
- Sexual harassment policy pursuant to Education Code 212.5.
- Procedures for safe access and exit of students, parents/guardians, and employees to and from the school.
- The rules and procedures on school discipline adopted pursuant to Education Code sections 35291 and 35291.5 (Board Policy 5144, “discipline”) to create a safe and orderly environment conducive to learning at school.
- The school does not have a specific dress code prohibiting students from wearing “gang related apparel”. Inappropriate clothing will be addressed on a case-by-case basis.
- Routine and emergency disaster procedures, including: emergency and disaster preparedness plan, fire drills, bomb threats, earthquake emergency procedure system and transportation safety and emergencies.

Statement of Rules and Procedures on School Discipline

Every teacher in the public schools shall hold pupils to a strict account for their conduct on the way to and from school, on the playgrounds, or during recess. A teacher, vice principal, principal, or any other certificated employee of a school district, shall not be subject to criminal prosecution or criminal penalties for the exercise, during the performance of his duties, of the same

degree of physical control over a pupil that a parent would be legally privileged to exercise but which in no event shall exceed the amount of physical control reasonably necessary to maintain order, protect property, or protect the health and safety of pupils, or to maintain proper and appropriate conditions conducive to learning. (Education Code 44807)

Notification to Students and Parents

Parents and students shall be notified of the district and school site rules pertaining to student discipline at the beginning of the first semester, and at the time of enrollment for students who enroll thereafter. The discipline policy shall be reviewed annually with input from the Discipline Team, site administrators, campus security, staff, students, and parents. See Appendix A for a chart on progressive discipline.

Discipline

No student will be allowed to disrupt the normal school day activity or to compromise the health and safety of the campus. Any student who violates the dress code policy of the school site shall be requested to change his or her clothing for the first offense. Students shall be requested to change their clothing and shall be disciplined for each subsequent offense for willful defiance per school and district policy.

Suspension and Expulsion Policies

See Appendix A for grounds for suspension and expulsion.

Per Education Code 48900(s), a pupil may not be suspended or expelled for any of the acts listed above unless that act is related to school activity or school attendance occurring within a school under the jurisdiction of the superintendent or principal or occurring within any other school district.

A pupil may be suspended or expelled for acts which are enumerated in this section and related to school activity or attendance that occur at any time, including but not limited to, any of the following:

- while on school grounds;
- while going to or coming from school;
- during the lunch period, whether on or off the campus;
- during, or in route to and from, a school sponsored activity.

Staff Notification of Dangerous Students

Education Code 49079 requires that the school administration notify classroom teachers of students who have engaged in, or are reasonably suspected of, engaging in certain suspendable or expellable acts (Education Code sections 48900 and 48915) for the three previous years.

The goal is to define a system whereby every classroom teacher and substitute will have immediate access to the names of those students currently enrolled in his/her classroom who meet the criteria of Education Code section 48900. This plan has been reviewed with every district comprehensive school.

1. Aeries (the computerized student information system) entries under the #4 discipline tab will include a notation in the "SSA Date" that includes the date of the latest suspension under those Education Code tenets described above. SSA refers to the Safe School Act.
2. On a subsequent offense, the date is changed to the most current offense. If a student enrolls from a court or community school or from any other school and we have a record that the student has committed a suspendable offense, site administration will ensure someone enters the enrollment date in the same field. It is the responsibility of the site administration to determine who will enter this information. When notice is received from any court that the student has committed any law violation which falls into any category outlined by Education Code 48900, the local school will enter the date of the offense into field #4 discipline tab.
3. This process will not replace the formal notification to teachers of offenses under Education Code 49079.
4. Teachers will keep this information available in their confidential classroom material for others (e.g., substitutes) to read when necessary.
5. Site administration will make every effort to

contact a suspended student's teachers as soon as practical after the offense.

Sexual Harassment Policy

Definition

Sexual harassment includes unwelcome sexual advances, requests for sexual favors, sexually motivated physical contact, or other verbal or physical conduct or communication of a sexual nature when any of four conditions are met:

1. Submission to the conduct or communication is made a term or condition, either explicitly or implicitly, of obtaining education.
2. Submission or rejection of the conduct or communication is used as a factor in decisions affecting that person's education.
3. The conduct or communication has the purpose or effect of "substantially interfering" with a person's education.
4. The conduct or communication creates a real or reasonably perceived "intimidating, hostile, or offensive" educational environment.

Board Policy 5145.7: "Sexual Harassment"

The board of education of the Santa Barbara School Districts is deeply committed to the premise that on high school campuses, full participation in the educational process must be in an environment that is free from unlawful harassment and is nondiscriminatory with regard to race, color, national or ethnic origin, citizenship, age, gender, religion, sexual orientation, physical or mental disability, medical condition, marital status, or any other basis protected by federal, state, or local law, ordinance, or regulation, or Title IX of the Education Amendments of 1972. The Board maintains a strict policy prohibiting unlawful harassment or discrimination on the basis of any of these protected areas. See appendix H.

Complaint Procedure

Any employee or student may have a claim of harassment even if he or she has not lost a job, some economic benefit, or academic benefit in the case of students. The law prohibits any form of protected

basis harassment that impairs an employee's or student's working ability or emotional well-being at work or school. Employees or students who think they are being harassed or discriminated against in the work place or on campus because of their gender, race, national origin and/or other protected basis, should use the district's policy procedures to file a complaint.

Employees and students have the right of redress for unlawful harassment or discrimination. In order to secure this right, individuals must submit a complaint, preferably but not necessarily in writing, to their own or any other supervisor, the districts' Director of Personnel, the superintendent, or in the case of students, to the school site administrator, as soon as possible, but at least within six months of the date the alleged incident occurred or within six months of the date the employee or student first obtained knowledge regarding the alleged incident. The complaint should include the details of the incident or incidents, the names of the individuals involved and the names of any witnesses.

Staff-to-Staff, Staff-to-Student, and Student-to-Staff Complaint

A staff-to-staff and student-to-staff sexual harassment/discrimination complaint will be referred to the district's Assistant Superintendent of Human Resources, along with the original copy of the complaint form. The complaint will be kept highly confidential.

Student-to-Student Complaint

This type of complaint will be handled by the site administrator or designee, following the districts' guidelines on handling a sexual harassment complaint. The original copy of the complaint and disposition shall be forwarded to the office of Student Services.

Knowledge of Student-to-Student and Staff-to-Student Sexual Harassment

Staff having knowledge of any alleged sexual harassment activity will report that information to the school's administration. It is the administration's responsibility to make sure that the proper process is used to respond to the complaint.

Mandated Reporting

Definition of Child Abuse

Child abuse means a physical injury that is inflicted by other than accidental on a child by another person; the sexual abuse of a child or any act or omission pertaining to child abuse reporting laws (willful cruelty, unjustifiable punishment of a child, unlawful corporal punishment or injury); and the physical or emotional neglect of a child or abuse in out-of-home care.

Child Abuse

- Injury inflicted by another person
- Sexual Abuse
- Neglect of child's physical, health, and emotional needs
- Unusual and willful cruelty; unjustifiable punishment
- Unlawful corporal punishment

Not Considered Child Abuse

- Mutual affray between minors
- Injury caused by reasonable and necessary force used by a peace officer
- To quell a disturbance threatening injury to a person or damage property
- To prevent physical injury to another person or damage to property
- For the purposes of self-defense
- To obtain weapons or other dangerous objects within the control of a child
- To apprehend an escapee

Mandated Child Abuse Reporting

Mandated child abuse reporting is governed by the Child Abuse and Neglect Reporting Act, Penal Code 11164.

Any child care custodian, health practitioner, or employee of a child protective agency who has knowledge of or observes a child in his or her professional capacity or within the scope of his or her employment whom he or she knows or reasonably suspects has been the victim of child abuse shall report the known or suspected instance of child abuse to a child protective agency by telephone and written report: the telephone call must be made immediately

or as soon as possible by telephone AND a written report must be sent within 36 hours of the telephone call to Child Protective Services (1-805-683-2724).

Any child care custodian, health practitioner, or employee of a child protective agency who has knowledge of or who reasonably suspects mental suffering has been inflicted on a child or his or her emotional well-being is endangered in any other way, may report such known or suspected instance of child abuse to a child protective agency.

When two or more persons who are required to report are present and jointly knowledge of a known or suspected instance of child abuse, and when there is agreement among them, the telephone report may be made by a member of the team selected by mutual agreement and a single report may be made and signed by the selected member of the reporting team. Any member who has knowledge that the member designated to make the report failed to do so, shall thereafter make such a report.

The intent and purpose of the law is to protect children from abuse. The definition of a child is any person under 18 years of age.

This entire section on child abuse was taken from *California Laws Relating To Minors*.

Child abuse laws change from time to time. Should you suspect that a student is engaged in unlawful sexual activity, please consult with the school social worker and campus officer to determine if particular provisions under this section are current and in effect.

Sexual Activity

Involuntary sexual activity is always reportable.

Incest, even if voluntary is always reportable. Incest is a marriage or act of intercourse between parents and children; ancestors and descendants of every degree; brothers and sisters of half and whole blood and uncles and nieces or aunts and nephews. (Family Code section 2200)

Voluntary sexual activity may or may not be

reportable. Even if the behavior is voluntary, there are circumstances where the behavior is abusive; either by Penal Code definition or because of an exploitative relationship and then this behavior must be reported. If there is reasonable suspicion of sexual abuse prior to the consensual activity, the abuse must be reported.

Reportable Sexual Activity if a Child is 14 years of age

Sexual activity must be reported if a child is 14 years of age and:

- The partner is younger than 14 years old, but there is a disparity in chronological or maturational age or indications of intimidation, coercion or bribery or other indications of an exploitative relationship.
- The partner is 14 years or older, lewd and lascivious acts committed by a partner of any age, partner is alleged spouse and over 14 years of age.

Reportable Sexual Activity if the Child is 14 or 15 years of age

Sexual activity must be reported if the child is 14 or 15 years of age and:

- There is unlawful sexual intercourse with a partner older than 14 but less than 21 years of age and there is no indication of abuse or evidence of an exploitative relationship there is unlawful sexual intercourse with a partner older than 21 years.
- There are lewd and lascivious acts committed by a partner more than 10 years older than the child.
- The partner is the alleged spouse and over 21 years of age.

Reportable Sexual Activity if the Child is 16 or 17 years of age

Sexual activity must be reported if the child is 16 or 17 years of age and:

- The partner is less than 14 years of age.
- There is unlawful sexual intercourse with a partner older than 14 and there is evidence of an exploitative relationship.
- The partner is the alleged spouse and there is evidence of an exploitative relationship.

Reportable Sexual Activity if the Child is under 18 years of age

Sodomy, oral copulation, penetration of a genital or anal opening by a foreign object, even if consensual, with a partner of any age must be reported.

Not Reportable Sexual Activity

- Child is 14 years or younger and partner is younger than 14 years and of similar age or maturational age. Sexual behavior is voluntary and consensual. There are no indications of intimidation, coercion, bribery, or other indications of an exploitative relationship.
- Unlawful sexual intercourse of a child 14 to 15 years-old with a partner older than 14 and less

than 21 years of age and there is no indication of abuse or evidence of an exploitative relationship.

- Unlawful sexual intercourse with a child 16 or 17 years with a partner older than 14 and there is no indication of an exploitative relationship.

Mandated reports of sexual activity must be reported to either Child Protective Services (CWS) and to the appropriate police jurisdiction. This information will also be cross-reported to the other legal agency.

Failure to report known or reasonable suspicion of child abuse, including sexual abuse, is a misdemeanor. Mandated reporters are provided with immunity from civil or criminal liability as a result of making a mandated report of child abuse. Child abuse reporting phone number: (805) 683-2724

Chapter 5: Drills and Emergency Disaster Procedures

Authorities, References, and Definitions

California Emergency Services Act (Chapter 7, Division 1, Title 2, California Government Code)

The California emergency Services Act provides the basic authorities for conducting emergency operations following a proclamation of a local emergency, state of emergency, or state of war emergency by the governor and/or appropriate local authorities, consistent with the provisions of this Act.

California Government Code, Section 3100, Title 1, Division 4, Chapter 4

Public employees are disaster service workers, subject to such disaster service activities as may be assigned to them by their superiors or by law. The term "public employee" includes all persons employed by the state or any county, city, city and county, state agency or public district, excluding aliens legally employed.

The law applies to public school employees in the following cases: when a local emergency is proclaimed; when a state of emergency is proclaimed; or when a federal disaster declaration is made.

The law has two ramifications for school district employees:

1. It is likely that public school employees are pressed into service as disaster service workers by their superiors, and may be asked to do jobs other than their usual duties for periods exceeding their normal working hours.
2. When pressed into disaster service, employee workers' compensation coverage becomes the responsibility of state government (Governor's Office of Emergency Services), but their overtime pay is paid by the school.

These circumstances apply only when a local or state emergency is declared. The Governor's Office of Emergency Services has stated that inadequately trained school staff renders school officials potentially liable for acts committed or omitted by school staff acting within the scope of their training

during or after a disaster. It requires that school districts be prepared to respond to emergencies using State Emergency Management System (SEMS).

California Civil Code, Chapter 9, Section 1799.102

The code provides for Good Samaritan Liability for those providing emergency care at the scene of an emergency.

No person, who, in good faith and not for compensation, renders emergency care at the scene of an emergency, shall be liable for any civil damages resulting from any act or omission. The scene of an emergency shall not include emergency departments and other places where medical care is usually offered (Good Samaritan Liability).

California Education Code Sections 35295-3529, 40041, and 40042

The code requires that a school site disaster plan outline roles, responsibilities, and procedures for students and staff. It also requires that the school site emergency management organizational structure comply with SEMS, Title 19 Section 2400, and be ready for implementation at all times.

California Emergency Plan

Promulgated by the governor, and published in accordance with the California Emergency Services Act, it provides overall statewide authorities and responsibilities and describes the functions and operations of government at all levels during extraordinary emergencies, including wartime. Section 8568 of the Act states, in part, that "...the State Emergency Plan shall be in effect in each political subdivision of the state, and the governing body of each political subdivision shall take such action as may be necessary to carry out the provisions thereof." Therefore, local emergency plans are considered extensions of the California Emergency Plan.

Definitions: Incidents, Emergencies, Disasters

Incident

An *incident* is an occurrence or event, either human-caused or caused by natural phenomena, that requires action by emergency response personnel to prevent or minimize loss of life or damage to property and/or natural resources. Incidents may result in extreme peril to the safety of persons and property and may lead to, or create conditions of disaster. Incidents may also be rapidly mitigated without loss or damage. Although they may not meet disaster level definition, larger incidents may call for managers to proclaim a "Local Emergency".

Incidents are usually a single event that may be small or large. They occur in a defined geographical area and require local resources or, sometimes, mutual aid. There is usually one to a few agencies involved in dealing with an ordinary threat to life and property and to a limited population. Usually a local emergency is not declared and the jurisdictional emergency operations center (EOC) is not activated. Incidents are usually of short duration, measured in hours or, at most, a few days. Primary command decisions are made at the scene along with strategy, tactics, and resource management decisions.

Emergency

The term *emergency* is used in several ways. It is a condition of disaster or of extreme peril to the safety of persons and property. In this context, an emergency and an incident could mean the same thing, although an emergency could have more than one incident associated with it. Emergency is also used in SEMS terminology to describe agencies or facilities (e.g., Emergency Response Agency, Emergency Operations Center).

Emergency also defines a conditional state such as a proclamation of "Local Emergency". The California Emergency Services Act, of which SEMS is a part, describes three states of emergency:

- State of war emergency
- State of emergency
- State of local emergency

Disaster

A *disaster* is defined as a sudden calamitous emergency event bringing great damage, loss, or destruction. Disasters may occur with little or no advance warning (e.g., an earthquake or flash flood) or they may develop from one or more incidents (e.g., a major wildfire or hazardous materials discharge). Disasters are either single or multiple events that have many separate incidents associated with them. The resource demand goes beyond local capabilities and extensive mutual aid and support are needed.

There are many agencies and jurisdictions involved including multiple layers of government. There is usually an extraordinary threat to life and property affecting a generally widespread population and geographical area. A disaster's effects last over a substantial period of time (days to weeks) and local government will proclaim a local emergency. Emergency operations centers are activated to provide centralized overall coordination of jurisdictional assets, departments and incident support functions. Initial recovery coordination is also a responsibility of the EOC's.

Levels of Response

Response levels are used to describe the type of event: the area(s) affected, the extent of coordination or assistance needed, and the degree of participation expected from the school district. Response levels are closely tied to emergency proclamations issued by the head of local government.

Response Level 0 - Readiness and Routine Phase

On-going routine response by the school district to daily emergencies or incidents. Stand-by and alert procedures issued in advance of an anticipated or planned event.

Response Level 3 - Local Emergency

A minor to moderate incident in which local resources are adequate and available. This level of emergency response occurs when an emergency incident (e.g., gas leak, sewer back-up, assault, bomb threat, toxic spill, medical emergency, shooting) occurs. A Level 3 response requires school/site coordinators to implement guidelines contained

within this document and interact with public agencies.

Response Level 2 - Local Disaster

A moderate to severe emergency in which resources are not adequate and mutual aid may be required on a regional, even statewide basis with coordination with local police and fire departments of the affected are working in concert with Santa Barbara School District to respond. The affected cities and the County of Santa Barbara will proclaim a local emergency. Then, the State of California may declare a state of emergency.

Response Level 1 - Major Disaster

Resources in or near the impacted areas are overwhelmed and extensive State and Federal resources are required. The cities and the County of Santa Barbara will proclaim a local emergency. Then, the State of California will declare a state of emergency. A presidential declaration of an emergency or major disaster is requested by the state. Examples of major disasters are the Jesusita Fire of May 2009 and La Conchita flooding in 2001. When local jurisdictions declare a state of emergency, the district board can declare the same.

Emergency Phases

Some emergencies will be preceded by a build-up or warning period, providing sufficient time to warn the population and implement mitigation measures designated to reduce loss of life and property damage. Other emergencies occur with little or no advance warning, thus requiring immediate activation of the emergency operations plan and commitment of resources. All employees must be prepared to respond promptly and effectively to any foreseeable emergency, including the provision and use of mutual aid. Emergency management activities during peacetime and national security emergencies are often associated with the phases indicated below. However, not every disaster necessarily includes all indicated phases.

Prevention/Mitigation Phase

Prevention/mitigation is perhaps the most important phase of emergency management. However, it is often the least used and generally the most cost effective. Mitigation is often thought of as taking actions to strengthen facilities, abatement of nearby

hazards, and reducing the potential damage either to structures or their contents, while prevention is taking steps to avoid potential problems. Both of these elements require education of parents, students and teachers. While it is not possible to totally eliminate either the destructive force of a potential disaster or its effects, doing what can be done to minimize the effects may create a safer environment that will result in lower response costs and fewer casualties.

Preparedness Phase

The preparedness phase involves activities taken in advance of an emergency. These activities develop operational capabilities and responses to a disaster. Activities identified in this plan have either a primary or support mission relative to response and recovery review Standard Operating Procedures (SOP) or checklists detailing personnel assignments, policies, notification procedures, and resource lists. Personnel are acquainted with SOP, checklists, and are periodically trained in activation and execution.

Response Phase

The response phase is the time when agencies implement previously prepared plans.

Pre-Impact: recognition of the approach of a potential disaster where actions are taken to save lives and protect property. Warning systems may be activated and resources may be mobilized, EOC's may be activated and evacuation may begin.

Immediate Impact: emphasis is placed on saving lives, controlling the situation, and minimizing the effects of the disaster. Incident command posts and EOC's may be activated and emergency instructions may be issued.

Sustained: As the emergency continues, assistance is provided to victims of the disaster and efforts are made to reduce secondary damage. Response support facilities may be established. The resource requirements continually change to meet the needs of the incident.

Recovery Phase

Recovery is taking all actions necessary to restore the area to pre-event conditions or better, if possible. Therefore, mitigation for future hazards plays an important part in the recovery phase for many emergencies. There is no clear time separation

between response and recovery. In fact, planning for recovery should be a part of the response phase.

Planning

Our school has identified the location of potential evacuation sites (on and off campus) based on the potential circumstances that may cause movement/relocation of the school population in the event of an emergency. The school has planned for:

- identifying the population of people with disabilities,
- determining proper signage and equipment,
- training staff to assist individuals with disabilities,
- coordinating with emergency response personnel.

Procedures for Safe Ingress and Egress

In addition to planning for daily ingress/egress routes and emergency evacuation routes, the school planned for assisting students, staff and visitors with disabilities. Under the Americans with Disabilities Act of 1990, individuals who are deaf/hard of hearing, blind/partially sighted, mobility impaired and/or cognitively/emotionally impaired must be assisted. The school map identifies evacuation areas and ingress/egress routes. Campus map is in Appendix A. Details of routes are held confidential for security purposes.

On-Campus Evacuation/Assembly Location

The primary evacuation site for Monroe Elementary School will be on campus on the playground.

Primary Off-Site Evacuation/Assembly Location

Goleta Valley Junior High School
6100 Stow Canyon Rd.
Goleta, CA 93117

Emergency Campus Evacuation

If it is necessary to evacuate the entire campus to another school or relief center, the principal will: notify the superintendent of the campus evacuation, cooperate with emergency authorities in enlisting

students/staff with cars to help transport evacuees, direct the evacuation and assure all students/staff are accounted for as they depart and arrive.

In an emergency building evacuation all employees will:

1. Upon emergency alert, secure work area and depart/report to assigned area.
2. Perform duties as pre-assigned by the principal in cooperation with emergency services personnel.
3. Do not re-enter the building without permission or request of emergency service authorities.
4. Remain in the general assembly areas and calm students if not assigned another duty.
5. When signaled to re-enter safe areas of the school, quickly do so.
6. Upon safe re-entry, report anything amiss to the operations chief.

In an emergency building evacuation teachers will also:

1. Assemble students for evacuation using designated routes and account for all students.
2. Secure room.
3. If possible, leave a note on the door advising where the class evacuated to if other than the standard assembly area.
4. Upon arrival at the assembly area, account for all students.
5. Secure medical treatment for injured students.
6. Report any students missing or left behind because of serious injuries.
7. Stay with and calm students.
8. If signaled to re-enter school, assure students do so calmly and account for all students.
9. Check room and report anything amiss to the team leader and/or operations chief.
10. Debrief students to calm fears about the evacuation.

Signals

Specific communication techniques for all incidents might vary by school site due to functional alarm systems, intercoms, etc. There are two basic alarms systems: stay in place or evacuate. Specific incidents will dictate additional responses. However, when sound signals are available, the two primary signals should follow this pattern:

- A high-low siren tone indicates that all staff and students should find shelter and plan to remain in a single location.
- A series of short bells indicate an evacuation is required.

Fire Drills

Principals shall hold fire drills at least once a month in all elementary schools, quarterly at all junior high schools and at least twice each school year at all high schools.

- Whenever the fire alarm is sounded, all students, teachers and other employees shall quickly leave the building in an orderly manner. Teachers shall ascertain that no student remains in the building.
- Designated evacuation routes shall be posted in each room. Teachers shall be prepared to select alternate exits and direct their classes to these exits in the event the designated evacuation route is blocked.
- Evacuation areas will be established away from fire lanes.
- Students are to remain with their teacher in the evacuation area. Teachers shall take their roll books, take roll once in the evacuation area, and be prepared to identify missing students to appropriate personnel.
- The principal or designee shall keep a copy of each drill conducted on the Emergency Drill Report form and file a copy with the superintendent/designee.

Standards for a Successful Fire Drill

1. The fire alarm can be heard by all staff and students.
2. Orderly evacuation begins immediately and is completed within five minutes of the initial alarm, with minimal congestion at exit gates.
3. Teachers and students are staged in an orderly fashion away from fire lanes.
4. Teachers have taken roll once in the evacuation area. Any missing students are immediately reported to the principal/designee.
5. Upon sounding of the all clear, students and staff return to their appropriate classroom and the teacher takes roll again. Missing students are reported to the attendance office.

Lockdown Drills

The school conducts lockdown drills along with other types of emergency planning. These drills initially involve more pre-planning and organization than conducting others.

The school conducts at least one annual drill, which ordinarily takes no longer than 40 minutes and impacts class time by 20 minutes. Drills are scheduled with either the District Safety Office or School Resource Officer. There are a number of steps that are required in lockdown drills in order to be successful. They involve:

1. Conduct a staff meeting. Plan on a 20 minute timeframe to review expectations and standards in terms of:
 - Locking doors
 - Covering windows
 - Turning off lights
 - Building barricades
 - Reviewing classroom and all clear procedures
 - Reviewing off site evacuation locations.
2. Send a follow-up reminder memo to your staff
3. Organize your assessment team. This also provides an excellent opportunity for your critical response team to work together with police participants in the drill.
4. Conduct the assessment.
5. Complete follow-up tasks. Remember, this sets the tone for the importance of safety for students and staff on your campus.

Lockdown

A lockdown alert is sounded if there is a sniper, armed intruder or active shooter on campus. Staff members have a very limited amount of time in which to commit to a course of action. Immediately assess both the situation and the surrounding environment and respond to the situation based upon training and drills. This is also true for students who may need to become resources for substitutes or who are alone when an event occurs. Remember, the lockdown response is a partnership with local law enforcement.

Immediate actions

1. Students and staff go into classrooms/buildings or run to off-site evacuation areas.

2. Lockdown includes building door barricades, internal barricades, covering windows and turning off/dimming lights.
3. Notify administration.
4. Call 9-1-1 if you know the location of the shooter, the description or identity of the shooter or if you need medical direction for a victim.
5. Administration notifies the superintendent.

Intermediate activities

1. Place a red card under the door/in a window if you have a serious injury in the classroom.
2. Take roll and conduct anxiety-reducing activities.

Evacuation

1. Prepare students and yourself for a quick evacuation.
2. Follow directions of law enforcement when they arrive.

Shelter-In-Place

Shelter-in-Place may be directed if there should be a danger in the community that could present a danger to the school community or a situation at the school that could harm students or staff if they are outdoors. Incidents could include gas leaks, chemical spills, mountain lions or a predator in the neighborhood. In the event of an airborne chemical or biological release, it is safest for students and staff to remain indoors at the school site and “shelter-in-place” procedures apply.

The following steps should be followed when instructed or when an alerting system triggers a shelter-in-place:

1. **Shelter**-Go inside the nearest building or classroom, remain there and lock the door. You are looking for enclosed protection from the outside. Teachers should quickly check halls and get students into classrooms. Teachers will keep all students in the classroom until the emergency is resolved or directed to evacuate by the principal and/or public safety responders.
2. **Shut**-Close all doors and windows. The tighter and more complete the seal the better. Close as many windows and doors between the outside and your shelter-in-place room as possible.

3. **Listen**-Remain quiet to hear critical instructions from school officials. If there is no direction, continue instructional/work activities until the situation resolves or you are directed to do otherwise.

Additional steps for teachers and staff (if appropriate)

1. Advise students to cover mouth and nose with a damp cloth or handkerchief to protect from any airborne hazards.
2. A school official (or student if no official present) should close all vents and turn off ventilation systems. The goal is to keep inside air in and outside air out. Air conditioners and heating systems bring outside air in.
3. Turn off all motors and fans. Still, non-moving air is best. Turn off anything that creates wind, generates extra heat, or could generate sparks.
4. Advise students to remain sheltered until the “all-clear” signal is given by a school or local official.

District and Parent Responsibilities for Students

The Basic Plan

The basic plan addresses the school’s responsibilities in emergencies associated with natural disaster, human-caused emergencies and technological incidents. It provides a framework for coordination of response and recovery efforts within the district in coordination and with local, state, and federal agencies. The plan establishes an emergency organization to direct and control operations at all sites during a period of emergency by assigning responsibilities to specific personnel. The basic plan:

- Conforms to the federally mandated National Incident Management System (NIMS), State mandated Standardized Emergency Management System (SEMS) and effectively restructures emergency response at all levels in compliance with the Incident Command System (ICS).
- Establishes response policies and procedures, providing the school clear guidance for planning purposes.
- Describes and details procedural steps necessary to protect lives and property.

- Outlines coordination requirements.
- Provides a basis for unified training and response exercises to ensure compliance.

Requirements

The plan meets the requirements of Santa Barbara County's policies on emergency response and planning, the Standardized Emergency Management System (SEMS) operational area response, and defines the primary and support roles of the district and individual schools in after-incident damage assessment and reporting requirements.

Objectives

- Protect the safety and welfare of students, employees and staff.
- Provide for a safe and coordinated response to emergencies.
- Protect the district's facilities and properties.
- Enable the district to restore normal conditions with minimal confusion in the shortest time possible.
- Provide for interface and coordination between sites and the district emergency operations center (EOC).
- Provide for interface and coordination between sites and the county or city EOC in which they reside.

Schools are required by both federal statute and state regulation to be available for shelters following a disaster. The American Red Cross (ARC) has access to schools in damaged areas to set up their mass care facilities, and local governments have a right to use schools for the same purposes. This requires close cooperation between school officials and ARC or local government representatives, and should be planned and arranged for in advance. This planning has been accomplished.

District Responsibility

If the superintendent declares a district emergency during the school day, the following procedures will be followed. All students will be required to remain at school or at an alternate safe site under the supervision of the school principal or other personnel assigned by the principal until regular dismissal time and released only then if it is considered safe or until released to an adult authorized by the parent or legal guardian whose name appears on district records. If

students are on their way to school, they should continue to on their way to school. If students are on their way home from school, they are to continue home.

During a declared emergency, those students who have not been picked up by their parents or other authorized person may be taken by district personnel to another site where consolidated care facilities can be provided. This information will be given to the media stations and posted at the site to keep parents informed.

Staff Planning Suggestions

Preparedness for emergencies starts with planning. The backbone of school planning is dependent on the staff's willingness to stay at school during a major community emergency. Personal preparedness makes this much easier. Each staff member needs to prepare their family and home for earthquakes and other emergencies. Staff members should have:

1. a 72-hour supply kit for the home,
2. a car kit, including comfortable clothes/shoes and medications,
3. developed a plan to reunite with their family,
4. a neighborhood preparedness program.

Preparedness brochures are available from the local chapter of the American Red Cross, Santa Barbara County Office of Emergency Services, www.redcross.org, www.prepare.org or www.ready.gov. If the disaster occurs during school time, smart emergency management recommends the child stay at school until the parent or a trusted friend (found on school emergency cards) picks up the child. Nobody can guess, especially in an earthquake, how impacted neighborhoods may be. This means the school staff will need to stay with the children. You can only do this if you are prepared at home. You must feel that your family can activate your family plan without you.

Parent Responsibility

Parents and legal guardians of students will be provided with a Student Health/Emergency Form each year. In case of a declared emergency, students will be released ONLY to persons designated on this form. Parents are responsible for ensuring that information on the Student Health/Enrollment Form is current at all times. Parents are asked to share with

the schools the responsibility for informing students of what they should do in case of a severe earthquake or other major emergency.

Parents need to give specific directions to each student to follow the policy outlined above and to follow the directions of school personnel. School authorities will do everything possible to care for each student while he/she is under district supervision. It is critical that students do not have directions from parents that are contrary to the district's stated policy on retention at school and authorized release in case of a severe emergency.

Emergency Response Procedures Basic Actions

Most emergency responses are covered by the following basic actions.

Stand By

Stand by consists of bringing students into the classroom or holding them in the classroom pending further instruction.

Leave Building

Leave building consists of the orderly movement of students and staff from inside the school building to outside areas of safety or planned evacuation site. Leave Building is appropriate for, but not limited to, the following emergencies:

- fire,
- peacetime bomb threat,
- chemical accident,
- explosion or threat of an explosion,
- following an earthquake,
- other similar occurrences that might make the building uninhabitable,
- at the onset of a lockdown alert, when teacher/supervisor has ascertained that leaving is the best option.

Take Cover

Take cover consists of bringing/keeping students indoors if possible and sheltering in place as appropriate to the situation. If outdoors, take cover consists of hiding behind any solid object (large tree, engine block of car, cement wall), in the event of a

sniper attack, armed intruder, rabid animal, or moving immediately to a location which is upwind and uphill in the event of a chemical or biological threat. Take cover is appropriate for, but not limited to, the following:

- severe windstorm (short warning),
- biological or chemical threat,
- sniper attack,
- rabid animal on school grounds.

Drop

The beginning of a disaster itself ordinarily warrants this response. It consists of:

1. **Inside school buildings.** Immediately take cover under desks or tables and turn away from all windows and remain in a sheltered position for at least 60 seconds silent and listening to/or for instructions
2. **Outside of school buildings.** Earthquake: move away from buildings and take a protective position, if possible
3. **Explosion/nuclear attack.** Take a protective position. Get behind any solid object (ditch, curb, tree, etc.); lie prone with head away from light or blast; cover head, face, and as much of the skin surface as possible; close eyes, and cover ears with forearms.

Go Home

Go home consists of dismissal of all classes and return of students to their homes by the most expeditious manner. Go Home is to be considered only if there is time for students to go safely to their homes and if buses or other transportation are available for students who live at a distance from the school. Notification of parents by radio broadcast, local television, phone distribution lists, or other means will be requested.

Directed Maintenance

No school personnel/students are allowed to re-enter a school facility until inspected by and authorized by appropriate school personnel which include maintenance and school administrators, and if applicable, police, fire, or city inspectors. In the event that drinking water is unsafe, water valves will be turned off and the drinking fountains sealed. Water, gas, and electrical shut-off valves will be shut-off for

each applicable building under the join authorization of the administration and head custodian.

Directed Transportation

Under certain disaster conditions, authorized officials may attempt to move an entire community, or portion thereof, from an area of danger to another area of safety. Directed transportation consists of loading students and staff into school buses, cars and other means of transportation, and taking them from a danger area to a designated safety area. This action is appropriate only when directed by the superintendent or designee, site administrator, police, fire, or OES. It may be appropriate for, but not limited to, movement away from: specified man-made emergency (shooting, etc.), chemical and biological gas alert, flood, fallout area, blast area and fire.

Chapter 6: Earthquake Considerations

Earthquake Overview

Major Earthquake Threat Summary

Earthquakes are sudden releases of strain energy stored in the earth's bedrock. The great majority of earthquakes are not dangerous to life or property either because they occur in sparsely populated areas or because they are small earthquakes that release relatively small amounts of energy. However, where urban areas are located in regions of high seismicity, damaging earthquakes are expectable, if not predictable, events. The major effects of earthquakes are ground shaking and ground failure.

Severe earthquakes are characteristically accompanied by surface faulting. Flooding may be triggered by dam or levee failure resulting from an earthquake, or by seismically induced settlement or subsidence. All of these geologic effects are capable of causing property damage and, more importantly, risks to life and safety of persons.

A fault is a fracture in the earth's crust along which rocks on opposite sides have moved relative to each other. Active faults have high probability of future movement. Fault displacement involves forces so great that the only means of limiting damage to man-made structures is to avoid the traces of active faults. Any movement beneath a structure, even on the order of an inch or two, could have catastrophic effects on the structure and its service lines. The overall energy release of an earthquake is its most important characteristic. Other important attributes include an earthquake's duration, its related number of significant stress cycles, and its accelerations.

Earthquake Size Descriptions (Richter Magnitude Intensity Effects)

Minor Earthquake 1 to 3.9: Only observed instrumentally or felt only near the epicenter.

Small Earthquake 4 to 5.9: Surface fault movement is small or does not occur. Felt at distances of up to 20 or 30 miles from the epicenter and may cause damage.

Moderate Earthquake 6 to 6.9: Moderate to severe earthquake range; fault rupture probable.

Major Earthquake 7 to 7.9: Landslides, liquefaction and ground failure triggered by shock waves.

Great Earthquake 8 to 8+: Damage extends over a broad area, depending on magnitude and other factors.

Standards for a Successful Earthquake Drill

The earthquake alarm can be heard by all staff and students. Immediately after the earthquake alarm sounds, all students, teachers and other employees shall:

1. duck or drop,
2. evacuation (via alternative routes, if appropriate),
3. accountability (teachers have taken roll once in the evacuation area. Any missing students are immediately reported to the principal/designee.),
4. all clear (upon sounding of the all clear students and staff return to their appropriate classroom and the teacher takes roll once more. Missing students are reported to the attendance office.).

Earthquake Drills

The earthquake emergency procedure system shall include, but not be limited to, a school building disaster plan, ready for implementation at any time, for maintaining the safety and care of students and staffs. The plan will also include the following:

1. Drop procedure. As used in this article, "drop procedure" means an activity whereby each student and staff member takes cover under a table or desk, dropping to his or her knees, with the head protected by the arms, and the back to the windows. A drop procedure practice shall be held at least once each school quarter in elementary schools, quarterly in junior highs, and at least once a semester in high schools.
2. Protective measures to be taken before, during, and following an earthquake.
3. A program to ensure that the students and that both the certificated and classified staff are aware of, and properly trained in, the earthquake emergency procedure system. (Code of Regulations, Section 35297) Whenever an

earthquake alarm is sounded, all students, teachers and other employees shall immediately begin Duck, Cover and Hold procedures:

- **Duck** or drop down on the floor.
 - Take **cover** under a sturdy desk, table or other furniture with backs to the windows. Protect head and neck with arms.
 - **Hold** onto the furniture and be prepared to move with it. Stay in this position for at least one minute or, in a real situation, until shaking stops.
4. Evacuation. An evacuation should NEVER be automatic. There may be more danger outside the building than there is inside. If administrative directions are not forthcoming, the teacher will be responsible for assessing the situation and determining if an evacuation is required. Pre-determined evacuation areas should be in open areas, without overhead hazards and removed from potential danger spots (covered walkways, large gas mains, chain-linked fences with electric shock potential). Make it clear that a post-earthquake route might differ from a fire evacuation route, and that appropriate non-hazardous alternate routes may be needed. Practice evacuation using alternate routes to the assembly areas.
 5. Accountability. Students are to remain with their teacher in the evacuation area. Teachers shall take their roll books, take roll once in the evacuation area and be prepared to identify missing students to administrators and first responders. The principal or designee shall keep a copy of each drill conducted on the emergency drill report form and file a copy with the superintendent/designee.

Earthquake Drop, Cover, and Hold

Earthquake procedures in the classroom or office

1. At the first indication of ground movement, you should **drop** to the ground. It will soon be impossible to stand upright during the earthquake. Getting to the ground will prevent being thrown to the ground.
2. You should seek protective **cover** under or near desks, tables, or chairs in a kneeling or sitting

position.

3. You should **hold** onto the table or chair legs. Holding onto the legs will prevent it from moving away from you during the quake. Protect your eyes from flying glass and debris with your arm covering your eyes. You should remain in the drop position until ground movement ends.

Be prepared to **DROP, COVER** and **HOLD** during aftershocks. After ground movement ends, check for injuries and safely evacuate the building. Move to a safe, open area, away from power lines and other overhead hazards.

Earthquake procedures in other parts of the building

1. At the first indication of ground movement, you should **drop** to the ground.
2. Take **cover** under any available desk, table, or bench. If in a hallway, drop next to an inside wall in a kneeling position and cover the back of the neck with your hands.
3. After ground movement ends, check for injuries and safely evacuate the building. Move to a safe, open area, away from power lines and other overhead hazards.

Earthquake procedures while outside

1. At the first indication of ground movement, move away from overhead hazards such as power lines, trees, and buildings.
2. **Drop** to the ground and **cover** the back of the neck with your hands. Be aware of aftershocks.
3. Do not enter buildings until it is determined safe to do so.

If walking to or from school, do not run. Stay in the open. If the student is going to school, continue to the school. If the student is going home, he/she should continue to go home. While in a vehicle or school bus, pull over to the side of the road and stop. If on a bridge, overpass, or under power lines, continue on until the vehicle is away from the overhead dangers. Wait until the ground movement stops and check for injuries. Be aware of after shocks, downed wires, or roads blocked by debris. The bus driver is legally responsible for the welfare of student riders.

Chapter 7: Special Considerations for Other Emergencies

Fire

All classrooms and offices shall have an emergency exit sign and evacuation chart posted in a prominent location.

Fire within a School Building

In the event that a fire is detected within a school building, use the following procedures:

1. The principal or designee will: order an evacuation if the fire alarm doesn't work, call 9-1-1 and notify the superintendent
2. Teachers will supervise the evacuation of the classrooms to the designated areas according to the emergency exit plan posted in every classroom and office.
3. Teachers will close doors upon evacuating.
4. Teachers will take their roll books to the evacuation site and take roll.
5. Teachers will report any missing student(s) to their team supervisor/administrator.
6. The head custodian or designees shall assist by shutting off gas valves, electricity, etc., or other if necessary for evacuating, putting out the fire, etc.
7. The head custodian or designee shall open necessary gates for fire truck and other emergency vehicle access when appropriate. The head custodian or designee will also keep access entrances open for emergency vehicles.
8. Notify students and staff when it is safe to return to the school site under the direction of the fire department and in consultation with the superintendent or designee.

Fire near School

The principal or designee shall:

1. Determine the need to execute an evacuation if nearby fire poses an immediate threat to the students or the building.
2. Notify the fire department by calling 911.
3. Notify the superintendent's office.
4. Notify students and staff when it is safe to return to the school site under the direction of the fire department and in consultation with the superintendent or designee.

5. Will review directed transportation procedures (to include planning for bus transportation).

Power Outage/Rolling Blackouts

It is the district's intent to keep schools open during a power outage. During an actual outage or anticipated outage, affected sites will be contacted as soon as practicable. Once notified, turn off computers, monitors, printers, copiers, and lights when not in use or not needed.

Preparing for an Outage

1. Update each student's emergency card.
2. Determine availability of portable lighting at site, e.g., flashlights & batteries.
3. Find out if when power is lost, do emergency lights go on and do the exit signs remain lit.
4. Clear away materials and boxes from hallways and pathways.
5. Ask your teachers to have alternative teaching methods and plans available.
6. Conduct a survey of your site for the classrooms and offices with no windows and prepare relocation plans.
7. Plan alternative communication methods that suit your site, such as runners, cell phones, or radios.
8. Develop a site plan such as a buddy system or chaperone, for restrooms or any other necessary leave during this period.
9. Have flashlights & replacement batteries available for the restrooms and other locations with no windows.
10. Ask your staff and students to have seasonal warm clothing available.
11. Use surge protectors for all computer equipment, major appliances and electronic devices.

During an Outage

1. Contact district maintenance office immediately if your site experiences a blackout.
2. Phones connected directly to a phone jack should still be operable.
3. If an outage lasts more than 30 minutes, have pre-designated people walk through the campus and check on the status of individuals in each

- building.
4. Use a buddy system when going to the restrooms.
 5. Do not use barbeques, Coleman-type stoves, hibachis and other outdoor-cooking devices indoors.
 6. Do not use candles or gas lanterns.
 7. Turn off computers, monitors, printers, copiers, and major appliances.
 8. Shut off lights in unoccupied rooms.

Rolling outages should not last more than two hours and, with some preparation, business can be conducted as close to normal as possible. If a power outage is prolonged, the principal should contact the superintendent for directions (release students/staff, evacuation to another site, etc.).

Bomb Threat

The person receiving the bomb threat will:

1. Attempt to gain as much information as possible when the threat is received. Do not hang up on the caller.
2. Use the "bomb threat checklist" form (see chapter 10) as a guide to collect the information needed. Don't be bashful about asking direct, specific questions about the threat. Keep the caller on the phone as long as possible. If the threat is received by phone, attempt to gain more information.
3. The most important information is: When will the bomb explode and where is the bomb located?
4. Immediately after receiving the bomb threat, verbally notify the building administrator of the threat received.
5. Complete the "bomb threat checklist" form.
6. Turn off cellular phones and/or walkie-talkie radios (transmits radio waves could trigger a bomb).

Building administrator will (if necessary):

1. Call 9-1-1 and give the following information: your name, call-back phone number, exact street location with the nearest cross street, nature of incident and number and location of people involved and/or injured.
2. Notify superintendent's office.
3. Evacuate involved buildings using fire drill

- procedures. Principal must have superintendent's permission to evacuate the entire site.
4. Implement a systematic inspection of the facilities to determine if everyone is out.
 5. Secure all exits to prevent re-entry to buildings during the search period.
 6. Be certain people stay clear of all buildings; a bomb(s) may be planted against an outside wall. The blast will be directed in large part away from the building.
 7. Re-occupy buildings only when proper authorities give clearance.

Fire department or police officers shall organize a search team to check for suspicious objects; a bomb can be disguised to look like any common object. Site employees should be ready to assist as needed.

Intruder on Campus

The campus intruder is defined as a non-student or a student on suspension who loiters or creates disturbances on school property. Intruders are committing the crime of criminal trespass. Dangerous and/or concealed weapons are forbidden on school premises unless carried by law enforcement officers.

Low Level

Have the person(s) under suspicion kept under constant covert surveillance. Approach and greet the intruder in a polite and non-threatening manner. Identify yourself as a school official. Ask the intruder for identification and what their purpose is for being on campus. Advise intruder of the trespass laws. Ask the intruder to quietly leave the campus or invite him/her to accompany you to the office.

If the intruder refuses to respond to your requests, inform him/her of your intention to summon law enforcement officers. If the intruder gives no indication of voluntarily leaving the premises, notify police and administration.

If intruder(s) are on playground or grounds at brunch or lunch time, outdoor supervisors should notify the office by radio and move all students into cafeteria/gym/classrooms unless otherwise directed and lock exit doors to cafeteria/gym. Consider activating shelter-in-place or lockdown alarm throughout rest of school as appropriate.

Hostage Situation

Staff and students should sit quietly if the situation is in their presence and try to remain calm. Staff should set the example if the armed intruder is in their presence by doing anything possible for the staff member and students to survive. If gun fire starts, staff and students should seek cover or begin rapid movement procedures. Do not engage in a conversation or try to persuade the intruder to leave your classroom or school. Remember, you are in an illogical situation so any logical argument may go unheard.

The intruder is probably aware of the potential danger that he/she would be facing if he/she left the classroom. The intruder may perceive himself/herself as being sane. If the intruder speaks to you or to your students, then answer him or her. Do not provoke him or her. Don't try to take matters into your own hands.

Students should be told not to whisper to one-another, laugh, or to make fun of the intruder. Remember, the intruder is disturbed and probably mentally ill, and more than likely paranoid. Any whispering or laughter may be perceived by the intruder as directed at him or her. Students should be taught to respond on their own when threatened. Incidents can occur which leave no time for signals.

If students are outside and are unable to find access to a room, they should, depending on the situation, initiate "take cover" position or run in a zig-zag fashion to the staging areas and stay calm. If and when possible, call administration and/or 9-1-1.

Poisoning, Chemical Spills, Hazardous Materials

Poisoning

If a student ingests a poisonous substance: call Poison Control Center Link Line 1-800-222-1222 and take appropriate first aid measures; call parents and notify the health office.

Chemical Spill on-site

The following are guidelines for chemical spills:

1. Evacuate the immediate area of personnel.
2. Determine whether to initiate shelter-in-place

protocol.

3. Secure the area (block points of entry).
4. Identify the chemical and follow the procedures for that particular chemical.
5. Notify the district office.

Chemical Spill Off-Site Involving District Property

Notify the district office with the following information:

1. date, time, and exact location of the release or threatened release;
2. name and telephone number of person reporting;
3. type of chemical involved and the estimated quantity;
4. description of potential hazards presented by the spill;
5. document time and date notification made;
6. other emergency personnel responding (Highway Patrol, CALTRANS, etc.);
7. locate a fire extinguisher and have present, should the need arise;
8. place reflective triangles or traffic cones if in street or highway, do not light flares;
9. if spill response equipment is available use it to take the necessary measures to prevent the spill from spreading.

Reporting Chemical Spills

Once an emergency spill response has been completed, the person reporting the initial spill will complete a spill response evaluation. The incident must be reported to the superintendent within 24 hours of the spill.

Spill Clean Up

Chemical spills may not be cleaned up by school personnel. Call the district operations office at 963-4331. The cleanup will be coordinated through a designated contractor.

Hazardous Substances

Hazardous substances include, but are not limited to the following: gasoline, lacquer, thinner, solvents, paint, motor oil, agricultural spray, diesel fuel, kerosene, stain, anti-freeze, airborne gases/fumes, and brake fluid.

Always call for assistance and extinguish all ignition

sources, shut off main emergency switch to fuel pump, if appropriate, move appropriate fire extinguishing equipment to area, if possible, contain the spill to prevent further contamination, and move people/personnel away or evacuate from contamination area

If the spill poses an immediate student and staff hazard, all personnel should evacuate the area immediately. Move uphill and upwind, if possible.

Vehicle Fuel Spill

When a spill has occurred, the first thing to do is to keep the situation from worsening. Follow these steps:

1. Shut off emergency switch.
2. Avoid skin contact.
3. Isolate the spill from people and vehicles by blocking all points of entry.
4. Stop and evaluate any hazards.
5. Prevent discharge into storm drains.
6. Divert the flow by sealing off areas with absorbents.
7. Prevent runoff.

Pandemic Illness

Responding to a pandemic illness requires all staff to be aware of symptoms and how the school and district office will respond. Response will be a community issue. This response will include:

1. Stakeholders with authority will outline process for identification, isolation, quarantine, movement restriction, healthcare services, emergency care, and mutual aid.
2. School will designate a single office to coordinate the community plan.
3. Recognition that in an affected community, at least two pandemic waves (6-8 weeks each) are likely over several months. The school might be designated as a contingency hospital.
4. Students with special needs will be considered in planning (e.g., low income for feeding purposes).
5. The school will participate in community plan exercises.
6. The school will share lessons learned from developing preparedness and response plans with other local public and private schools.

Bioterrorism

How to identify suspicious letters or packages

Some characteristics of suspicious letters or packages include the following:

- excessive postage,
- handwritten or poorly typed addresses,
- incorrect titles,
- title, but no name,
- misspellings of common words,
- oily stains, discolorations or odors,
- no return address,
- excessive weight,
- lopsided or uneven envelop,
- protruding wires or aluminum foil,
- excessive security material such as masking tape, string, etc.,
- visual distractions,
- ticking sound,
- marked with restrictive endorsements, such as “Personal” or “Confidential”,
- shows a city or state in the postmark that does not match the return address.

Do not shake or empty the contents of any suspicious envelop or package. Place the envelope or package in a plastic bag or some other type of container to prevent leakage of contents. If you do not have any container, then cover the envelope or package with anything (e.g., clothing, paper, trash can, etc.) and do not remove this cover. Then, leave the room and close the door, or section off the area to prevent others from entering. Wash your hands with soap and water to prevent spreading any powder to your face. Report the incident to the local police and your site administrator. List all people who were in the room or area when this suspicious letter or package was recognized.

Envelope with powder or powder spills out onto a surface

Do not try to clean up the powder. Cover the spilled contents immediately with anything and do not remove this cover. Leave the room and close the door or section off the area to prevent others from entering. Wash your hands with soap and water to prevent spreading any powder to your face.

Call 9-1-1 and your site administrator to report the incident. Remove heavily contaminated clothing as soon as possible and place in a plastic bag, or some other container that can be sealed. The clothing bag should be given to the emergency responders for proper disposal. Shower with soap and water as soon as possible. Do not use bleach or other disinfectant on your skin. If possible, list all people who were in the room or area, especially those who had actual contact with the powder.

Anthrax

Anthrax organisms can cause infection in the skin, gastrointestinal system, or the lungs. In order for this to happen, the organism must be rubbed into abraded skin, swallowed, or inhaled as a fine, aerosolized mist. Disease can be prevented after exposure to the anthrax spores by early treatment with the appropriate antibiotics. Anthrax is not spread from one person to another person. For anthrax to be effective as a covert agent, it must be aerosolized into very small particles. This is difficult to do, and requires a great deal of technical skill and special equipment. If these small particles are inhaled, life-threatening lung infection can occur, but prompt recognition and treatment are effective.

Botulism

Botulism infection is extremely rare, with fewer than 200 cases reported in the U.S. each year. There are two forms of botulism which are associated with a terrorist act:

Foodborne Botulism

The bacterium is ingested with the contaminated food source. Symptoms begin within 6 hours to 2 weeks, but most commonly between 12 to 36 hours after eating contaminated foods. Double or blurred vision, drooping eyelids, slurred speech, difficulty swallowing, dry mouth, and a descending muscle weakness that effects the shoulders first, then upper arms, lower arms, thighs, calves, etc.

These symptoms may be preceded by gastrointestinal disorder such as abdominal cramps, nausea, vomiting, and diarrhea. Paralysis of the respiratory muscles will cause death unless the person is assisted by mechanical ventilation. Botulism toxin can occur naturally in undercooked food, but the frequency of this is extremely rare.

Inhalational Botulism

Inhalation botulism results from the inhalation of the aerosolized toxin. A small amount of aerosolized toxin released into the wind can have a devastating effect on the surrounding population. Notwithstanding, inhalational botulism could be inflicted upon a more limited number of victims by introducing a contaminated object into an enclosed area such as inside of a building. The symptoms are indistinguishable from those of foodborne botulism, except that the gastrointestinal signs sometimes associated with foodborne botulism may not occur. Botulism cannot be transmitted from one person to another. There is no vaccine for botulism treatment at this time. However, treatment consists of passive immunization with equine anti-toxins and supportive patient care.

Chapter 8: Medical Emergencies

Calmly and carefully, assess the medical emergency you are faced with. Take only those measures you are qualified to perform. You should always wear latex or rubber gloves to prevent contact with bodily fluids.

Types of First Aid responses

Rescue breathing

1. Gently tilt the head back and lift the chin to open the airway.
2. Pinch the nose closed.
3. Give two slow breaths into the mouth.
4. Breathe into an adult once every five seconds, and for children or infants breathe gently once every three seconds.
5. If you are doing the procedure correctly, you should see the chest rise and fall.

Bleeding

1. Apply direct pressure to the wound.
2. Maintain the pressure until the bleeding stops.
3. If bleeding is from an arm or leg, and if the limb is not broken, elevate it above the level of the heart.
4. If limb appears to be broken, minimize any movement, but take what measures are necessary to stop the bleeding.

Treatment for Shock

1. Do whatever is necessary to keep the person's body temperature as close to normal as possible.
2. Attempt to rule out a broken neck or back.
3. If no back or neck injury is present, slightly elevate the person's legs.

Choking

1. Stand behind the person.
2. Place the thumb side of one of your fists against the person's abdomen, just above the navel and well below the end of the breastbone.
3. Grasp your fist with your other hand, give an abdominal thrust.
4. Repeat until the object comes out.
5. If required, begin rescue breathing.

Mass Casualty

In the event of a mass casualty incident (MCI)

1. Determine what the problem is and call 9-1-1 for local emergency services.
2. Identify the problem and give the school address.
3. Site administrators decide whether or not to activate the school site disaster first aid team protocols (See this plan for medical triage protocol).
4. Determine if problem will continue or if it is over.
5. School representative will meet incident command officer (fire department or police official) who will determine exact nature of incident.
6. Site administrators/first responders will implement mass casualty tracking.
7. Protocols as appropriate to the situation.
8. Keep calm, reassure students.
9. Fire department will notify appropriate agencies for additional help.
10. Crisis team will convene.
11. Contact superintendent to determine need to send students home

Suicide Threats and Attempts

Do's

1. Listen to what the person is saying and take her/his suicidal threat seriously, many times a person may be looking for just that assurance.
2. Observe the person's nonverbal behavior. In children and adolescents, facial expressions, body language, and other concrete signs often are more telling than what the person says.
3. Ask whether the person is really thinking about suicide. If the answer is "YES," ask how she/he plans to do it and what steps have already been taken. This will convince the person of your attention and let you know how serious the threat is.
4. Get help by contacting an appropriate Crisis Response Team (CRT) member. Never attempt to handle a potential suicide by yourself.
5. Stay with the person. Take the person to a CRT member and stay with that person for awhile. The person has placed trust in you, so you must

help transfer that trust to the other person.

Don'ts

1. Don't leave the person alone for even a minute.
2. Don't act shocked or be sworn to secrecy.
3. Don't underestimate or brush aside a suicide threat ("You won't really do it; you're not the type"), or to shock or challenge the person ("Go ahead. Do it"). The person may already feel rejected and unnoticed, and you should not add to the burden.
4. Don't let the person convince you that the crisis is over. The most dangerous time is precisely when the person seems to be feeling better. Sometimes, after a suicide method has been selected, the person may appear happy and relaxed. You should, therefore, stay involved until you get help.
5. Don't take too much upon yourself. Your responsibility to the person in a crisis is limited to listening, being supportive, and getting her/him to a trained professional. Under no circumstances should you attempt to counsel the person.

Triage Guidelines

Triage is defined as the sorting of patients into categories of priority for care based on injuries and medical emergencies. This process is used at the scene of multiple-victim disasters and emergencies when there are more victims than there are rescuers trained in emergency care. Incidents involving large numbers of casualties, and have a delay in the response time of emergency medical services require a special form of triage. The modified triage system that is most commonly used is the S.T.A.R.T. (Simple Triage and Rapid Treatment) plan. In this plan, patients are triaged into very broad categories that are based on the need for treatment and the chances of survival under the circumstances of the disaster. These categories are listed below:

TRIAGE Priorities

Highest Priority - RED TAG

- Airway and breathing difficulties
- Cardiac arrest
- Uncontrolled or suspected severe bleeding
- Severe head injuries

- Severe medical problems
- Open chest or abdominal wounds
- Severe shock

Second Priority - YELLOW TAG

- Burns
- Major multiple fractures
- Back injuries with or without spinal cord damage

Third Priority - GREEN TAG

- Fractures or other injuries of a minor nature

Lowest Priority - BLACK TAG

- Obviously mortal wounds where death appears reasonably certain
- Obviously deceased

S.T.A.R.T. Plan Triage Checklist

This method allows rapid identification of those patients who are at greatest risk for early death and the provision for basic life-saving stabilization techniques.

During initial contact identify self and direct all patients who can walk to gather and remain in a safe place. Tag these people GREEN.

Begin evaluating the non-ambulatory patients where they are lying. Assess respiration (normal, rapid, absent). If breathing is absent, open airway to see if breathing begins. If not breathing, tag BLACK (dead). DO NOT PERFORM CPR.

If patient needs assistance to maintain open airway, or respiratory rate is greater than 30 per minute, tag RED (attempt to use a bystander to hold airway open). If respiration is normal, go to next step.

Assess perfusion (pulse, bleeding). Use the capillary refill test to check radial (wrist) pulse. If capillary refill test is greater than 2 seconds, or radial pulse is absent, tag RED. If capillary refill is less than 2 seconds, or radial pulse is present, go to next step.

Any life threatening bleeding should be controlled at this time, and if possible, raise patient's legs to treat for shock (attempt to use a bystander to hold pressure/bleeding control). Assess mental status (commands, movement). Use simple commands/tasks to assess. If patient cannot follow simple commands, tag RED. If patient can follow simple commands, they will be tagged YELLOW or GREEN.

This will depend on other conditions, where their injuries will determine the priority of YELLOW versus GREEN (i.e. multiple

fractures would require a higher level of treatment than superficial lacerations).

Chapter 9: Incident Command System

Responsibilities for a School Disaster

Everyone at a school will have some responsibilities in an emergency based on their job, and some people will have additional responsibilities. Below is a short discussion of how the Standard Emergency Management System (SEMS) and the Incident Command System (ICS) can be adapted to your school.

Major Concepts and Components

Every emergency, no matter how large or small, requires that certain tasks be performed. In ICS, these tasks are called management, planning, operations, logistics, and finance/administration. Under SEMS, the ICS team can be expanded or reduced, depending on the situation and the immediate needs. One person can do more than one function. Every incident needs a person in charge. In SEMS and ICS, this person is called the incident commander or school commander. No one person should supervise more than seven people (the optimum number is five). However, this does not apply to the student supervision team under operations.

Common Terminology

All teachers and staff in the school should use the same words to refer to the same actions. The terminology should be known before a disaster. SEMS is a system that, when used properly, affords common terminology. If the fire department or other responding agencies come on campus, they will coordinate better with the site's command structure if similar situations and actions are described with similar wording. This system provides for an effective and coordinated response to multi-agency and multi-jurisdictional emergencies, to include multi-disciplines and:

- Facilitates the flow of information within and between all levels of the system.
- Facilitates interaction and coordination among all responding agencies.
- Improves the processes of mobilization, deployment, tracking, and demobilization of

needed mutual aid resources.

- Reduces the incidence of ineffective coordination and communications and avoid duplication of resource ordering in multi-agency and multi-jurisdiction response actions.

Primary Incident Command System Functions

Incident/School Commander (the "leader")

The management section is responsible for overall policy, direction, and coordination of the emergency response effort in the Emergency Operations Center (EOC) throughout Monroe Elementary School. The management section staff is also responsible for interacting with each other and others within the EOC to ensure the effective function of the EOC organization.

Operations Section (the "doers")

The operations section is responsible for coordinating all operations in support of the emergency response and for implementing action plans. This section includes response teams that work toward reduction of the immediate hazard, mitigating damage, and establishing control and restoration of normal operations.

Planning/Intelligence Section (the "thinkers")

The planning and intelligence section is responsible for collecting, evaluating, and disseminating information, maintaining documentation, and evaluating incoming information to determine the potential situation in the not-too-distant future. This section also develops district EOC/field action plans for implementation by the operations section.

Logistics Section (the "getters")

The logistics section is responsible for providing all types of support for the emergency response operation. This section orders all resources from off-site locations and provides facilities, services, personnel, equipment, transportation, and materials.

Finance and Administration Section (the "collectors")

The finance and administration section is responsible for accounting and financial activities such as establishing contracts with vendors, keeping pay records, and accounting for expenditures. This section is also responsible for all other administrative requirements and acts as the clearinghouse for documentation during the recovery phase. Routine use of ICS facilitates seamless integration of ICS into larger emergencies operations as they evolve. The key to ICS is remembering to focus on the functions and where possible, delegate authority to staff essential functions to distribute the workload.

Unified Command Structure

Unified command is a procedure used at incidents which allows all agencies with geographical, legal or functional responsibility to establish a common set of incident objectives and strategies, and a single incident action plan. The use of unified command is a valuable tool to help ensure a coordinated multi-agency response. Unified command procedures assure agencies that they do not lose their individual responsibility, authority, or accountability. Unified command is highly flexible. As the incident changes over time with different disciplines moving into primary roles, the unified command structure and personnel assignments can change to meet the need.

Advantages of using Unified Command

One set of objectives is developed for the entire incident. All agencies with responsibility for the incident have an understanding and are fully aware of joint priorities and restrictions. Duplicative efforts are reduced or eliminated, thus reducing cost and chances for frustration and conflict.

Pre-designated Incident Facilities

- Staging Areas
- Command Posts
- Mass Care Centers
- Evacuation Centers

Emergency Communications

When emergencies occur, communication is key to ensuring appropriate parties are notified regarding the extent of the incident and what needs to be done. Below is a checklist as to how emergency communications may be conducted at your school.

Emergencies within a school

Internal communications will be via public address systems, emails, message runner, and telephone.

External communications will be via the main communications network and news bulletins, as needed, by appointed personnel only.

Emergencies affecting two or more schools

In-district communications will be via telephone (to include Teleparent), if operable. Superintendent or designated public information officer (ordinarily Barbara Keyani) and/or principal will release information to news media and prepare necessary bulletins. A crisis communications center will be established to collect and release information if the emergency is of a continuing nature.

1. Briefings/bulletins will be necessary in a continuing emergency, especially when school remains open.
2. Use established communication channels to keep employees, students, parents, essential communicators and community informed.
3. Keep secretaries briefed on situation changes and what to tell people who phone the school or district.
4. Hold briefings with employees, labor association leaders, board president, student leaders and other key communicators.
5. Enact telephone tree in order to communicate updates.
6. Prepare bulletins to distribute to employees, students, parents and essential communicators, as needed. Provide superintendent and public information officer with a copy of each bulletin.

Working with the news media

Only pre-assigned personnel will meet with the media in a designated area so as not to disrupt the educational process. News media personnel are not to be on school grounds, except in designated areas. Staff members are to report any news media personnel that appear elsewhere on campus.

Under no circumstances should a school site make contact with local media without first coordinating such communications through the district office.

Recovery

It is critical to provide a mental health response for students, staff and parents after a crisis that has impacted a school. Often, this can be provided by district or local community resources. Victims of a crisis experience a real need to return to normal, but normal as they once knew it is forever gone and changed. Counselors and crisis survivors find the concept of a “new normal” to be very reassuring and accurate.

One of the most important actions is simply to listen and allow victims to express their own needs and feelings. Encouragement and support, while avoiding judgmental remarks, are the goals. When the needs of the victims exceed the immediate resources available to the school, Santa Barbara County Mental Health and the agencies working under its umbrella are available to support schools. Numerous agencies under the Santa Barbara County Mental Health Department umbrella currently provide on-going mental health services to students and families both at schools and within the neighborhood communities.

These services are provided by licensed therapists, social workers or supervised interns. The services typically involve a one-on-one or family-oriented approach requiring a different skill set than an emergency mental health response to a community or school crisis.

Chapter 10: Annual Emergency Awareness/Preparedness Checklists and Forms

Checklists on the following pages highlight areas of school operations, maintenance, security, and personnel that may pose opportunities for risk reduction. Use this checklist as a proactive tool to generate awareness over the potential for terrorist acts, at a time when it is needed most. The recommendations contained in this checklist are not intended to represent or to replace a comprehensive school security program. Such a program would include much more.

Many of the procedures included in the checklist are routine in districts with full-time security operations. Whether your school district has fulltime security coverage, or has minimal security resources, these recommendations may be used as a focal point around which to build an appropriately renewed sense of awareness. The following forms are designed to use on an annual basis to meet emergency preparedness requirements. Districts may already have their own forms and can substitute those if desired.

Annual Site Awareness Checklist

Review transportation security

- ☐_n/a_ Are vehicle garages alarmed, and are the alarms in working order?
- ☐_Y_ Are fenced-in areas gated, locked, and adequately illuminated at night?
- ☐_n/a_ Do drivers do “pilot inspections” of their vehicles before placing them into service each day? Is this done again after each time the vehicle has been left unattended?
- ☐_n/a_ Are bus drivers equipped with two-way radios or cell phones?
- ☐_n/a_ Are drivers trained to be aware of and to report suspicious vehicles that appear to be following their busses during their routes?
- ☐_n/a_ Do drivers keep a student roster for each bus route, to include student name, address, primary and secondary emergency contact numbers, and medical authorization information?

Review the adequacy of physical security in and around campus buildings

- ☐_Y_ Are alarm systems working and have they been tested? This should include main campus buildings as well as maintenance and storage facilities.
- ☐_Y_ Are keys to campus and administration buildings adequately controlled?
- ☐_n/a_ Are alarm pass codes changed when an employee leaves the school district? Make sure codes are not shared.
- ☐_Y_ Is exterior lighting working and is illumination adequate?

Security

- ☐_Y_ Maintenance
- ☐_Y_ Operations
- ☐_Y_ Is interior lighting (night lighting) working and is illumination adequate?

Review access control procedures and heighten employee awareness

- ☐_Y_ Are doors that should remain locked from the outside during the day kept locked, and are these doors checked periodically to make sure they are secure? Train all employees to check these doors but consider assigning someone to check them as well.
- ☐_Y_ Are staff members trained to approach and to “assist” strangers of any age who are observed in and on school property? Report those who have difficulty explaining their presence.
- ☐_Y_ Has a visitor log and ID badge system been implemented?

Train everyone to recognize and report suspicious activities on campuses

- ☐_Y_ Are persons taking pictures or filming campus activities questioned about their authorization to do so?
- ☐_Y_ Be alert for suspicious vehicles that seem to have no apparent purpose for being on campus, or, that come, go, and then reappear again.
- ☐_Y_ Are specific individuals assigned to inspect the outside of campus buildings throughout the day, and to

report unattended packages or vehicles near building perimeters?

- ☐ Y Have you developed a plan to handle reports of suspicious activity?
- ☐ N Is everyone trained to report unattended or otherwise suspicious packages found inside campus buildings?
Is this specific issue placed on routine checklists for maintenance and custodial personnel?
- ☐ N Do personnel know what to do if a suspicious package is found?
- ☐ Y Have you considered a policy that requires staff and students to visibly identify backpacks, book bags, briefcases and gym bags with luggage style ID tabs?
- ☐ n/a Are food services personnel trained to be aware of suspicious people in their food preparation area?
- ☐ Y When large attendance events occur on campus, are security measures in place and awareness levels heightened to assist in detecting suspicious acts?
- ☐ N Do you have a zero tolerance for verbal threats of any kind?
- ☐ Y Do all members of the school community know that any threat, or information about a potential threat, must be reported? And, do they understand that there is no such thing as a threat intended as a joke?
- ☐ Y Do students and staff know that they are responsible for informing the principal/site administrator about any information or knowledge of a possible or actual terrorist threat or act?
- ☐ Y Have you communicated a hard stand on hoaxes intended to mimic terrorist acts?
- ☐ Y Do students know that these hoaxes are crimes in themselves?

Work closely with local law enforcement and health officials

- ☐ Y Have you made local law enforcement a partner in your district plans?
- ☐ Y Are parking regulations, particularly fire zone regulations, strictly enforced?
- ☐ Y Does local law enforcement have copies of building blueprints, to include ventilation system, and electrical plans?
- ☐ N Has local law enforcement been given the opportunity to conduct exercises on school property and on busses?
- ☐ Y Have you determined contact protocol with local health officials if bio-terrorism is suspected?

Train staff on identifying and handling suspicious packages and letters

- ☐ Y Have you downloaded and posted the FBI advisory (poster) regarding suspicious packages from www.fbi.gov or, the US Postal Inspection Service poster on identifying suspicious packages from www.usps.gov ?
- ☐ N Have you considered publicizing the availability of this information to others in the school community for personal use?

School: Santa Barbara Charter School

Date of checklist: 12/13

Safety Plan Annual Emergency Plan Checklist

This is a checklist to help principals organize and meet the site requirements mandated by the emergency preparedness plan. It is recommended that each principal appoint a site disaster committee comprised of staff, PTA, and students (optional), to help carry out the tasks of this checklist.

Submit To: Administrator, Safety, Welfare, and Attendance

- ☐_Y_ Read the district disaster plan, and know the responsibilities of the site manager
- ☐_Y_ Designate a second-in-command and a backup
- ☐_Y_ Orient staff to district disaster plan, review site procedures (staff meeting)
- ☐_Y_ Update site plan, assign staff responsibilities (complete staff roster sheet)
- ☐_Y_ Schedule necessary training (first aid, CPR, search and rescue)
- ☐_Y_ Schedule drills: fire, earthquake, lockdown, shelter-in-place
- ☐_Y_ Complete site map, post as required, and forward a copy to principal
- ☐_Y_ Complete site hazard survey
- ☐_N_ Complete classroom hazard survey summary
- ☐_N_ Submit classroom hazard survey summary to principal
- ☐_Y_ Participate in test of district radios
- ☐_Y_ Check battery-operated radios
- ☐_Y_ Complete supplies and equipment inventory to include classroom emergency kits
- ☐_Y_ Order supplies and equipment as necessary
- ☐_Y_ Identify evacuation areas/alternative for all classes
- ☐_Y_ Communications to parents and students about disaster procedures
- ☐_Y_ District student release policy
- ☐_Y_ Emergency information cards
- ☐_n/a_ Assess food supplies as applicable
- ☐_Y_ Meet with child care provider and coordinate disaster preparedness plans

Principal signature and date

Annual Site Hazard Survey I

The purpose of the site hazard survey is to check for safety hazards outside of the classroom. The survey shall include evaluation of interior and exterior portions of buildings as well as school grounds. The following areas shall be included. (If not applicable, place N/A).

- ☐_Y___ Proximity of toxic, flammable, corrosive, chemically, or reactive materials
- ☐_Y___ Proximity of high voltage power lines has been considered in establishing the site evacuation plan
- ☐_Y___ Likelihood and possible effects of flooding or landslides
- ☐_Y___ Probable safety of evacuation areas after an earthquake; proximity of gas, water, and sewer lines, or sprinklers
- ☐_n/a___ Water heaters are strapped
- ☐_Y___ Objects that restrict people from moving to a safe place (tables and desks in hallways, etc)
- ☐_Y___ Janitorial areas: storage of tools and cleaning chemicals (keep a 3 foot clearance in front of all electrical panels)
- ☐_Y___ Storerooms: heavy items stored on high shelves, shelving secured (keep 3 foot clearance in front of all electrical panels)
- ☐_Y___ All computers and peripherals should be situated so as not to create a tipping hazard
- ☐_n/a___ Machine shop and woodshop: equipment should be bolted down
- ☐_Y___ Large and heavy office machines: restrained and located where they will not slide, fall off computers, or block exits
- ☐_Y___ Sound system speakers and spotlights: secure
- ☐_n/a___ Compressed gas cylinders: secured top and bottom with a safety chain
- ☐_n/a___ Weight room/motor development room equipment: racks anchored and weights properly stored
- ☐_n/a___ Laboratory chemicals on shelves: restrained

Annual Site Hazard Survey II

After reviewing, please initial.

Annual Classroom General Hazard Survey

Nonstructural hazards are caused by the furnishings and nonstructural elements of a building. Anything that does not actually hold the building up is nonstructural, including floors, ceilings, windows, and all furnishings. In California schools, nonstructural hazards represent the greatest threat to the safety of students and staff. Eliminating these hazards can reduce injuries significantly.

In September, each teacher shall assess their classroom for hazards and correct any, if possible. Items that the teacher cannot correct will be submitted to the principal by September 30.

Room Numbers : 412, 413, 414W, 414E, 415, 502A, 501B, 505, 506, 507, 508, 905

Deficiencies to be corrected by maintenance staff:

- free standing shelves over 4 feet tall secured to floor or wall;
- file cabinets bolted to wall;
- file cabinet drawers have latches;
- paints and chemicals restrained on shelves;
- wall-mounted objects are secured;
- sound system speakers are secured to building;
- television securely fastened to platform or cart.

Deficiencies to be corrected by school personnel:

- heavy objects removed from high shelves;
- aquariums located on low counter or restrained;
- computers fastened to work station;
- desks and tables cannot block exits;
- cabinets or equipment on wheels cannot block doorway.

Inspection Checklist for 9-12 Schools

After reviewing, please initial.

Initial here

Decorative Materials

-
- All drapes, hangings, curtains and all other decorative material shall be made of nonflammable material or treated as required by the state fire marshal.
 - Fire protective equipment shall not be concealed.
 - Child-prepared artwork and teaching materials may be attached to the walls, but is limited to 20% of the wall area.
 - Materials shall be attached to the wall at the top and bottom.
 - No overhead decorations are allowed.

Pre-Fire Planning

-
- Fire drills, with the fire alarm sounded, shall be held one each calendar month in elementary schools, quarterly in junior high schools, twice-yearly in high schools.
 - Post the fire department phone number in the main office or switchboard area.
 - Assign a person to call the fire department if the alarm sounds.
 - Post evacuation plans with alternate routes in each classroom.
 - Post instructions to the teacher for maintaining order during evacuation, for removal of roll book and for taking roll when the evacuation area is reached.

Exterior

-
- If school grounds are fenced, at least one gate must be large enough for fire department equipment.
 - School grounds may be fenced and locked if a safe evacuation area for students and staff is available at least 50 feet from the buildings.
 - Only approved gates are permitted across corridors and passageways.
 - Address numbers must be legible from the street.
 - All sub buildings must be logically identified.
 - All exposed gas meters, regulators and piping must be protected from potential damage.

Exits

-
- Two exits are required if the occupant load is 50-500.
 - Exit doors must swing out if the occupant load is 50 or more.
 - Panic hardware must be provided on exit doors in rooms with an occupant load of 50 or more.
 - Panic hardware must be provided on corridor exit doors.
 - Exit doors shall be operable from the inside without the use of a key or any special knowledge or effort.
 - Exits shall not be blocked in any way.
 - Do not block or impair the operation of any self-closing or automatic closing door.
 - Exit signs and exit directional signs are required. EXCEPTION: Main exterior exit when clearly identifiable and when approved by the building official.
 - Exit Sign Illumination: Exit signs and exit directional signs shall be internally or externally illuminated by two electric lights or shall be approved self-luminous.
 - One of the exit sign lamps shall be energized from an alternate power supply, in accordance with the Electrical Code.
 - Any exit sign illumination shall be maintained.
 - Exit Path Illumination is required for rooms with occupant loads of 100 or more.
 - In the event of a power failure, illumination shall be automatically provided by an emergency lighting system that shall be energized from an alternate power supply, in accordance with the Electrical Code.

Extinguishers

- Provide one 2A fire extinguisher every 75 feet of travel and 3,000 square feet. The top of the extinguisher shall not be installed higher than five feet.
- Extinguishers shall be serviced annually or after usage.
- Each extinguisher shall have an inspection tag with an annual service date.
- Commercial food processing equipment must have a fixed system over all cooking services and deep fat fryers as well as within the hood.
- Fixed systems shall be serviced every six months or after usage.
- Fire extinguishers which are part of fixed extinguishing systems shall have a tag attached indicating the date, person performing the service and type of service performed.
- A 40B extinguisher must be near the food processing area and serviced within the past year.

Structural

- All fire-resistant construction shall be maintained.
- Repair holes in the walls or ceiling.
- Room capacity must be posted when the occupant load is 50 or more.

Fire Protection Systems

- A five-year test is required for automatic sprinklers, wet standpipes and dry standpipes.
- A fire alarm system is required when an occupancy load is 50 or more.
- When an occupancy load is 50 or fewer, there shall be an early warning device that has been approved by the fire authority with jurisdiction.
- Fire alarm systems shall be maintained in operable condition at all times.

Trash Containers

- Trash containers shall be emptied daily.
- Waste baskets and other waste containers shall be made of noncombustible materials.

Special Hazards

- All compressed bottles must be secured to a fixed object with one or more restraints.

Electrical

- Electrical equipment providing emergency power shall be maintained.
- Electrical hazards such as frayed wire or loose cover plates are illegal.
- No extension cords shall be allowed for permanent wiring. Extension cords are only permitted with portable appliances while in use.
- Multi-plug adapters are not permitted. Multi-outlet strips with internal circuit breakers may be used.
- A minimum of 30 inches clearance must be provided for all electrical panels.
- Breakers must be marked to show area served.

3. Approximate Age:
4. Other Observations:

Questions to Ask: (Use exact wording of threat)

1. When will the bomb explode?
2. Where is the bomb right now?
3. What does it look like?
4. What kind of bomb is it?
5. What will cause it to explode?
6. Did you place the bomb?
7. Why?
8. How did the bomb get in the school?
9. Where are you calling from?
10. What is your name, address and phone?

American Red Cross Recommended Emergency Supplies for Schools

What to Store

Begin with an analysis of the hazards of the area. Is your school threatened by tornadoes? Earthquakes? Is emergency assistance close at hand or would you have to wait for help if the entire community has been impacted?

Remember that any school in the country could be locked down due to an intruder or gunfire in the area, so all schools should be prepared to have their students stuck inside the building for many hours. Similarly, all schools face the potential of a hazardous materials spill nearby, requiring the school to shelter-in-place with doors and windows closed and heating systems off.

Budget

Adjust the list, prioritizing for limited budget and storage space, if necessary. Develop a plan to phase in the supplies. Contact local service clubs and vendors for assistance.

How Much to Store

Make some planning assumptions. Some schools could be cut off for days if a bridge or the main highway is blocked. If you determine that most of your students could be picked up in most emergencies within a day, then begin by stocking supplies for one day.

Some schools plan that half their student body will be picked up by parents within one day, half the remainder within a day, and the remainder within another day; these schools stock supplies for 100% for day one, 50% for day two, plus 25% for day three. Other schools stock supplies for 3 days, the recommendation of many emergency management agencies. Remember the number of staff and other adults who may be on campus.

Storage

Determine where to store emergency supplies. Every classroom should have some supplies and there should be a cache of supplies for the whole school. Many schools in California and other states that are threatened by earthquakes use outdoor storage,

anticipating the possibility of having to care for students outside the buildings. They use an existing building or a cargo container, also called a land-sea container, purchased and installed near the emergency assembly area.

Schools with limited budgets and/or temperature extremes may opt to store their supplies in various caches throughout the school facility, primarily in locked closets or classrooms. Do not store water in the barrels because it may leak and destroy everything else. Make sure that there are keys to ensure access to the supplies during an emergency, including access by programs such as day care and after school events. Plan an annual inventory, replacing water and other items with limited shelf life as necessary.

Recommended Supplies

The following lists address classroom kits, whole school supplies, and Search & Rescue gear.

Classroom Kit

Latex gloves: 6 pairs
Safety goggles: 1 pair
Small First Aid kit
Pressure dressings: 3
Space blankets: 3
Tarp or ground cover
Student accounting forms (blank)
Buddy classroom list
Pens, paper
Whistle
Student activities
Duct Tape: 2 rolls (for sealing doors and windows)
Scissors
Suitable container for supplies (5-gallon bucket or backpack)
Drinking water and cups (stored separately)
Toilet supplies (large bucket, used as container for supplies and toilet when needed, with 100 plastic bags, toilet paper, and hand washing supplies)

Supplies for the whole school

Water
First Aid
Sanitation

Tools

Food

Water ½ gallon per person per day times three days, with small paper cups

First Aid

Compress, 4 x 4": 1000 per 500 students

Compress, 8 x 10": 150 per 500 students

Elastic bandage: 2-inch: 12 per campus; 4-inch: 12 per campus

Triangular bandage: 24 per campus

Cardboard splints: 24 each, small, medium, large

Butterfly bandages: 50 per campus

Water in small sealed containers: 100 (for flushing wounds, etc.)

Hydrogen peroxide: 10 pints per campus

Bleach, 1 small bottle

Plastic basket or wire basket stretchers or backboards: 1.5/100 students

Scissors (paramedic): 4 per campus

Tweezers: 3 assorted per campus

Triage tags: 50 per 500 students

Latex gloves: 100 per 500 students

Oval eye patch: 50 per campus

Tapes: 1" cloth: 50 rolls per campus; 2" cloth: 24 per campus

Dust masks: 25 per 100 students

Disposable blanket: 10 per 100 students

First Aid books: 2 standard and 2 advanced per campus

Space blankets: 1 per student and staff

Heavy duty rubber gloves: 4 pairs

Tools per Campus

Barrier tape, 3" x 1000": 3 rolls

Pry bar

Pick ax

Sledge hammer

Shovel

Pliers

Bolt cutters

Hammer

Screwdrivers

Utility knife

Broom

Utility shut off wrench: 1 per utility

Other Supplies

Folding tables, 3' x 6': 3-4

Chairs: 12-16

Identification vests for staff, preferably color-coded

per school plan

Clipboards with emergency job descriptions

Office supplies: pens, paper, etc.

Signs for student request and release

Alphabetical dividers for request gate

Copies of all necessary forms

Food

The bulk of stored food should be easy to serve, non-perishable and not need refrigeration or heating after opening. Food is generally considered a low priority item, except for those with diabetes and certain other specific medical conditions. One method used by schools is to purchase food at the beginning of the school year and donate it to charity at the end of the year. A supply of granola bars, power bars, or similar food which is easy to distribute, may be helpful. Some schools store hard candy, primarily for its comfort value.

Search and Rescue Equipment

Training on how to do light Search and Rescue is required—contact your local fire department for information on whether such training is offered in your community.

Protective Gear per S&R Team Member

Hard hat, OSHA approved

Identification vest

Leather work gloves

Safety Goggles

Dust mask

Flash light, extra batteries

Duffel or tote bag to carry equipment

Gear per S&R Team

Backpack with First Aid supplies

Master Keys

Chapter 11: Homeland Security Advisory System

(Adapted for Santa Barbara County)

The Homeland Security Advisory System provides a comprehensive and effective means to disseminate information regarding the risk of terrorist acts to federal, state, and local authorities and to the American people. This system provides warnings in the form of a set of graduated "threat conditions" that increase as the risk of the threat increases. At each threat condition, federal departments and agencies would implement a corresponding set of "protective measures" to further reduce vulnerability or increase response capability during a period of heightened alert.

The following protective measures are general guidelines for schools. In the event that the threat level increases to RED, school districts may or may not need to take specific protective action. The nature of the emergency will dictate the response.

Threat Conditions and Recommended Protective Measures

The following threat conditions each represent an increasing risk of terrorist attacks. Beneath each threat condition are some suggested protective measures. Each school district is responsible for developing and implementing appropriate specific emergency plans.

GREEN: Low Risk of Terrorist Attacks

This condition is declared when there is a low risk of terrorist attacks. The following general measures should be considered in addition to any specific plans that are developed and implemented:

- Assign the responsibility for action to the school emergency manager to ensure all checklist items are completed.
- Refine and exercise as appropriate, school and district emergency plans.
- Train teachers and staff on the Homeland Security Advisory System and specific emergency plans.
- Assess school sites for proximity and vulnerability to potential terrorist targets (i.e.

commercial occupancies with potential hazards, utility companies, etc) updating plans as needed.

- Develop and implement security procedures, (assign a member of the school staff to ensure that this checklist item is completed).
- Conduct routine inventories of emergency supplies and medical kits.
- Include a weekly check of the generator when applicable.
- Know how to turn off water, power, and gas to your facilities.
- Budget for security measures.
- Advise all personnel to report the presence of unknown suspicious persons, vehicles, mail, and other suspicious activities.
- Develop visitor identification and sign in procedures.
- Arrange for staff members to take a First Aid/CPR course.
- All school keys should include the provision for "Do Not Duplicate"
- Review and update the emergency call-in list.

BLUE: General (or "Guarded") Risk of Terrorist Attack

This condition is declared when there is a general risk of terrorist attacks. All general measures listed in green alert conditions should be taken, and the following general measures should be considered, in addition to any specific plans that are developed and implemented:

- Communicate the change in threat level to all staff members.
- Check and test emergency communications, coordinate with all school sites and staff.
- Review and update emergency response procedures.
- Provide parents or guardians with any information that would strengthen a school's ability to respond to a terrorist threat.
- Mark keys with "Do Not Duplicate". (See Condition Green)
- Conduct routine perimeter checks of site, checking integrity of fencing, locks, and ensuring appropriate security signage is in place.
- Review and update emergency call-in list.
- Review current emergency communication plan

to notify parents in times of emergency; disseminate information to families of students, staff, and faculty.

YELLOW: Significant (“Elevated”) Risk of Terrorist Attack

An elevated condition is declared when there is a significant risk of terrorist attacks. All general measures listed in green and blue alert conditions should be taken, and the following measures should be considered, in addition to any specific plans that are developed and implemented:

- Communicate the change in threat level to all staff members.
- Review whether the characteristics of the threat require refinement of any current emergency plans.
- Implement, as appropriate, contingency emergency response plans.
- Identify and monitor government sources for warnings.
- Review mail handling, and delivery of packages procedure with staff.
- Consider escorts for building visitors.
- Check site for potential hazards such as unattended packages, unauthorized vehicles, or perimeter violations.
- Increase perimeter checks of site, check buildings for unattended packages, and report any suspicious activity or circumstances to law enforcement immediately.

ORANGE: High Risk of Terrorist Attack

A high condition is declared when there is a high risk of terrorist attacks. All general measures listed in green, blue, and yellow alert conditions should be taken, and the following measures should be considered, in addition to any specific plans that are developed and implemented:

- Communicate the change in threat level to all staff members.
- Identify the need for any additional security and coordinating efforts, if necessary, with your local emergency manager.
- Be alert to parent, staff, student concerns to determine when/how to communicate (communication should focus on reassurance that school is a safe place).
- Evaluate school events and take additional

precautions, if necessary.

- Consider assigning mental health counselors for students, staff and faculty, if needed.
- Discuss student’s fears concerning possible terrorist attacks and offer available resources.
- Consider reducing site ingress and egress points to an absolute minimum.
- Refuse access to people who do not have identification or a legitimate need to enter the site.
- Inspect all deliveries; restrict parking near buildings, and report suspicious vehicles to local law enforcement.
- Consider parking controls or special restrictions at all sites.

Reminder – schools have existing safety plans, practice their safety procedures and have an outstanding ongoing working relationship with law enforcement and excellent communication networks.

RED: Severe Risk of Terrorist Attack

A Severe Condition reflects a severe risk of terrorist attacks. Under most circumstances, the protective measures for a severe condition are not intended to be sustained for substantial periods of time. The Santa Barbara County Emergency Operations Center, located at 105 E. Anapamu Street, Suite 3, will be occupied initially during the first 24 hours of a RED threat level (continued operation will be determined on an as-need basis).

The Santa Barbara County Office of Education will provide staff at the Santa Barbara County Office of Emergency Operations Center to serve as a communication link and information clearinghouse to all districts in the county. Information will be disseminated as warranted to identified school emergency managers in the district. All general measures listed in green, blue, yellow, and orange alert conditions should be taken, and the following measures should be considered, in addition to any specific plans that are developed and implemented:

- Make contact with your day-to-day local emergency manager or assigned contact to ensure a reliable line of communication during the red level.
- Test communication lines - including e-mail link or telephone lines.
- Make sure cellular phone is charged and ready

along with adequate batteries for radios, pagers, etc.

- Communicate the change in threat level to all staff members.
- Monitor e-mails and telephone calls from the EOC for updates during crisis.
- Gather and provide related information to students, staff and parents.
- Review communication guidelines under orange threat level
- Assess the threat condition on a regular basis and evaluate whether any further protective measures are needed.
- Consider canceling special events.
- Consider closing campuses, if necessary.
- Maintain close contact with your local emergency manager.
- Monitor all deliveries and mail to your buildings.
- Provide security for parking lots; deploy personnel to observe and report to law enforcement.
- Be prepared to evacuate, lockdown, or shelter-in-place if ordered.
- Ensure mental health counselors are available for students, staff and faculty.

Santa Barbara School Districts Dress Code Policy

General

Appropriate dress is necessary for the healthy, safe, and uninterrupted operation of school and classes. Student attire should be neat and clean. **School Board Policies 5132 and 5136** prohibit the wearing of clothing and/or adornment that advertises alcoholic beverages, tobacco products, controlled substances, or gang activity. Such use can be potentially life threatening and is prohibited on school grounds and at school activities on/off campus. (See appendices K and L).

School Campus Map

Emergency evacuation, ingress, and egress routes are posted in every classroom. For security purposes, they are not provided here. Copies of actual routes are secured by the district office and school sites.

Appendix A: Disciplinary Guidelines- Exhibit 5144

Disciplinary Guidelines

Exhibit: SANTA BARBARA UNIFIED SCHOOL DISTRICT
Version: December 14, 2010 Santa Barbara, California

EDUCATION CODE 48908 - DUTIES OF PUPILS

All pupils shall comply with the regulations, pursue the required course of study, and submit to the authority of the teachers of the schools.

DISCIPLINE GUIDELINES

A student may be disciplined, suspended or expelled for any of the acts listed below if the act occurs while on school grounds, while going to or coming from school, during the lunch period (on or off campus), or during, going to, or coming from any school-sponsored activity at any school or on any school district's grounds. Education Code 48900(r).

(References in the "Offense" column below: EC is Education Code; SBSD BP is Santa Barbara Unified School District's Board Policy.)

	OFFENSE	1 ST OFFENSE	2 ND OFFENSE	ADDITIONAL OFFENSES
1	Assault and/or battery on a school employee [EC 48915 A(5), SBSD BP 5131 and SBSD BP 5144.1]	Due to the potential seriousness of this offense, an infraction of this rule will result in 5 days suspension, and recommendation for expulsion. Law enforcement notification.	None permitted.	None permitted.
2	Offering or selling a controlled substance or alcoholic beverage or intoxicant [EC 48915(c2), EC48900D, SBSD BP 5131.6, SBSD BP 5131 and SBSD BP 5144.1]	Due to the potential seriousness of this offense, and the requirements of the CA Ed Code 48900/48915, this will result in 5 days suspension and recommendation for expulsion. Law enforcement notification.	None permitted.	None permitted.
3	Brandishing a knife or explosive or possession of any firearm [EC 48915C, SBSD BP 5131 and SBSD BP5144.1]	Due to the potential seriousness of this offense and the requirements of CA Ed Code 48915, this will result in 5 days suspension, and a recommendation for expulsion. Fire marshall and/or law enforcement notification.	None permitted.	None permitted.
4	Sexual assault, committing or attempting to commit sexual assault or committing sexual battery [EC 48915 (c)(4), SBSD BP 5131, and SBSD BP 5144.1]	Due to the potential seriousness of this offense and the requirements of CA Ed Code 48915, this will result in 5 days suspension, and a recommendation for expulsion. Fire marshall and/or law enforcement notification.	None permitted.	None permitted.
5	Possession of a knife or other dangerous object at school or school activity [EC 48900B, SBSD BP 51317 and SBSD BP 5144.1]	5 days suspension recommendation for expulsion unless a written report explaining the circumstances is provided to the governing board. Fire marshall and/or law enforcement notification.	5 days suspension and recommendation for expulsion.	None permitted.

	OFFENSE	1 ST OFFENSE	2 ND OFFENSE	ADDITIONAL OFFENSES
6	Willfully causing serious injury to another person, except in self defense [EC 48915 A(1), EC 48900 A(1) EC 48900 A(2), SBSD BP 5131 and SBSD BP 5144.1]	Due to the potential seriousness of this offense and the requirements of the CA Ed Code 48900/48915, this will result in 5 days suspension and recommendation for expulsion (48915 only). Law enforcement notification.	5 days suspension and recommendation for expulsion.	None permitted.
7	Possession, under the influence and/or use of any controlled substance, alcoholic beverage or intoxicant [EC 48900C, SBSD BP 5131, SBSD BP 5144.1 and SBSD BP 5131.6]	5 days suspension, parent-student conference, mandatory counseling referral to SUPER program and/or Teen Court services to be completed within 45 school days. Law enforcement notification.	5 days suspension, parent-student conference, and referral to Daniel Bryant Youth & Family Center which will include a clinical alcohol/drug assessment and a six-week Parent Program [voluntary for parents]) with the following treatment options to be determined by the Center based on the individual's needs: 1) Alcohol and drug awareness groups with drug testing; 2) 30-day Cannabis Youth Treatment (<i>A brief intervention program for early use of marijuana</i>); 3) six months Moderate Treatment (<i>for more acute use of alcohol or drugs</i>); or 4) one year Intensive Treatment (<i>for chronically involved in alcohol and drug use</i>). The principal or superintendent may recommend the pupil for expulsion or an involuntary transfer based on a case-by-case analysis of the pupil's individual circumstances including whether the pupil has complied with the district's discipline policy requirements for the first time offense.	5 days suspension, parent-student conference, law enforcement notification, and recommendation for expulsion.
8	Aids or abets the infliction or attempted infliction of physical injury to another person [EC48900T, SBSD BP 5131 and SBSD BP 5144.1]	5 days suspension, parent conference, Teen Court services, possible law enforcement notification.	5 days suspension, Law enforcement notification, recommendation for expulsion.	None permitted.

	OFFENSE	1ST OFFENSE	2ND OFFENSE	ADDITIONAL OFFENSES
9	Robbery and/or extortion [EC 48915 a(4) and EC 48900E, SBSD BP 5131 and SBSD BP 5144.1]	Due to the potential seriousness of this offense, and the requirements of the CA Ed Code 48900/48915, this will result in 5 days suspension and recommendation for expulsion (48915 only). Law enforcement notification.	5 days suspension and recommendation for expulsion.	None permitted.
10	Terroristic Threats [EC 48900.7, SBSD BP 5131 and SBSD BP 5144.1]	Up to 5 days suspension and/or possible recommendation for expulsion and Law enforcement notification.	5 days suspension and recommendation for expulsion.	None permitted.
11	Fire setting [EC 48915 a(2), EC 48900 b and c, SBSD BP 5131 and SBSD BP 5144.1]	Up to 5 days suspension, parent conference, Teen Court services, Fire marshal and law enforcement notification, and possible recommendation for expulsion.	5 days suspension, fire marshal and law enforcement notification, and recommendation for expulsion.	None permitted.
12	Hate crime or violence [EC 48900.3, SBSD BP 5145.3, SBSD BP 5131, SBSD BP 5136 and SBSD BP 5144.1]	Up to 5 days suspension, parent conference, referral to counseling or Teen Court, law enforcement notification. Possible recommendation for expulsion.	5 days suspension, parent and law enforcement notification, recommendation for expulsion.	None permitted.
13	Obscene acts, habitual profanity or vulgarity [EC 48900i, SBSD BP 5131 and SBSD BP 5144.1]	Alternative means of correction and/or up to 5 days suspension, Teen Court services, and parent conference.	Up to 5 days suspension, Teen Court services, and parent conference.	Up to 5 days suspension.
14	Possession, sale and/or trade of drug paraphernalia [EC 48900J, SBSD BP 5131, SBSD BP 5131.6 and SBSD BP 5144.1]	Up to 5 days suspension, parent conference, and/or Teen Court services; mandatory counseling (SUPER program). Law enforcement notification.	5 days suspension and possible recommendation for expulsion. Law enforcement notification.	5 days suspension and recommendation for expulsion. Law enforcement notification.
15	Theft, attempted theft, or possession of stolen school or personal property [[EC 48900G, EC 48900L, SBSD BP 5131 and SBSD BP 5144.1]	Up to 5 days suspension, restitution, parent conference, and Teen Court services. Possible law enforcement notification and possible recommendation for expulsion.	Up to 5 days suspension, Law enforcement notification and possible recommendation for expulsion.	5 days suspension and possible recommendation for expulsion. Law enforcement notification.
16	Vandalism/destruction of school or private property [EC 48900F, SBSD BP 5131 and SBSD BP 5144.1]	Alternative means of correction and/or up to 5 days suspension, Teen Court services, and parent conference. Law enforcement notification and possible recommendation for expulsion.	Up to 5 days suspension, law enforcement notification and possible recommendation for expulsion.	Up to 5 days suspension, law enforcement notification and possible recommendation for expulsion.

	OFFENSE	1ST OFFENSE	2ND OFFENSE	ADDITIONAL OFFENSES
17	Possession or use of tobacco [EC 48900H, SBSD BP 5131 and SBSD BP 5144.1]	Alternative means of correction and/or up to 5 days suspension, parent conference, and Teen Court services.	Up to 5 days suspension and parent conference.	Up to 5 days suspension and parent conference.
18	Harassment, threats or intimidation, including via electronic transmissions [EC 48900.4, SBSD BP 5145.3, SBSD BP 5131 and SBSD BP 5144.1]	Alternative means of correction and/or up to 5 days suspension, Teen Court services, and parent notification and possible law enforcement notification.	Up to 5 days suspension, parent conference, Teen Court services. Possible law enforcement notification.	Up to 5 days suspension, law enforcement notification and recommendation for expulsion.
19	Bias-related incident (racial, ethnic, religious, sexual orientation, etc.) or hazing, degrading (slurs) and disgracing any person attending the school [EC 48900Q and EC 48900K, SBSD BP 5145.3, SBSD BP 5131 and SBSD BP 5144.1]	Alternative means of correction and/or up to 5 days suspension and possible recommendation for expulsion. Teen Court services, parent conference, and possible law enforcement notification.	Up to 5 days suspension, parent conference, Teen Court services, and possible recommendation for expulsion. Law enforcement notification.	Up to 5 days suspension and possible recommendation for expulsion.
20	Willful disobedience/defiance and/or disrupting school activities [EC 48900K, SBSD BP 5131 and SBSD BP 5144.1]	Alternative means of correction and/or up to 5 days suspension, parent conference, and possible Teen Court services.	Up to 5 days suspension, parent conference, Teen Court services.	Up to 5 days suspension and parent conference.
21	Sexual harassment [EC 48900.2, SBSD BP 5145.3, SBSD BP 5145.7, SBSD BP 5131 and SBSD BP 5144.1]	Up to 5 days suspension, parent notification, referral to counseling or Teen Court services, possible law enforcement notification.	Up to 5 days suspension, parent conference, Teen Court services. Law enforcement notification.	5 days suspension, parent notification, and recommendation for expulsion. Law enforcement notification.
22	Sale of any look alike substance representing drugs or alcohol [EC 48900D, SBSD BP 5131 and SBSD BP 5144.1]	Up to 5 days suspension and parent conference. Referral to Teen Court services.	Up to 5 days suspension and possible recommendation for expulsion.	5 days suspension and recommendation for expulsion.
23	Possession of unauthorized articles (i.e., pornographic material, chains, or misuse of electronic devices) [EC 48901.5 and EC48900K, SBSD BP 5131 and SBSD BP 5144.1]	Parent notification; item confiscated until parent retrieval at conference. (Cell phones, electronic devices referred to site administration after school.)	Parent notification; item confiscated-to be returned to parent only, alternative means of correction, Teen Court services.	Up to 5 days suspension and/or parent conference or Teen Court services.
24	Use of physical force upon another person [EC 48900 a(1), SBSD BP 5131 and SBSD BP 5144.1]	Up to 5 days suspension, parent conference, Teen Court services, and possible law enforcement office notification.	Up to 5 days suspension and parent conference. Law enforcement notification.	5 days suspension and recommendation for expulsion. Law enforcement notification.
25	Falsification and/or forging or altering school correspondence, passes or absence re-admits	Up to 5 days suspension and/or alternative means of correction, parent conference, and Teen Court services.	Up to 5 days suspension, parent conference, Teen Court services.	Up to 5 days suspension and parent conference.

	OFFENSE	1ST OFFENSE	2ND OFFENSE	ADDITIONAL OFFENSES
26	Upbraiding, insulting, or abusing teachers or other school personnel [EC 48900K, SBSD BP 5131 and SBSD BP 5144]	Up to 5 days suspension, possible removal from class and/or alternative means of correction, parent conference, and Teen Court services.	Up to 5 days suspension, parent conference and/or possible removal from class. Teen Court services or a possible recommendation for involuntary transfer or expulsion.	Recommendation for Involuntary transfer or possible recommendation for expulsion.
27	On any other campus without permission [EC48900K, SBSD BP 5131 and SBSD BP 5144.1]	Up to 5 days suspension and/or alternative means of correction, parent conference, and Teen Court services.	Up to 5 days suspension and parent conference.	Up to 5 days suspension and parent conference.
28	Academic integrity (e.g., cheating/plagiarism) [EC48900(k) and SBSD BP5131]	Failing grade on affected assignment, parent contact, and referred to guidance counselor. Depending on the seriousness of the offense, there may be law enforcement notification and/or recommendation for involuntary transfer.	Second offense within 12 months will result in failed grade in most recent affected class (contributes to GPA), parent contact, mandatory guidance counselor conference, and/or suspension up to 5 days. Depending on the seriousness of the offense, there may be law enforcement notification and/or recommendation for involuntary transfer or expulsion.	All subsequent incidents result in failure in affected class, parent contact, and/or suspension up to 5 days. Depending on the seriousness of the offense, there may be law enforcement notification and/or recommendation for involuntary transfer or expulsion.
29	Misuse of computers and/or the Internet (see computer “Acceptable Use Policy” in Appendices) [EC48900K, SBSD BP 5131 and SBSD BP 5144.1]	Up to 5 days suspension and/or alternative means of correction, loss of access for specified time. Possible recommendation for expulsion.	Up to 5 days suspension, parent conference and loss of access to school computers for a specified time. Teen Court services. Possible recommendation for expulsion.	Up to 5 days suspension, parent conference and loss of access to school computers for the rest of the school year. Possible recommendation for expulsion.
30	Possession of an imitation firearm) [Education Code 48900M, Santa Barbara Unified School District’ Board Policy 5131 and Board Policy 5144.1]	Up to 5 days suspension and/or alternative means of correction, possible recommendation for expulsion. Law enforcement notification.	Up to 5 days suspension, parent conference, and/or Teen Court services. Possible recommendation for expulsion. Law enforcement notification.	Up to 5 days suspension, and parent conference. Possible recommendation for expulsion. Law enforcement notification.

Note:

1. With the exception of the use of personal electronic devices for academic purposes as directed by school staff members, such devices must be turned off from the first bell until dismissal (end of school day). The administration is not responsible for the loss or theft of personal items.
2. Education Code 48903 provides for the recommendation for expulsion or involuntary transfer to another school site any student who has accumulated 20 days of suspension (or 30 days if already transferred to another school for adjustment purposes).
3. Education Code 48900S provides that these disciplinary guidelines apply to students on any school campus (in or out of district) and that a pupil may be suspended or expelled for acts that are enumerated in this section and related to school activity or

attendance that occur at any time, including, but not limited to, any of the following: (1) while on school grounds, (2) while going to or coming from school, (3) during the lunch period whether on or off the campus, (4) during, or while going to or coming from, a school sponsored activity.

4. Board Policy 5145.12 provides general guidance with regards to student searches. In all cases, school officials will not conduct a search absent reasonable suspicion.
5. Misuse of electronic devices (e.g., computers, cell phones, PDAs) can result in additional legal and school consequences. Misuse of electronic devices, regardless of time and place, that disrupt the educational environment will also result in application of these disciplinary rules.
6. All school lockers and all of their contents are subject to search. Students are advised not to share lockers: Unauthorized contents of a locker are presumed to belong to the student assigned to it.

Suspension/Expulsion Procedures:

S U S P E N S I O N A N D E X P U L S I O N P R O C E D U R E S

The pupil Suspension and Expulsion Policy (#006) has been established in order to promote learning and protect the safety and wellbeing of all students at the School.

When the Policy is violated, it may be necessary to suspend or expel a student from regular classroom instruction. This Policy shall serve as the School's policy and procedures for student suspension and expulsion, and it may be amended from time to time without the need to amend the Charter so long as the amendments comport with legal requirements. School staff shall enforce disciplinary rules and procedures fairly and consistently among all students. This Policy and its procedures will be printed and distributed as part of the Student Handbook and will clearly describe discipline expectations.

Discipline includes, but is not limited to, advising and counseling students, conferring with parents/guardians, detention during and after school hours, use of alternative educational environments, suspension, and expulsion.

Corporal punishment shall not be used as a disciplinary measure against any student.

Corporal punishment includes the willful infliction of, or willfully causing the infliction of, physical pain on a student. For purposes of the Policy, corporal punishment does not include an employee's use of force that is reasonable and necessary to protect the employee, students, staff, or other persons or to prevent damage to school property.

The School administration shall ensure that students and their parents/guardians are notified in writing upon enrollment of all discipline policies and procedures. The notice shall state that these Policy and Administrative Procedures are available on request at the Director of Education's or Director of Operations' office.

Suspended or expelled students shall be excluded from all school and school-related activities unless otherwise agreed during the period of suspension or expulsion.

A student identified as an individual with disabilities or for whom the School has a basis of knowledge of a suspected disability pursuant to the Individuals with Disabilities in Education Act (IDEA), or who is qualified for services under Section 504 of the Rehabilitation Act of 1973 (Section 504), is subject to the same grounds for suspension and expulsion and is accorded the same due process procedures applicable to regular education students, except when federal and state law mandates additional

or different procedures. The School will follow Section 504 of the Rehabilitation Act, Individuals with Disabilities in Education Act (IDEA), the Americans with Disabilities Act (ADA) of 1990, and all federal and state laws including, but not limited to, the California Education Code when imposing any form of discipline on a student identified as an individual with disabilities, or for whom the School has a basis of knowledge of a suspected disability, or who is otherwise qualified for such services or protection in according due process to such students. The School shall notify the District of the suspension of any student identified under the IDEA (or for whom there may be a basis of knowledge of the same) or as a student with disability under Section 504 of the Rehabilitation Act, and would grant the District approval rights prior to the expulsion of any such student as well.

A. Grounds for Suspension and Expulsion of Students

A student may be suspended or expelled for prohibited misconduct if the act is related to school activity or school attendance, occurring at the School or at any other school, or a School-sponsored event at any time, including but not limited to:

- a) while on school grounds;
- b) while going to or coming from school;
- c) during the lunch period, whether on or off the school campus;
- d) during, going to, or coming from a school-sponsored activity.

B. Enumerated Offenses

Students may be suspended or expelled for any of the following acts when it is determined the pupil:

1. Caused, attempted to cause, or threatened to cause physical injury to another person, or willfully used force or violence upon the person of another, except in self-defense.
2. Possessed, sold, or otherwise furnished any firearm, knife, explosive, or other dangerous object unless, in the case of possession of any object of this type, the student had obtained written permission to possess the item from a certificated school employee, with the Director of Education/Administrator or designee's concurrence.
3. Unlawfully possessed, used, sold, or otherwise furnished, or was under the influence of, any controlled substance as defined in Health and Safety Code 11053-11058, alcoholic beverage, or intoxicant of any kind.
4. Unlawfully offered, arranged, or negotiated to sell any controlled substance as defined in Health and Safety Code 11053-11058, alcoholic beverage, or intoxicant of any kind, and then sold, delivered, or otherwise furnished to any person another liquid substance or material and represented same as controlled substance, alcoholic beverage, or intoxicant.
5. Committed or attempted to commit robbery or extortion.
6. Caused or attempted to cause damage to school property or private property.

7. Stole or attempted to steal school property or private property.
8. Possessed or used tobacco or any products containing tobacco or nicotine products, including but not limited to cigars, cigarettes, miniature cigars, clove cigarettes, smokeless tobacco, snuff, chew packets, and betel.
9. Committed an obscene act or engaged in habitual profanity or vulgarity.
10. Unlawfully possessed or unlawfully offered, arranged, or negotiated to sell any drug paraphernalia, as defined in Health and Safety Code 110145
11. Disrupted school activities or otherwise willfully defied the valid authority of supervisors, teachers, administrators, other school officials, or other school personnel engaged in the performance of their duties.
12. Knowingly received stolen school property or private property.
13. Possessed an imitation firearm, i.e.: a replica of a firearm that is so substantially similar in physical properties to an existing firearm as to lead a reasonable person to believe that the replica is a firearm.
14. Committed or attempted to commit a sexual assault as defined in Penal Code 261, 266c, 286 288, 288a or 289, or committed a sexual battery as defined in Penal Code 243.4.
15. Harassed, threatened, or intimidated a student who is a complaining witness or witness in a school disciplinary proceeding for the purpose

of preventing that student from being a witness, and/or retaliating against that student for being a witness.

16. Unlawfully offered or arranged to sell, negotiated to sell, or sold a prescription drug.
17. Engaged in or attempted to engage in the hazing of another.
18. Aided or abetted, as defined in Section 31 of the Penal Code, the infliction or attempted infliction of physical injury to another person.
19. Made terrorist threats against school officials and/or school property.
20. Committed sexual harassment.
21. Caused or attempted to cause, threatened to cause, or participated in an act of hate violence.
22. Intentionally harassed, threatened, or intimidated a student or group of students to the extent of having the actual and reasonably expected effect of materially disrupting class work, creating substantial disorder, and invading student rights by creating an intimidating or hostile educational environment.

Alternatives to suspension or expulsion will first be attempted with students who are truant, tardy, or otherwise absent from assigned school activities.

C. Suspension Procedure

Suspension shall be initiated according to the following procedures:

1. Suspension shall be preceded, if possible, by a conference conducted by the Director of Education or Director of Education's designee with the student, his/her parent, or both the student and his/her parent. When necessary, a phone conversation may take the place of a face-to-face meeting. The conference may be omitted if the Director of Education or designee determines that an emergency situation exists. An "emergency situation" involves a clear and present danger to the lives, safety or health of students or school personnel. If a student is suspended without this conference, both the parent/guardian and student shall be notified of the student's right to return to school for the purpose of a conference. At the conference, the pupil shall be informed of the reason for the disciplinary action and the evidence against him or her, and shall be given the opportunity to present his or her version and evidence in his or her defense.

This conference shall be held within two school days, unless the pupil waives this right or is physically unable to attend for any reason including, but not limited to, incarceration or hospitalization.

No penalties may be imposed on a pupil for failure of the pupil's parent or guardian to attend a conference with school officials. Reinstatement of the suspended pupil shall not be contingent upon attendance by the pupil's parent or guardian at the conference.

2. Notice to Parents/Guardians

At the time of the suspension, an administrator or designee shall make a reasonable effort to contact the parent/guardian by telephone or in person. Whenever a student is suspended, the parent/guardian shall be notified in writing of the suspension and the date of return following suspension. The notice also shall state the specific offense committed by the student. In addition, the notice also may state the date and time when the student may return to school. If the Director of Education or the Director of Education's designee wish to ask the parent/guardian to confer regarding matters pertinent to the suspension, the notice may request that the parent/guardian respond to such requests without delay.

3. Suspension Time Limits/Recommendation for Placement/Expulsion

Suspensions, when not including a recommendation for expulsion, shall not exceed (5) consecutive schooldays per suspension. Upon a recommendation of Placement/Expulsion, District procedures will be followed. The Director of Education or designee will process the Expulsion recommendation and may serve as a liaison

between the District and family. The decision to extend a suspension until the Expulsion hearing will be made by the District administrator based on whether:

- 1) The pupil's presence will be disruptive to the education process; or
- 2) The pupil poses a threat or danger to others.

Upon either determination, the pupil's suspension will be extended pending the result of an expulsion hearing.

D . Authority to Expel

The Santa Barbara District Board, based on the recommendation of the SBCSD Director of Education, may expel a student (District policies, procedures, and timelines will be followed).

E . Students recommended for expulsion are entitled to a hearing to determine whether the student should be expelled. Unless postponed for good cause, the hearing shall be held within thirty (30) school days after the Director of Education or designee determines that the Pupil has committed an expellable offense.

In the event an administrative panel hears the case, it will make a recommendation to the Circle of Trustees for a final decision whether to expel. The hearing shall be held in closed session unless the pupil makes a written

request. The COT decision is final. There is no appeal to the District or County Office of Education.

Written notice of the hearing shall be forwarded to the student and the student's parent/guardian at least ten (10) calendar days before the date of the hearing. Upon mailing the notice, it shall be deemed served upon the pupil. The notice shall include:

1. The date and place of the expulsion hearing;
2. A statement of the specific facts, charges, and offenses upon which the proposed expulsion is based;
3. A copy of the School's disciplinary rules which relate to the alleged violation;
4. Notification of the student's or parent/guardian's obligation to provide information about the student's status at the school to any other school district or school to which the student seeks enrollment;
5. The opportunity for the student or the student's parent/guardian to appear in person or to employ and be represented by counsel or a non-attorney advisor;
6. The right to inspect and obtain copies of all documents to be used at the hearing;

7. The opportunity to confront and question all witnesses who testify at the hearing;

8. The opportunity to question all evidence presented, and to present oral and documentary evidence on the student's behalf, including witnesses.

F. Special Procedures for Expulsion Hearings Involving Sexual Assault or Battery Offenses

The School may, upon finding of cause, determine that the disclosure of either the identity of the witness or the testimony of that witness at the hearing, or both, would subject the witness to an unreasonable risk of psychological or physical harm.

Upon this determination, the testimony of the witnesses may be presented at the hearing in the form of sworn declarations which shall be examined only by the School, Administrative Panel Chair, or SBSD Board Hearing Chair.

Copies of the sworn declarations, edited to delete the name and identity of the witness, shall be made available to the pupil.

1. The complaining witness in any sexual assault or battery case must be provided with a copy of the applicable disciplinary rules and advised of his/her right to (a) receive five days notice of his/her scheduled testimony, (b) have up to two adult support persons of his/her choosing present in the hearing at the time he/she testifies, which may include a parent, guardian, or legal counsel, and (c) elect to have the hearing closed while testifying.

2. The School District also must provide the victim a room separate from the hearing room for the complaining witness's use prior to and during breaks in testimony.
3. At the discretion of the person or panel conducting the hearing, the complaining witness shall be allowed periods of relief from examination and cross-examination during which he or she may leave the hearing room.
4. The person conducting the expulsion hearing also may arrange the seating within the hearing room to facilitate a less intimidating environment for the complaining witness.
5. The person conducting the expulsion hearing also may limit time for taking the testimony of the complaining witness to the hours he/she is normally in school, if there is no good cause to take the testimony during other hours.
6. Prior to a complaining witness testifying, the support persons must be admonished that the hearing is confidential. Nothing in the law precludes the person presiding over the hearing from removing a support person whom the presiding person finds is disrupting the hearing. The person conducting the hearing may permit any one of the support persons for the complaining witness to accompany him or her to the witness stand.
7. If one or both of the support persons is also a witness, the School must present evidence that the witness's presence is both desired by the witness and will be helpful to the School. The person presiding over the hearing shall permit the witness to stay unless it is established that there is a substantial risk that the testimony of the complaining witness would be influenced by the support person, in which case the presiding official shall admonish the support person or persons not to prompt, sway, or influence the witness in any way. Nothing shall preclude the presiding officer

from exercising his or her discretion to remove a person from the hearing whom he or she believes is prompting, swaying, or influencing the witness.

8. The testimony of the support person shall be presented before the testimony of the complaining witness, and the complaining witness shall be excluded from the courtroom during that testimony.
9. Especially for charges involving sexual assault or battery, if the hearing is to be conducted in the public at the request of the pupil being expelled, the complaining witness shall have the right to have his/her testimony heard in a closed session, when testifying at a public meeting would threaten serious psychological harm to the complaining witness and there are no alternative procedures to avoid the threatened harm. The alternative procedures may include videotaped depositions or contemporaneous examination in another place communicated to the hearing room by means of closed-circuit television.
10. Evidence of specific instances of a complaining witness's prior sexual conduct is presumed inadmissible and shall not be heard absent a determination by the person conducting the hearing that extraordinary circumstances exist requiring the evidence to be heard. Before such a determination regarding extraordinary circumstance can be made, the witness shall be provided notice and an opportunity to present opposition to the introduction of the evidence. In the hearing on the admissibility of the evidence, the complaining witness shall be entitled to be represented by a parent, legal counsel, or other support person. Reputation or opinion evidence regarding the sexual behavior of the complaining witness is not admissible for any purpose.

G. Record of Hearing

A record of the hearing shall be made and may be maintained by any means, including electronic recording, as long as a reasonably accurate and complete written transcription of the proceedings can be made.

H . Presentation of Evidence

While technical rules of evidence do not apply to expulsion hearings, evidence may be admitted and used as proof only if it is the kind of evidence on which reasonable persons can rely in the conduct of serious affairs. A recommendation by the Administrative Panel to expel must be supported by substantial evidence that the student committed an expellable offense.

Findings of fact shall be based solely on the evidence at the hearing. While hearsay evidence is admissible, no decision to expel shall be based solely on hearsay, and sworn declarations may be admitted as testimony from witnesses if the Hearing Panel or designee determines that the disclosure of their identity or testimony at the hearing may subject them to an unreasonable risk of physical or psychological harm.

If, due to a written request by the pupil who has been recommended for expulsion, the hearing is held at a public meeting, and the charge is

committing or attempting to commit a sexual assault or committing a sexual

battery as defined in Education Code Section 48900, a complaining witness shall have the right to have his or her testimony heard in a session closed to the public.

The decision of the Administrative Panel shall be in the form of written findings of fact and a written recommendation to the Circle of Trustees, who will make a final determination regarding the expulsion. The final decision by the Panel shall be made within ten (10) school days following the conclusion of the hearing. The Decision of the SBSD School Board Panel is final.

If the expulsion Hearing Panel decides not to recommend expulsion, the pupil shall immediately be returned to his/her educational program.

I. Written Notice to Expel

Following the decision of the Board Panel to expel, a district administrator shall send written notice of the decision to expel, including the adopted findings of fact, to the student or parent/guardian. This notice shall include the following:

1. Notice of the specific offense committed by the student;

2. Notice of the student's or parent/guardian's obligation to inform any new district in which the student seeks to enroll of the student's status with the School.

The District Administrator or Designee shall send written notice of the Expulsion to the SBCS Director of Education.

This notice shall include the following:

- a) The student's name;
- b) The specific expellable offense committed by the student.

J. Disciplinary Records

The School shall maintain records of all student suspensions and expulsions at the School. Such records shall be made available to the District upon request.

K. Expelled Pupils/ Alternative Education

Pupils who are expelled shall be responsible for seeking alternative education programs including, but not limited to, programs within the County or their school district of residence.

M . Readmission

The decision to readmit a pupil or admit a previously expelled pupil from another school district or charter school shall be in the sole discretion of the Santa Barbara School District Board following a meeting with the Director of Education and/or a District administrator, the pupil, and the guardian or representative, to determine whether the pupil has successfully completed the rehabilitation plan and to determine whether the pupil poses a threat to others or will be disruptive to the school environment. After the meeting, the Director of Education and/or District administrator will make a recommendation to the School Board. The pupil's readmission is also contingent upon the school's capacity at the time the student seeks readmission.

N . No Right to Appeal

The pupil shall have no right of appeal from expulsion from the Santa Barbara School District and the School Board's decision shall be final.

DISENROLLMENT AND/OR EXPULSION FROM SBCS BUT NOT SBSD

1. A student who does not show and whose parents do not contact SBCS during the first five days of school may be disenrolled. Notification will be sent by registered mail.
2. A student may be expelled from Santa Barbara Charter School if they have fifteen days of unexcused absences. Parents or guardians will be notified in writing via registered mail after five and ten days of unexcused absences.
3. A student may be disenrolled from SBCS because the pre-enrollment or enrollment applications contain falsified information. The recommendation to disenroll a student based on a false application will be made by the Director of Education, Director of Operations, or their designee. The decision to disenroll a student will be made by an Administrative Panel consisting of the Director of Operations, a teacher, a member of the Circle of Trustees, and the ex-officio presence of the Director of Education.

4. A student may be expelled from SBCS if the student has fifteen suspensions during the school year due to behavioral issues that are not related to special education needs. In such cases, the Director of Education will prepare the Recommendation for Expulsion from SBCS. An Administrative Panel will make the decision regarding Involuntary Transfer. The Panel will consist of the Director of Operations, a teacher, a member of the Circle of Trustees, and the Director of Education (ex-officio). Parents must receive written notice ten days prior to the Involuntary Transfer Hearing, and the hearing must be held within thirty days. The Administrative Panel's decision is final and there is no right of appeal.

Following the decision for Involuntary Transfer by an Administrative Panel, written notice including the adopted findings of fact will be made to the student or parent/guardian. This notice shall include the following:

1. Reason for the Involuntary Transfer;
2. Notice of the student's or parent/guardian's obligation to inform any new school in which the student seeks to enroll of the student's status with SBCS.

The District Administrator or designee shall send written notice of the
Involuntary Transfer to an SBSD Administrator and/or record it in Aeries.

Appendix B: Emergencies and Disaster Preparedness Plan- Administrative Regulation 3516

Santa Barbara Unified School District Administrative Regulation

AR 3516

Business and Non-Instructional Operations

EMERGENCIES AND DISASTER PREPAREDNESS PLAN

Components of the Plan

The Superintendent or designee shall ensure that district and school site plans address, at a minimum, the following types of emergencies and disasters:

1. Fire on or off school grounds which endangers students and staff
2. Earthquake or other natural disasters
3. Environmental hazards

(cf. 3514.2 - Integrated Pest Management)

4. Attack or disturbance, or threat of attack or disturbance, by an individual or group
5. Bomb threat or actual detonation
6. Biological, radiological, chemical, and other activities, or heightened warning of such activities
7. Medical emergencies and quarantines, such as a pandemic influenza outbreak

(cf. 5141.22 - Infectious Diseases)

The Superintendent or designee shall ensure that the district's procedures include strategies and actions for prevention/mitigation, preparedness, response, and recovery, including, but not limited to, the following:

1. Regular inspection of school facilities and equipment and identification of risks
2. Instruction and practice for students and employees regarding emergency plans, including:
 - a. Training of staff in first aid and cardiopulmonary resuscitation
 - b. Regular practice of emergency procedures by students and staff
3. Specific determination of roles and responsibilities of staff during a disaster or other emergency, including determination of:
 - a. The appropriate chain of command at the district and, if communication between the district and site is not possible, at each site
 - b. Individuals responsible for specific duties
 - c. Designation of the principal for the overall control and supervision of activities at each

- school during the emergency, including authorization to use his/her discretion in situations which do not permit execution of prearranged plans
- d. Identification of at least one person at each site who holds a valid certificate in first aid and cardiopulmonary resuscitation
 - e. Assignment of responsibility for identification of injured persons and administration of first aid
4. Personal safety and security, including:
- a. Identification of areas of responsibility for supervision of students
 - b. Procedures for evacuation of students and staff, including posting of evacuation routes
 - c. Procedures for release of students, including a procedure to release students when reference to the emergency card is not feasible
 - d. Identification of transportation needs, including a plan which allows bus seating capacity limits to be exceeded when a disaster or hazard requires students to be moved immediately to ensure their safety
 - e. Provision of a first aid kit to each classroom
 - f. Arrangements for students and staff with special needs
- (cf. 4032 - Reasonable Accommodation)*
- g. Upon notification that a pandemic situation exists, adjustment of attendance policies for students and sick leave policies for staff with known or suspected pandemic influenza or other infectious disease
- (cf. 5113 - Absences and Excuses)*
5. Closure of schools, including an analysis of:
- a. The impact on student learning and methods to ensure continuity of instruction
 - b. How to provide for continuity of operations for essential central office functions, such as payroll and ongoing communication with students and parents/guardians
6. Communication among staff, parents/guardians, the Governing Board, other governmental agencies, and the media during an emergency, including:
- a. Identification of spokesperson(s)
 - b. Development and testing of communication platforms, such as hotlines, telephone trees, and web sites
 - c. Development of methods to ensure that communications are, to the extent practicable, in a language and format that is easy for parents/guardians to understand
 - d. Distribution of information about district and school site emergency procedures to staff, students, and parents/guardians
7. Cooperation with other state and local agencies, including:
- a. Development of guidelines for law enforcement involvement and intervention
 - b. Collaboration with the local health department, including development of a tracking system to alert the local health department to a substantial increase of student or staff absenteeism as indicative of a potential outbreak of an infectious disease
8. Steps to be taken after the disaster or emergency, including:

- a. Inspection of school facilities
- b. Provision of mental health services for students and staff, as needed

(cf. 6164.2 - Guidance/Counseling Services)

Revised: June 17, 2008

SBCS Emergency Plans:

SBCS EMERGENCY OPERATION PLAN (EOP)/INCIDENT COMMAND SYSTEM (ICS)

Earthquake Drill
October 17, 2013

Drill Scenario

This morning, Thursday, at 10:18 AM, a 7.5 power earthquake hits our area. The quake causes moderate local damage, including a general power outage, loss of regular phone and cellular communication, and a great deal of road and freeway damage. In several areas around SB and Goleta, ruptured gas mains have caused fires, the smoke from which can be seen from school. At SBCS, the quake causes ceiling tiles and items on shelves to fall and some broken windows, but no buildings or parts of buildings have fallen. Broken glass, especially from larger windowpanes, is everywhere. Electrical wires have fallen into the alley and are arcing, causing sparks and smoke. The event has triggered a major disaster response by city and county officials. Teachers and students hear sirens blaring throughout Goleta.

Drop and Cover

As the quake begins, teachers and students are in their respective classes or are on the field for snack time. As soon as teachers (or Aides on the field) discern the shaking, they instruct students to “drop and cover!” This means that everyone in

the room or on the field should move away from windows, high shelves or cabinets, or, if outside, away from potential hazards, such as overhead wires, trees, equipment, and drop to their knees and elbows, using their clasped hands to protect the back of their neck. If there are tables or desks in the room, students should take cover under or near them to the degree practicable. Students should not try to take cover in doorways or try to exit buildings. Remember that there is no time to think or consider a course of action. This needs to be a fairly instant reaction.

At 10:18AM, practice the drop and cover drill. Note the actions of your students so you can give feedback later.

Emergency Operation Plan (EOP) Activation and Immediate Evacuation

Not every quake will activate the EOP. Staff at GVJHS will contact us by radio after the event to signify that GV is in the EOP mode. We will follow their lead. The activation of the EOP means that we evacuate to our ***staging area*** (as opposed to our fire drill waiting areas), which is the field behind the hedge at the far end of the Main GV parking lot. Other signals to activate EOP will include instructions from Emergency Service or law enforcement officials. The Incident Commander (IC) can initiate the EOP independently for SBCS if we have a situation that is local to only our section of the campus.

After the shaking stops, all staff need to survey their immediate area to check for injuries and dangerous hazards. Once this is done, as they are grabbing their role sheet, core teachers are to escort the class, in an orderly fashion, to our staging area using the route prescribed by the attached site map. To summarize, MS, 4th and 5th grade classrooms exit through the alley if safe (not this time, due to the down power lines there) or the covered walkway to the front sidewalk that borders the main parking lot. All other classes exit to the ES field and walk along the back fence line, away from buildings, all the way around the school, through the GV basketball courts and into our staging area from that side of the school. **(For the purposes of this drill, evacuate to the fire drill area in our SBCS field – not to main staging area).**

At 10:19, after the shaking stops, Teachers and/or Aides should survey their situation, and when they deem it safe, grab their role sheet and Emergency Kit (if appropriate) and escort all able-bodied people to the staging area, using prescribed routes. If on the field, Aides should assist students to their respective Fire-drill assembly area, wait for their teacher to join them, then head to the staging area. Note any injuries preventing anyone from evacuating and tell injured to wait for “*Search and Rescue*”. If there is no adult available to assist with immediate first aid for the injured, you must attend to the main group of students first. Core teachers (except for those identified as Search and Rescue) are now “*Staging Area Supervisors (SASs)*” in the ICS, Aides are “Aides/Runners.

Search and Rescue

As students are evacuating, Les and are to provide “Search and Rescue” (SR). Their job is to survey all of the evacuated areas to look for injured or those who are lagging behind. They will need to provide life sustaining first aid (such as putting pressure on profuse bleeding), and they will need to search for anyone who may have been trapped and is unable to evacuate.

It is possible that the injured will need stretchers to get to the “Triage and First Aid” area. Search and Rescue staff need to alert IC, who will alert our assigned “First Aid and Triage

Facilitators (FA/TFs)” (Sally and Jennifer B.) of all the needs identified by the various searches.

At 10:23, SR staff need to have immediate access to emergency radios (charged and stored in their respective rooms), and once they are so equipped, they conduct a search of all normally occupied areas. Identify injured to FA/TFs via radio contact to the IC., apply life sustaining first aid if necessary, and assist all remaining people to the first aid area or the staging area as appropriate.

First Aid and Triage (Sally and Jennifer B.)

First aid and triage will be set up by GV nursing staff at the far end of the GV courtyard, adjacent to the cafeteria. First Aid/Triage Facilitators’ job is to help Search and Rescue staff ask GV- ICS staff for what we need to get the injured to the first aid area. This may be a stretcher to help with non-ambulatory quake victims. The FA/T Facilitators also need to check with the Staging Area Supervisors to identify and assist any ambulatory injured from the staging area to the first aid area as soon as the most seriously injured are addressed. FA/T Facilitators must also notify SASs of the whereabouts of the injured so that all students and staff can be accounted for.

At 10:30, FA/TFs assist Search and Rescue as Necessary. This may include escorting ambulatory injured to the first aid area or running there to get stretchers for non-ambulatory injured (Aide/Runners should be available to support this effort as staging areas are established). FA/TFs also inform SASs and IC of the whereabouts of the injured.

STAGING AREAS

As students arrive in the staging area, they will be panicky and distressed. SASs must first account for all present using their respective role sheets. Once this is done, they are to provide a calming influence on the students. This may be done with projects or games – anything that shows students that someone is in control and that there is a system to care for them. SASs must communicate with FA/T Facilitators to account for anyone missing from their roles. They then must communicate with the IC the results of their student accounting. SAS must have immediate access to an SBCS Emergency radio, which will be kept in Bev's classroom, to be taken to the staging area by Bev or Laura (in Bev's absence, office will deliver radio to Laura and the staging area as soon as possible). Aides serve as runners between the staging area and the *"Student/Parent Release Table"*.

By 10:30, all should arrive at the staging area. SASs take role, communicate their findings with IC, FA/TFs and Runners, and take necessary steps to calm the students in their area. As the

event goes on, SASs should be prepared to offer activities to occupy students for what could be extended periods of time.

STUDENT/PARENT RELEASE

Tracy and Cindy (and/or BeAnne) are our “Student/Parent Release Coordinators (S/PRCs). Their job is to ensure that the right student is released to the right parent when the latter reports to the *Student/Parent Release area*. They will establish an area near the front of the field, adjacent to Stow Canyon road, with access to the curb, where parents can stop their vehicle for loading/unloading. They will have the Emergency Binder with parent information in it, as well as an SBCS emergency radio. They will communicate with SASs via radio and via the Aide/Runners, who will escort students to the release Area as indicated by the S/PRCs. As the system works, students in the first aide area will have been identified, both by SASs and FA/TFs. That information will be relayed to the S/PRCs by radio via the IC and by the runners, and ultimately, the S/PRCs will communicate to parents. S/PRCs, FA/Ts and parents will collaborate to determine whether injured students are best served by staying in the FA/T area or by being released to parents. ICF staff may escort parents to the FA/T area, if appropriate.

As the shaking stops and conditions are safe, Tracy and Cindy proceed directly to the pre-identified S/PR area with Emergency Binder and an SBCS emergency radio. They will establish a station in the table and will use a sign to identify SBCS's station.

INCIDENT COMMANDER

Dave will be the Incident Commander (IC), with Bev as the back up. The IC will hold the radio for communication with GV, and through GV, the outside world. Because SBCS and GV radios operate on different frequencies, the IC will serve as liaison for all communications between SBCS, GV and outside officials. Otherwise, the IC's job will be to facilitate the system wherever necessary. He/she may need to take other roles in the system, or re-assign ICS staff. He/she will monitor ICS areas and report to each as much information about our general condition as possible.

As shaking stops and conditions are safe, IC will get the GV Radio and the SBCS emergency radio(s), communicate with GV about the status of the entire site (such as the down power lines in the alley), and proceed to support evacuation. IC then monitors ICS system on both local and GV radio frequencies, provides a liaison to GV ICS, as well as outside agencies, and rectifies problems as possible.

END OF EVENT

As all students are released to the appropriate parties, and immediate dangers are addressed, the IC will signal the end of the event. He/she will contact each EOP area, either personally to alert each ICS staff. Staff may then be released to attend to their personal situations.

EVERYONE GOES HOME – INJURIES ADDRESSED, NO PANIC, ALL ACCOUNTED FOR.... PEACE OF MIND.

REMEMBER... RESEARCH SHOWS THAT THE DIFFERENCE BETWEEN THOSE WHO SURVIVE A DISASTER AND THOSE WHO DON'T IS OFTEN A PLAN AND MENTAL PREPARATION!

SBCS EMERGENCY OPERATIONS PLAN/INCIDENT COMMAND SYSTEM AND DISASTER DRILL PROCEDURE

November 10, 2011

ICS POSITIONS:

- **Search and Rescue (SR)**
- **Incident Commander (IC)**
- **First Aide/Triage Facilitator (FA/TF)**
 - **Staging Area Supervisor (SAS)**
- **Student/Parent Release Coordinator (S/PRC)**
 - **Aide/Runner (A/R)**

SBCS INCIDENT COMMAND SYSTEM

SEARCH AND RESCUE Function Description

Assigned Search and Rescue Staff (as of 3/08): Les Stickles and

Search and Rescue Responsibilities:

- **Ensure that all students under your regular charge are accounted for and escorted to staging area;**
- **Establish and maintain radio contact with IC and other ICS positions;**
- **Establish communications with other S/R ICF members, establish appropriate search pattern;**
- **Establish radio contact with IC. Report all conditions requiring immediate emergency response from outside officials (fire, electrical hazards, gas, etc.)**
- **To the degree possible and to the degree that you can maintain personal safety, search all SBCS premises for survivors or potential survivors of the incident;**
- **Apply lifesaving first aid to victims as they are located;**
- **Establish communications with FA/TF via IC. Report all wounded victims to IC, SAS and FA/TF ICF members;**
- **If located victims' situation is life-threatening, take immediate steps to secure the victim's safety, then stay with victim until help arrives;**
- **If victim's situation is not life-threatening, take immediate steps to secure the victim's safety, alert all ICF positions of victim's location, and proceed with search and rescue activities;**
- **Based on SR staff's best assessment, transport most immediately needy victims to SA/T area at GVJHS. If victims are non-ambulatory, SR should request stretchers and transportation assistance via the IC**
- **Once all victims are accounted for, and transported to FA/T area, SR staff will report to the SBCS Staging area to assist with staging area management and await further direction from IC (SR staff may collaborate with GV search/rescue efforts as deemed appropriate by IC staff from both campuses).**

SBCS INCIDENT COMMAND SYSTEM

INCIDENT COMMANDER (IC) Function Description

Assigned Staff: (Last updated 1/14) - Dave Weisman, Bev Abrams

Incident Commander Responsibilities:

- **Take any steps necessary to ensure your immediate safety and the safety of anybody around you;**
- **Based on observation, outside instructions or GV emergency response, IC determines if and when to initiate EOP;**
- **Collect GV and SBCS emergency radios and Emergency Operations Plan and proceed to staging area;**
- **Establish contact with GV for a general site assessment, to report general site issues to the central GV Incident Command System, and to learn of any outside contacts/official instructions.**
- **Relay any relevant information from GV or outside contacts to components of the SBCS ICS and vice versa;**
- **Serve as the communication link between GV FA/T and SBCS Search and Rescue team;**
- **Monitor and facilitate all aspects of the SBCS EOP as necessary and in response to emergency conditions.**

SBCS INCIDENT COMMAND SYSTEM

FIRST AIDE/TRIAGE FACILITATORS (FA/T) Function Description

Assigned Staff (as of 1/14): Sally Esparza and Jennifer Butler

First Aide Triage facilitator Responsibilities:

- **Ensure that all students under your regular charge are accounted for and escorted to staging area;**
- **Report to FA/T area set up by GV staff at the end of the GV ‘quad’ area, adjacent to the GV cafeteria;**
- **As directed by IC (who provides the radio contact between GV and SBCS), assist SR staff in supporting SBCS victims and in transporting them to FA/T area;**
- **Be prepared to transport emergency equipment (such as stretchers) to SR staff as directed by IC;**
- **Provide medical, physical, communications support within FA/T area as directed by medical personnel (such as GV Nurse) and IC staff.**

SBCS INCIDENT COMMAND SYSTEM

STAGING AREA SUPERVISOR (SAS) Function Description

Assigned Staff (as of 5/05): Each ES Teacher is the SAS for their respective class, others – TBD

Staging Area Supervisor Responsibilities:

- **Ensure that all students under your regular charge are accounted for and escorted to staging area;**
- **Coordinate with other SASs to account for all students who have been transported to the staging area.**
- **One SBCS emergency radio will be supplied to staging area. (Establish a communication liaison for the staging area);**
- **Establish communication with, and identify unaccounted for students to IC, who will cross-reference with SR and FA/T staff;**
- **Survey and observe students in staging area to ensure that anyone with an injury receives appropriate medical attention. If necessary, arrange for an Aide/Runner to escort students to the First Aide/Triage area;**
- **Provide support, reassurance and/or instruction to students in staging area to prevent and/or contain panic or student anxiety;**
- **Establish an activity program to engage students for what could be a long wait. Parents will have to deal with immediate emergencies, transportation breakdowns and staying out of the way of emergency efforts in getting here to re-unite with their students. Students need to be reassured of this to prevent additional, building anxiety;**
- **Establish communication with S/PRC. As parents connect with S/PRCs, the latter will alert SAS when parents arrive to pick up their student(s), who will assign an Aide/Runner to escort the student(s) to the Student Release table;**
- **If parents arrive at staging area, SASs must re-direct them to the Student Release area so that their reunification with their child can be confirmed as appropriate, recorded and communicated between ICS staff;**

- **SASs will track and record the time of all student releases using their respective role sheets.**

SBCS INCIDENT COMMAND SYSTEM

STUDENT/PARENT RELEASE COORDINATOR (S/PRC) Function Description

Assigned Staff (as of 1/14): Tracy Greganti, Cindy Emery and BeaAnne Dato

Student/Parent Release Coordinator Responsibilities:

- **Take any steps necessary to ensure your immediate safety and the safety of anybody around you;**
- **Collect the SBCS Emergency Contact Binder and the allotted SBCS emergency radio from the office in which they are stored and proceed to Student Release area;**
- **Take or create a sign that identifies the SBCS release area to parents;**
- **When contacted by parents, S/PRCs will reassure parents as to their child's safety, contact the SAS to have the child escorted to the Release Area;**
- **Direct parents to the FA/T area for those whose students may have sustained injury;**
- **S/PRDs will record all student/parent releases and note times for future verification and/or on-going ICF planning;**
- **Track and record all expenses, if any, associated with the event;**
- **Provide information to outside entities regarding the overall condition of the student body and/or what is in place to provide for them (S/PRCs are in the position where they will likely be the first contact for people coming to the campus for their kids or for more information;**
- **Re-direct family members of GV students to the appropriate staging area or GV official.**

SBCS INCIDENT COMMAND SYSTEM

AIDE/RUNNER (A/R) Function Description

Assigned Staff: All instructional aides, ancillary staff, volunteers

Aide/Runner Responsibilities:

- **Take any steps necessary to ensure your immediate safety and the safety of anybody around you;**
- **Assist SASs with escorting students to the SBCS Staging Area;**
- **Unless otherwise directed by IC, base yourself at the SBCS staging area so that ICS staff can access necessary resources quickly. If you have completed an assigned task, return to staging area, unless otherwise directed by the IC;**
- **On the direction of the IC (he/she will have contact with both GV and SBCS EOP components), assist SR staff by running required equipment to them (stretchers), and with transportation of injured to the FA/T area;**
- **Assist SASs with escorting students from staging area to the student release area.**
- **Ensure that students are checked out through the S/PRC area BEFORE releasing anybody to their parents;**
- **If not otherwise engaged in EOC activities, assist SASs with staging area and student support in collaboration with the SASs.**

SANTA BARBARA CHARTER SCHOOL

Disaster Management Plan

Drop and Lock/CODE RED Procedures

This procedure will secure the school in the event of police action, campus intrusion and any other incident requiring school/classroom security.

Law enforcement, Goleta Valley JHS Staff and All SBCS staff will use the term “**CODE RED**” if they encounter a campus intruder with a weapon. When office staff hears this code, they will

ask for important detail in order to make the necessary report to 911. The office will make this call and will notify GVJHS. GVJHS staff will activate the intruder alarm system.

Only an immediate, direct threat triggers the Code Red Procedure. If an individual is presented with a questionable or threatening situation, they should secure their immediate area and ensure the safety of students under their supervision. Do not initiate a Code Red Procedure by word of mouth. As soon as situation is secure, notify office immediately of the threat. Office Incident Command staff will contact law enforcement, GV Incident Command staff, and District officials, and will determine the correct procedure to enact. Code Red Procedure automatically involves both GV and SBCS campuses

Critical information to relay to the office includes:

- Area of immediate danger;
- Detailed description of the armed or threatening person – identity, if known;
- Type of weapon
- Approximate number of persons in the immediate area of at risk;
- Most importantly, report if the situation is **“Hostile”**, meaning that the intruder is causing an immediate danger to himself and/or others (i.e. pointing the weapon, making threats, etc.)

Communication between office and classrooms must be by phone. Emergency radios are only activated during an event, so they are not a reliable way to communicate until after the emergency has been called. Teachers and adults in classrooms will have to maintain the secure status until the office can get information out to all locations about the details of what is going on.

Drop and Lock procedures – Classrooms –

The signal to initiate Code Red procedures will be a repeating double buzzer/bell – two short buzzes in a row, repeated three times. Upon hearing this alarm, teachers should direct all students, staff and visitors to come inside the classroom, away from windows and doors. Teachers or other adults assigned by the teacher should lock all windows and doors immediately and close curtains or blinds as soon as everyone from their class is indoors. Students, visitors and staff should drop and cover to gain as much cover as possible under, near or behind desks or other classroom furniture.

Until communication between the office and classrooms can be established, occupants of classrooms will not necessarily know the nature of the alert. Those rooms with radios should activate their radios immediately as students are secured indoors. All classrooms should clear phone lines and ensure that incoming call can be received. The teacher should take roll, account for all present and post a green “All Clear” or a red “Help Needed” card in their windows as soon as they know whether all students are accounted for or not. Green signifies that all students who are at school that day are present in their respective classroom. Red signifies that a student

or students who are in attendance that day are not in the classroom, or that students from other classrooms are sheltered in that classroom or that there is a need for medical or technical help.

Code Red Procedures require that all students and adults in lock down shelter in place until the threat is alleviated. This may involve long periods during which no bathroom facilities are available. Teachers should establish a temporary, portable toilet in each classroom, or for adjoining classrooms. These should be away from windows and doors, and should be usable with a minimum amount of movement. Teachers should also provide for a source of water during a lock down situation.

Outside and Restrooms –

Students who are outside when the alert sounds should go or be directed to the nearest room, where “Drop and Lock” procedures should be enacted as soon as all nearby students and/or adults are inside. Every room will be supplied with green and red cards to signify “All Clear” or “Help is Needed” respectively. Students or adults in the restroom when a Code Red Alert sounds should stay where they are, secure their location by locking doors, windows, etc., and shelter there until “all clear” bell sounds.

All Clear -

Students or adults who are in classrooms, restrooms, offices or other secured areas when the alert sounds should stay there and shelter in that location until the “all clear” bell sounds – a single, long bell.

Communication

The office will contact each room by radio or by phone to provide and gather as much information as is available. The Incident Commander (IC) will establish and maintain continuous contact with the IC at GJVHS, and in concert with GV, will establish and maintain contact with public law enforcement and fire officials. All communications should route through the office and the IC to avoid confusion or duplicated messages. Do not release students or anyone else to leave the classroom for any reason until the “all clear” bell has sounded.

End of Event –

When the long single bell/buzzer sounds, this signifies that all is clear and that students may be released from secured classrooms. Please note any observations regarding the exercise in writing to the IC, so that feedback can lead to revision as necessary.

Santa Barbara Charter School DISASTER MANAGEMENT SYSTEM “SHELTER IN PLACE”

Shelter in Place Procedures

SBCS's "Shelter in Place" procedure is used when, for any reason, it becomes unsafe for students or adults to venture outside of classrooms. The objectives of the system are to secure classrooms, account for all students and adults who are on the campus at the time of the event, and to ensure the safety and well being of all, while students and adults are secured in school facilities until the unsafe condition is addressed and eliminated.

Drill – March 15, 2006 – 10AM

To practice this procedure, there will be a district-wide drill simulating a **chlorine spill** directly outside the school grounds. The simulation entails a tank truck overturning on Stow Canyon road in front of the campus, spilling its contents on to the street and into adjacent drains. The spill creates a large chlorine gas cloud, exposure to which could create severe respiratory and irritation problems, and, if sufficiently concentrated, could be lethal. We assume a lack of verified information is available, and that Shelter in Place is the most appropriate immediate response. Although the risk factors for this incident are dependent (size of spill, wind direction, relative position of spill to classrooms), our assumption is that staying in rooms with minimum exposure to outside air is our safest course of action.

Initiation of Drill

GVJHS will initiate the drill with a bell/buzzer that rings for two short bursts, repeated three times (this is the same alert as for an intruder). Those classrooms with Emergency Response radios should activate the radios as soon as students and classroom are secured (students inside, doors locked, windows shut, students moved away from doors and windows to the extent possible). Classrooms without radios will be contacted by phone so it should be kept clear for emergency communications. Students away from class should take immediate refuge in the nearest enclosed space. If in the restroom, they should stay until a staff person escorts them to the nearest classroom. Office staff will assume the responsibility of checking bathrooms. Take attendance to identify any students who may be out of the room at the time of the alert, or who may have taken refuge in your class. Make sure that radios and/or phones are available to receive new information. The office will contact each class to relay available information and to notify each class of the nature of the alert. Upon receiving the information from the office, take other precautions designed for this specific incident as follows:

- Turn off any classroom controlled fans, heaters or vents;
- Use duct tape and/or clothing to seal any noticeable draft or access to outside air (under doors, around windows, etc.) For the purposes of this drill, taping will be simulated only.

Do not Tape windows or doors for the drill.

Signal Cards

Each class has been given red and green display cards. These are to visually signal "All Clear" (green), and "Help is Needed" (red). Green signifies that all students are present and accounted

for, and that no medical or technical help is needed. Red signifies that a student or students are missing, that students not on the roll sheet for that class are sheltering there, or that there is a need for medical/technical help.

Attendance Reporting Contingencies

The nature of this incident will affect our response. Chlorine gas, in concentrations heavy enough to be toxic, forms a visible yellowish-white cloud that is heavier than air, and so will tend to collect in low lying, wind sheltered areas. Once the information about the incident is disseminated, office staff will conduct a restroom and outdoor sweep to escort any students found there to the nearest classroom (in the event of a real incident, staff would have to evaluate the comparative safety risks between being exposed to potentially toxic gas and leaving students unsupervised – the visibility of the cloud and the fact that it takes prolonged exposure to experience severe effects would be factors to consider in this drill).

Office staff will communicate with classroom via phone or radio. Students who are out of classroom at the time of the alert will be accounted for by office and will be reported to teachers so that their whereabouts are known by the appropriate parties.

First Aid

Attached is a CDC fact sheet on chlorine. First aid interventions are generally to flush exposed skin or eyes with fresh water for 15 minutes, and/or to get clear of affected air.

End of Event/Drill

Remain inside until the “All Clear” signal is sounded. This will be a long single bell. Encourage students to stay calm. Keep phone and radios clear to receive any new information that may become available. Please note anything that needs attention during our drill process and relay to Dave (or Incident Commander).

Appendix C: Alcohol and Other Drugs- Administrative Regulation 5131.6

Santa Barbara Unified School District Administrative Regulation

AR 5131.6

Students

ALCOHOL AND OTHER DRUGS

Instruction

The curriculum of all elementary and secondary schools shall include instruction on the effects upon the human body, as determined by science, of tobacco, alcohol, narcotics, dangerous drugs as defined in Health and Safety Code 11032, and other dangerous substances. Instruction shall be sequential in nature and suited to meet the needs of students at their respective grade level. (Education Code 51203, 51260)

(cf. 5131.62 - Tobacco)

In grades 1-6, instruction in alcohol and drug education should be given in health courses required by Education Code 51210. (Education Code 51260)

In grades 7-12, instruction in alcohol and drug education shall be conducted in health courses and in any other appropriate area of study required by Education Code 51220. (Education Code 51260)

(cf. 6142.8 - Comprehensive Health Education)

Secondary school instruction shall also include a study of the effects of alcohol and other drugs upon prenatal development. (Education Code 51203)

(cf. 6143 - Courses of Study)

Instruction shall be provided by appropriately trained instructors who have demonstrated competencies, as determined by the principal or designee, in the following areas: (Education Code 51260)

1. The ability to interact with students in a positive way
2. Knowledge of the properties and effects of tobacco, alcohol, narcotics, dangerous drugs, and shared drug apparatus
3. Effective teaching skills and competency in helping students to express opinions responsibly and to become aware of their values as they affect drug-use decisions

Intervention

District staff shall intervene whenever students use alcohol or other illegal drugs while on school property or under school jurisdiction. Staff members who have a reasonable suspicion that a student may be under the influence of alcohol or drugs shall immediately notify the principal or designee. If the principal or

designee, in his/her professional capacity or in the course of his/her employment, knows, observes or suspects that a student may be under the influence of alcohol or drugs, he/she may notify the parent/guardian. (Education Code 44049)

School staff shall not disclose confidential information provided during counseling by a student 12 years of age or older. A school counselor may report such information to the principal or parent/guardian only when he/she believes that disclosure is necessary to avert a clear and present danger to the health, safety or welfare of the student or other persons living in the school community. The school counselor shall not disclose such information to the parent/guardian if he/she believes that the disclosure would result in a clear and present danger to the student's health, safety or welfare. (Education Code 44049, 49602)

(cf. 5022 - Student and Family Privacy Rights)

(cf. 5141 - Health Care and Emergencies)

(cf. 6164.2 - Guidance/Counseling Services)

Regulation: SANTA BARBARA UNIFIED SCHOOL DISTRICT

Adopted: February 10, 2009 Santa Barbara, California

Appendix D: Tobacco- Administrative Regulation 5131.62

Santa Barbara Unified School District Administrative Regulation

AR 5131.62

Students

TOBACCO

Tobacco-Use Prevention Education Program

The district's tobacco-use prevention program shall provide students in grades 6-12 instruction which addresses the following topics: (Health and Safety Code 104420)

1. Immediate and long-term undesirable physiologic, cosmetic, and social consequences of tobacco use
2. Reasons that adolescents say they smoke or use tobacco
3. Peer norms and social influences that promote tobacco use
4. Refusal skills for resisting social influences that promote tobacco use

(cf. 5131.6 - Alcohol and Other Drugs)

(cf. 6142.8 - Comprehensive Health Education)

(cf. 6143 - Courses of Study)

As appropriate, the district shall provide or refer students in grades 7-12 to tobacco-use intervention and cessation activities. (Health and Safety Code 104420)

(cf. 1020 - Youth Services)

(cf. 5141.6 - School Health Services)

(cf. 6164.2 - Guidance/Counseling Services)

These services shall be directed toward current users and shall be voluntary for students who desire assistance in ceasing the use of tobacco.

In addition to targeting students who currently use tobacco, the district's program shall target students most at risk for beginning to use tobacco as identified through a local needs assessment.

The district shall provide or refer every pregnant and parenting minor enrolled in the district to tobacco-use prevention services. Such services may be integrated with existing programs for pregnant and parenting minors and shall include: (Health and Safety Code 104460)

1. Referral to perinatal and related support services
2. Outreach services and assessment of smoking status
3. Individualized counseling and advocacy services
4. Motivational messages
5. Cessation services, if appropriate

6. Incentives to maintain a healthy lifestyle
7. Follow-up assessment
8. Maintenance and relapse prevention services

(cf. 5146 - Married/Pregnant/Parenting Students)

Revised: April 27, 2010

Appendix E: Weapons and Dangerous Instruments- Administrative Regulation 5131.7

Santa Barbara Unified School District Administrative Regulation

Students

AR 5131.7

WEAPONS AND DANGEROUS INSTRUMENTS

Prohibited weapons and dangerous instruments include, but are not limited to:

1. Firearms: pistols, revolvers, shotguns, rifles, "zip guns," "stun guns," tasers, and any other device capable of propelling a projectile by the force of an explosion or other form of combustion
2. Knives, razor blades, and box cutters: any dirks, daggers, ice picks, or other weapons with a fixed, sharpened blade fitted primarily for stabbing, weapons with a blade fitted primarily for stabbing, weapons with a blade longer than 2-1/2 inches, folding knives with a blade that locks into place, and razors with an unguarded blade (Education Code 48915; Penal Code 626.10)
3. Explosive and/or incendiary devices: pipe bombs, time bombs, cap guns, containers of inflammable fluids, and other hazardous devices
4. Any instrument that expels a metallic projectile, such as a BB or a pellet, through the force of air pressure, carbon dioxide pressure, or spring action, or any spot marker gun (Penal Code 626.10)
5. Any other dangerous device, instrument, or weapon, including those defined in Penal Code 12020, including a blackjack, slingshot, billy, nunchaku, sandclub, sandbag, metal knuckles, or any metal plate with three or more radiating points with one or more sharp edges designed for use as a weapon
6. Any imitation firearm, defined as a replica of a firearm that is so substantially similar in physical properties to an existing firearm as to lead a reasonable person to conclude that the replica is a firearm (Education Code 48900; Penal Code 12550)

Any employee may take any weapon or dangerous instrument from the personal possession of a student while the student is on school premises or under the authority of the district. (Education Code 49331, 49332)

(cf. 5145.12 - Search and Seizure)

In determining whether to take possession of the weapon or dangerous instrument, the employee shall use his/her own judgment as to the dangerousness of the situation and, based upon this analysis, shall do one of the following:

1. Confiscate the object and deliver it to the principal immediately
2. Immediately notify the principal, who shall take appropriate action
3. Immediately notify the local law enforcement agency and the principal

(cf. 0450 - Comprehensive Safety Plan)

(cf. 3515.3 - District/Police Security Department)

(cf. 4158/4258/4358 - Employee Security)

When informing the principal about the possession of a weapon or dangerous instrument, the employee shall report the name(s) of persons involved, witnesses, location, and the circumstances of the possession.

The principal shall report any possession of a weapon or dangerous instrument to the student's parents/guardians by telephone or in person, and shall follow this notification with a letter.

The employee shall retain possession of the instrument until the risk of its use as a weapon has dissipated or, upon the request of the student's parent/guardian, until the parent/guardian appears and personally takes possession. (Education Code 49331, 49332)

Revised: August 31, 2010

Appendix F: Gangs- Administrative Regulation 5136

Santa Barbara Unified School District Administrative Regulation

AR 5136

Students

GANGS

Prevention and Intervention Measures

In order to discourage the influence of gangs, school staff shall take the following measures:

1. Any student displaying behavior, gestures, apparel (as specified in the Santa Barbara Unified School District's Dress Code Policy, Exhibit 5144,) or paraphernalia indicative of gang affiliation shall be referred to the principal or designee.
 - a. The student's parent/guardian shall be contacted and may be asked to meet with school staff.
 - b. The student may be sent home to change clothes if necessary.

(cf. 5132 - Dress and Grooming)

2. Staff members (i.e., school administrators, campus safety assistants, the pupil's counselor and teachers) shall be provided with the names of known gang members.
3. Students who seek help in rejecting gang associations may be referred to the school's gang intervention specialists and/or community-based gang suppression and prevention organizations.

(cf. 1020 - Youth Services)

4. Any gang graffiti on school premises shall be removed, washed down or painted over as soon as discovered.
 - a. Daily checks for graffiti shall be made throughout the campus.
 - b. Graffiti shall be photographed before it is removed. These photographs shall be shared with local law enforcement authorities and used in future disciplinary or criminal action against the offenders.

(cf. 3515 - Campus Security)

(cf. 5131.5 - Vandalism, Theft and Graffiti)

5. Classroom and after-school programs at each school shall be designed to develop a comprehensive understanding of the nature of youth violence including an understanding of those factors that build resiliency and potentially protect youth from engaging in violence and risk factors that contribute to engaging in violent behavior, enhance individual self-esteem, provide

positive reinforcement for acceptable behavior, and foster interest in a variety of constructive activities. These programs shall also:

- a. Explain the dangers of gang membership
- b. Provide counseling for at-risk students
- c. Teach students those behaviors or characteristics that affect a pupil's risk of, or resistance to potentially engaging in violent behavior.
- d. Include lessons or role-playing workshops in gang avoidance skills and nonviolent conflict resolution, including communication skills, anger management, ethnic/cultural tolerance, and mediation skills
- e. Provide opportunities for career technical education
- f. Provide positive interaction with local law enforcement staff

(cf. 5137 - Positive School Climate)

Gang prevention lessons may be taught jointly by teachers, law enforcement staff, and/or representatives from community organizations.

6. Staff shall actively promote participation in authorized student activities and organizations which can provide students companionship, safety, and a sense of purpose and belonging, including:
 - a. Positive sports and cultural activities and affiliations with the local community

(cf. 6145 - Extracurricular and Cocurricular Activities)

(cf. 6145.2 - Athletic Competition)

- b. Structured, goal-oriented community service projects, such as service learning and community service

(cf. 6142.4 - Service Learning/Community Service Classes)

Community Outreach

Gang prevention programs or counseling offered for parents/guardians shall address the following topics:

1. The dangers of gang membership
2. The behaviors or characteristics that affect a pupil's risk of, or resistance to potentially engaging in violent behavior.
3. Warning signs which may indicate that children are at risk of becoming involved with gangs
4. The nature of local gang apparel and graffiti
5. Effective parenting techniques
6. Conflict resolution techniques

Staff will regularly seek feedback and input from parents/guardians who attend district sponsored gang prevention classes or counseling programs to make informed decisions about district gang prevention and intervention programs.

Community programs shall address:

1. The scope and nature of local gang problems
2. Strategies by which each segment of the community may alleviate gang problems

Regulation: SANTA BARBARA UNIFIED SCHOOL DISTRICT

Adopted: February 10, 2009 Santa Barbara, California

Appendix G: Non-Discrimination/Harassment-Administrative Regulation 5145.3

Santa Barbara Unified School District Board Policy

Students

BP 5145.3

NONDISCRIMINATION/HARASSMENT

The Governing Board desires to ensure equal opportunities for all students in admission and access to the district's educational programs, guidance and counseling programs, athletic programs, testing procedures, and other activities. District programs and activities shall be free from discrimination, including harassment, with respect to a student's actual or perceived sex, gender, ethnic group identification, race, national origin, religion, color, physical or mental disability, age, or sexual orientation.

(cf. 0410 - Nondiscrimination in District Programs and Activities)

(cf. 5145.9 - Hate-Motivated Behavior)

(cf. 5146 - Married/Pregnant/Parenting Students)

(cf. 6164.6 - Identification and Education Under Section 504)

The Board prohibits discrimination, intimidation, or harassment of any student by any employee, student, or other person in the district. Prohibited harassment includes physical, verbal, nonverbal, or written conduct based on one of the categories listed above that is so severe and pervasive that it affects a student's ability to participate in or benefit from an educational program or activity; creates an intimidating, threatening, hostile, or offensive educational environment; has the purpose or effect of substantially or unreasonably interfering with a student's academic performance; or otherwise adversely affects the student's educational opportunities.

School staff and volunteers shall carefully guard against segregation, bias, and stereotyping in the delivery of services, including, but not limited to, instruction, guidance, and supervision.

(cf. 5145.2 - Freedom of Speech/Expression)

(cf. 6145 - Extracurricular and Cocurricular Activities)

(cf. 6145.2 - Athletic Competition)

(cf. 6164.2 - Guidance/Counseling Services)

The principal or designee shall develop a plan to provide students with appropriate accommodations when necessary for their protection from threatened or potentially harassing or discriminatory behavior.

Students who engage in discrimination or harassment in violation of law, Board policy, or administrative regulation shall be subject to appropriate discipline, up to and including counseling, suspension, and/or expulsion. Any employee who permits or engages in harassment or prohibited discrimination shall be subject to disciplinary action, up to and including dismissal.

(cf. 4118 - Suspension/Disciplinary Action)

(cf. 4119.21/4219.21/4319.21- Professional Standards)
(cf. 4218 - Dismissal/Suspension/Disciplinary Action)
(cf. 5131 - Conduct)
(cf. 5144 - Discipline)
(cf. 5144.1 - Suspension and Expulsion/Due Process)
(cf. 5144.2 - Suspension and Expulsion/Due Process (Students with Disabilities))

Grievance Procedures

The Board hereby designates the following position(s) as Coordinator(s) for Nondiscrimination to handle complaints regarding discrimination and harassment and inquiries regarding the district's nondiscrimination policies:

Director of Student Services
Santa Barbara Unified School District
720 Santa Barbara Street
Santa Barbara, CA 93101
(805) 963-4338

(cf. 1312.1 - Complaints Concerning District Employees)
(cf. 1312.3 - Uniform Complaint Procedures)

Any student who feels that he/she has been subjected to discrimination or harassment should immediately contact the Coordinator, the principal, or any other staff member. Information gathered at the site level will immediately be submitted to the Coordinator. Any student or school employee who observes an incident of discrimination or harassment should report the incident to the Coordinator or principal, whether or not the victim files a complaint.

Upon receiving a complaint of discrimination or harassment, the Coordinator shall immediately investigate the complaint in accordance with site-level grievance procedures specified in AR 5145.7 - Sexual Harassment. This procedure includes initiating an impartial investigation of an allegation of harassment within five school days of receiving notice of the behavior, regardless of whether a formal complaint has been filed.

(cf. 5145.7 - Sexual Harassment)

The Superintendent or designee shall ensure that the student handbook clearly describes the district's nondiscrimination policy, procedures for filing a complaint regarding discrimination or harassment, and the resources that are available to students who feel that they have been the victim of discrimination or harassment. The district's policy may also be posted on the district website or any other location that is easily accessible to students.

Appendix H: Sexual Harassment- Administrative Regulation 5145.7

Santa Barbara Unified School District Administrative Regulation

AR 5145.7

Students

SEXUAL HARASSMENT

Prohibited sexual harassment includes, but is not limited to, unwelcome sexual advances, unwanted requests for sexual favors, or other unwanted verbal, visual, or physical conduct of a sexual nature made against another person of the same or opposite sex in the educational setting, when made on the basis of sex and under any of the following conditions: (Education Code 212.5; 5 CCR 4916)

1. Submission to the conduct is explicitly or implicitly made a term or condition of a student's academic status or progress
2. Submission to or rejection of the conduct by a student is used as the basis for academic decisions affecting the student
3. The conduct has the purpose or effect of having a negative impact on the student's academic performance or of creating an intimidating, hostile, or offensive educational environment
4. Submission to or rejection of the conduct by the student is used as the basis for any decision affecting the student regarding benefits and services, honors, programs, or activities available at or through any district program or activity

Examples of types of conduct which are prohibited in the district and which may constitute sexual harassment include, but are not limited to:

1. Unwelcome leering, sexual flirtations, or propositions
2. Unwelcome sexual slurs, epithets, threats, verbal abuse, derogatory comments, or sexually degrading descriptions
3. Graphic verbal comments about an individual's body or overly personal conversation
4. Sexual jokes, derogatory posters, notes, stories, cartoons, drawings, pictures, obscene gestures, or computer-generated images of a sexual nature
5. Spreading sexual rumors
6. Teasing or sexual remarks about students enrolled in a predominantly single-sex class
7. Massaging, grabbing, fondling, stroking, or brushing the body
8. Touching an individual's body or clothes in a sexual way
9. Impeding or blocking movements or any physical interference with school activities when directed at an individual on the basis of sex
10. Displaying sexually suggestive objects

School-Level Complaint Process/Grievance Procedure

1. **Notice and Receipt of Complaint:** Any student who believes he/she has been subjected to sexual harassment or who has witnessed sexual harassment may file a complaint with any school employee. Within 24 hours of receiving a complaint, the school employee shall report it to the district Coordinator for Nondiscrimination/Principal. In addition, any school employee who

observes any incident of sexual harassment involving a student shall, within 24 hours, report this observation to the Coordinator/Principal, whether or not the victim files a complaint.

In any case of sexual harassment involving the Coordinator/Principal to whom the complaint would ordinarily be made, the employee who receives the student's report or who observes the incident shall instead report to the Superintendent or designee.

2. **Initiation of Investigation:** The Coordinator/Principal shall initiate an impartial investigation of an allegation of sexual harassment within five school days of receiving notice of the harassing behavior, regardless of whether a formal complaint has been filed. The district shall be considered to have "notice" of the need for an investigation upon receipt of information from a student who believes he/she has been subjected to harassment, the student's parent/guardian, an employee who received a complaint from a student, or any employee or student who witnessed the behavior.

If the Coordinator/Principal receives an anonymous complaint or media report about alleged sexual harassment, he/she shall consider the specificity and reliability of the information, the seriousness of the alleged incident, and whether any individuals can be identified who were subjected to the alleged harassment in determining whether it is reasonable to pursue an investigation.

3. **Initial Interview with Student:** When a student or parent/guardian has complained or provided information about sexual harassment, the Coordinator/Principal shall describe the district's grievance procedure and discuss what actions are being sought by the student in response to the complaint. The student who is complaining shall have an opportunity to describe the incident, identify witnesses who may have relevant information, provide other evidence of the harassment, and put his/her complaint in writing. If the student requests confidentiality, he/she shall be informed that such a request may limit the district's ability to investigate.
4. **Investigation Process:** The Coordinator/Principal shall keep the complaint and allegation confidential, except as necessary to carry out the investigation or take other subsequent necessary action. (5 CCR 4964)

The Coordinator/Principal shall interview individuals who are relevant to the investigation, including, but not limited to, the student who is complaining, the person accused of harassment, anyone who witnessed the reported harassment, and anyone mentioned as having relevant information. The Coordinator/Principal may take other steps such as reviewing any records, notes, or statements related to the harassment or visiting the location where the harassment is alleged to have taken place.

When necessary to carry out his/her investigation or to protect student safety, the Coordinator/Principal also may discuss the complaint with the Superintendent or designee, the parent/guardian of the student who complained, the parent/guardian of the alleged harasser if the alleged harasser is a student, a teacher or staff member whose knowledge of the students involved may help in determining who is telling the truth, law enforcement and/or child protective services, and district legal counsel or the district's risk manager.

(cf. 5141.4 - Child Abuse Prevention and Reporting)

5. **Interim Measures:** The Coordinator/Principal shall determine whether interim measures are necessary during and pending the results of the investigation, such as placing students in separate classes or transferring a student to a class taught by a different teacher.
6. **Optional Mediation:** In cases of student-to-student harassment, when the student who complained and the alleged harasser so agree, the Coordinator/Principal may arrange for them to resolve the complaint informally with the help of a counselor, teacher, administrator, or trained mediator. The student who complained shall never be asked to work out the problem directly with the accused person unless such help is provided and both parties agree, and he/she shall be advised of the right to end the informal process at any time.
7. **Factors in Reaching a Determination:** In reaching a decision about the complaint, the Coordinator/Principal may take into account:
 - a. Statements made by the persons identified above
 - b. The details and consistency of each person's account
 - c. Evidence of how the complaining student reacted to the incident
 - d. Evidence of any past instances of harassment by the alleged harasser
 - e. Evidence of any past harassment complaints that were found to be untrue

To judge the severity of the harassment, the Coordinator/Principal may take into consideration:

- a. How the misconduct affected one or more students' education
 - b. The type, frequency, and duration of the misconduct
 - c. The identity, age, and sex of the harasser and the student who complained, and the relationship between them
 - d. The number of persons engaged in the harassing conduct and at whom the harassment was directed
 - e. The size of the school, location of the incidents, and context in which they occurred
 - f. Other incidents at the school involving different students
8. **Written Report on Findings and Follow-Up:** No more than 30 days after receiving the complaint, the Coordinator/Principal shall conclude the investigation and prepare a written report of his/her findings. This timeline may be extended for good cause. If an extension is needed, the Coordinator/Principal shall notify the student who complained and explain the reasons for the extension.

The report shall include the decision and the reasons for the decision and shall summarize the steps taken during the investigation. If sexual harassment occurred, the report shall also include any corrective actions that have or will be taken to address the harassment and prevent any retaliation or further harassment. This report shall be presented to the student who complained, the person accused, the parents/guardians of the student who complained and the student who was accused, and the Superintendent or designee.

In addition, the Coordinator/Principal shall ensure that the harassed student and his/her parent/guardian are informed of the procedures for reporting any subsequent problems. The Coordinator/Principal shall also make follow-up inquiries to see if there have been any new incidents or retaliation and shall keep a record of this information.

Enforcement of District Policy

The Superintendent or designee shall take appropriate actions to reinforce the district's sexual harassment policy. As needed, these actions may include any of the following:

1. Removing vulgar or offending graffiti

(cf. 5131.5 - Vandalism, Theft, and Graffiti)

2. Providing training to students, staff, and parents/guardians about how to recognize harassment and how to respond
3. Providing training to students, staff, and parents/guardians to create an awareness of inappropriate sexuality related behavior based on the *Reasonable Person Standard*

(cf. 4131 - Staff Development)

(cf. 4231 - Staff Development)

(cf. 4331 - Staff Development)

4. Disseminating and/or summarizing the district's policy and regulation regarding sexual harassment
5. Consistent with the laws regarding the confidentiality of student and personnel records, communicating the school's response to parents/guardians and the community

(cf. 4119.23/4219.23/4319.23 - Unauthorized Release of Confidential/Privileged Information)

(cf. 5125 - Student Records)

6. Taking appropriate disciplinary action

In addition, disciplinary measures may be taken against any person who is found to have made a complaint of sexual harassment which he/she knew was not true.

(cf. 4118 - Suspension/Disciplinary Action)

(cf. 4218 - Dismissal/Suspension/Disciplinary Action)

(cf. 5144.1 - Suspension and Expulsion/Due Process)

(cf. 5144.2 - Suspension and Expulsion/Due Process (Students with Disabilities))

Notifications

A copy of the district's sexual harassment policy and regulation shall:

1. Be included in the notifications that are sent to parents/guardians at the beginning of each school year (Education Code 48980; 5 CCR 4917)

(cf. 5145.6 - Parental Notifications)

2. Be displayed in a prominent location in the main administrative building or other area where notices of district rules, regulations, procedures, and standards of conduct are posted (Education Code 231.5)

3. Be provided as part of any orientation program conducted for new students at the beginning of each quarter, semester, or summer session (Education Code 231.5)
4. Appear in any school or district publication that sets forth the school's or district's comprehensive rules, regulations, procedures, and standards of conduct (Education Code 231.5)
5. Be included in the student handbook
6. Be provided to employees and employee organizations

Regulation: SANTA BARBARA UNIFIED SCHOOL DISTRICT
Approved: February 10, 2009 Santa Barbara, California
Revised: April 27, 2010

Appendix I: Conduct- Board Policy 5131

Santa Barbara Unified School District Board Policy

Students

BP 5131

CONDUCT

The Governing Board believes that all students have the right to be educated in a positive learning environment free from disruptions. Students shall be expected to exhibit appropriate conduct that does not infringe upon the rights of others or interfere with the school program while on school grounds, while going to or coming from school, while at school activities, and while on district transportation.

(cf. 5131.1 - Bus Conduct)

(cf. 6145.2 - Athletic Competition)

Conduct is considered appropriate when students are diligent in study, careful with school property, courteous, and respectful toward their teachers, other staff, students and volunteers.

The Superintendent or designee shall ensure that each school site develops standards of conduct and discipline consistent with district policies and administrative regulations. Students and parents/guardians shall be notified of district and school rules related to conduct.

Prohibited student conduct includes, but is not limited to:

1. Conduct that endangers students, staff, or others

(cf. 0450 - Comprehensive Safety Plan)

(cf. 5131.7 - Weapons and Dangerous Instruments)

(cf. 5142 - Safety)

2. Conduct that disrupts the orderly classroom or school environment

(cf. 5131.4 - Student Disturbances)

3. Harassment or bullying of students or staff, such as bullying, including but not limited to cyberbullying, intimidation, hazing or initiation activity, ridicule, extortion, or any other verbal, written, or physical conduct that causes or threatens to cause violence, bodily harm or substantial disruption, or evidence of emotional suffering, in accordance with the section entitled "Bullying/Cyberbullying" below

"Cyberbullying" includes the transmission of communications, posting of harassing messages, direct threats, or other harmful texts, sounds, or images on the Internet, social networking sites, or other digital technologies using a telephone, computer, or any wireless communication device.

Cyberbullying also includes breaking into another person's electronic account and assuming that person's identity in order to damage that person's reputation.

(cf. 5145.3 - Nondiscrimination/Harassment)

(cf. 5145.7 - Sexual Harassment)

(cf. 5145.9 - Hate-Motivated Behavior)

4. Damage to or theft of property belonging to students, staff, or the district

(cf. 3515.4 - Recovery for Property Loss or Damage)

(cf. 5131.5 - Vandalism, Theft and Graffiti)

5. Possession or use of a laser pointer, unless used for a valid instructional or other school-related purpose, including employment (Penal Code 417.27)

Prior to bringing a laser pointer on school premises, students shall first obtain permission from the principal or designee. The principal or designee shall determine whether the requested use of the laser pointer is for a valid instructional or other school-related purpose.

6. Use of profane, vulgar, or abusive language

(cf. 5145.2 - Freedom of Speech/Expression)

7. Plagiarism or dishonesty on school work or tests

(cf. 5131.9 - Academic Honesty)

(cf. 6162.54 - Test Integrity/Test Preparation)

(cf. 6162.6 - Use of Copyrighted Materials)

8. Inappropriate attire

(cf. 5132 - Dress and Grooming)

9. Tardiness or unexcused absence from school

(cf. 5113 - Absences and Excuses)

(cf. 5113.1 - Truancy)

10. Failure to remain on school premises in accordance with school rules

11. Possession, use, or being under the influence of tobacco, alcohol, or other prohibited drugs

(cf. 5131.6 - Alcohol and Other Drugs)

(cf. 5131.62 - Tobacco)

(cf. 5131.63 - Steroids)

Employees are expected to provide appropriate supervision to enforce standards of conduct and, if they observe or receive a report of a violation of these standards, to immediately intervene or call for assistance. If an employee believes a matter has not been resolved, he/she shall refer the matter to his/her supervisor or administrator for further investigation.

Students who violate district or school rules and regulations may be subject to discipline including, but not limited to, suspension, expulsion, transfer to alternative programs, or denial of participation in extracurricular or cocurricular activities in accordance with Board policy and administrative regulation. The Superintendent or designee shall notify local law enforcement as appropriate.

(cf. 1020 - Youth Services)

(cf. 1400 - Relations Between Other Governmental Agencies and the Schools)

(cf. 5020 - Parent Rights and Responsibilities)

(cf. 5127- Graduation Ceremonies and Activities)

(cf. 5144 - Discipline)

(cf. 5144.1 - Suspension and Expulsion/Due Process)

(cf. 5144.2 - Suspension and Expulsion/Due Process (Students with Disabilities))

(cf. 6020 - Parent Involvement)

(cf. 6145 - Extracurricular and Cocurricular Activities)

(cf. 6184 - Continuation Education)

(cf. 6185 - Community Day School)

Students also may be subject to discipline, in accordance with law, Board policy, or administrative regulation, for any off-campus conduct during nonschool hours which poses a threat or danger to the safety of students, staff, or district property, or substantially disrupts school activities.

Possession/Use of Cellular Phones and Other Mobile Communications Devices

No student shall be prohibited from possessing or using an electronic signaling device that is determined by a licensed physician or surgeon to be essential for the student's health and the use of which is limited to health-related purposes. (Education Code 48901.5)

Students may possess or use on school campus personal electronic devices solely for academic purposes as directed by school staff members, otherwise such devices will be turned off from the first bell until dismissal (end of school day). Personal electronic devices include, but not limited to, pagers and cellular/digital telephones, as well as other mobile communications devices including but not limited to, digital media players, personal digital assistants (PDAs), compact disc players, portable game consoles, cameras, digital scanners, and laptop computers. The use of such devices shall not disrupt the educational program or school activity and shall not be used for illegal or unethical activities such as cheating on assignments or tests. All use of electronic devices is subject to regulation by school officials.

If a disruption occurs or a student uses any mobile communications device for improper activities, a school employee shall direct the student to turn off the device and shall confiscate it and turn it in to the school office (refer to Exhibit 5144, item 23, for additional guidance).

In accordance with Board policy 5145.12 – Search and Seizure, a school official may conduct a limited search of a student's mobile communications device only if a student has engaged in conduct that causes an administrator to have reasonable suspicion that the student has committed, or is about to commit, a crime or has violated applicable laws or board policy, administrative regulations, or other rules of the district or the school, and that there is reasonable cause to believe that a search of the student's mobile communications device will uncover evidence of the violation. Any search of a student's mobile communication device must be of a scope and nature that is limited to uncovering that evidence.

(cf. 5145.12 - Search and Seizure)

Students under 18 years of age shall not use mobile communications devices, even in hands-free mode, while driving on school grounds or to and from a school-related activity.

A student who violates this policy may be prohibited from possessing a mobile communications device at school or school-related events and/or may be subject to further discipline in accordance with Board policy and administrative regulation.

Bullying/Cyberbullying

The Board desires to prevent bullying by establishing a positive, collaborative school climate and clear rules for student conduct.

(cf. 5137 - Positive School Climate)

(cf. 5138 - Conflict Resolution/Peer Mediation)

(cf. 6164.2 - Guidance/Counseling Services)

The district may provide students instruction, in the classroom or other educational settings, that promotes communication, social skills, and assertiveness skills and educates students about appropriate online behavior and strategies to prevent and respond to bullying and cyberbullying. This instruction may involve parents/guardians, staff, and community members.

(cf. 1220 - Citizen Advisory Committees)

(cf. 6163.4 - Student Use of Technology)

Students may submit a verbal or written complaint of conduct they consider to be bullying to a teacher or administrator and may also request that their name be kept in confidence. The Superintendent or designee may establish other processes for students to submit anonymous reports of bullying. Complaints of bullying or harassment shall be investigated and resolved in accordance with site-level grievance procedures specified in Administrative Regulation 5145.7, "Sexual Harassment."

When a student is suspected of or reported to be using electronic or digital communications to engage in cyberbullying against other students or staff, or to threaten district property, the investigation shall include documentation of the activity, identification of the source, and specific facts or circumstances that explain the impact or potential impact on school activity, school attendance, or the targeted student's educational performance.

Students shall be encouraged to save and print any messages sent to them that they feel constitute cyberbullying and to notify a teacher, the principal, or other employee so that the matter may be investigated.

Any student who engages in cyberbullying on school premises, or off campus in a manner that causes or is likely to cause a substantial disruption of a school activity or school attendance, shall be subject to discipline in accordance with district policies and regulations. If the student is using a social networking site or service that has terms of use that prohibit posting of harmful material, the Superintendent or designee also may file a complaint with the Internet site or service to have the material removed.

Santa Barbara Unified School District Board Policy

BP 5131.5

Students

VANDALISM AND GRAFFITI

The Governing Board desires to enhance student learning by striving to provide an environment where students and staff can feel safe and secure and can take pride in their school. To that end, the Superintendent or designee shall develop strategies for preventing graffiti and vandalism on school grounds, including education for students and parents through Safe Schools and Healthy Student school plan goals collaborating with local law enforcement and city and county officials, as appropriate, to help develop a coordinated response to graffiti and vandalism in the community.

(cf. 0450 - Comprehensive Safety Plan)

(cf. 3515 - Campus Security)

(cf. 3515.3 - District Police/Security Department)

(cf. 5131.7 - Positive School Climate)

(cf. 5136 - Gangs)

(cf. 5138 - Conflict Resolution/Peer Mediation)

Students and staff are encouraged to report any graffiti or vandalism to the principal or designee for investigation. The principal or designee shall determine whether the incident necessitates an investigation pursuant to the district's sexual harassment, hate-motivated behavior, or nondiscrimination grievance procedure.

(cf. 5145.3 - Nondiscrimination/Harassment)

(cf. 5145.7 - Sexual Harassment)

(cf. 5145.9 - Hate-Motivated Behavior)

As appropriate, the principal or designee may contact local law enforcement in instances when the graffiti is repetitive, identifies particular targets or groups, identifies the perpetrator, and/or contains incitements to violence, threats, or intimidation. Photographs or other evidence of the vandalism or graffiti shall be preserved as necessary for investigation by the district or law enforcement and as evidence in any district disciplinary proceedings.

The principal or designee shall ensure that graffiti on school grounds is removed and covered as soon as possible, and if practicable before the beginning of the school day.

A student who commits an act of vandalism or graffiti on school grounds shall be subject to disciplinary action, including, but not limited to, suspension or expulsion in accordance with Board policy and

administrative regulation. If reparation for damages is not made, the district also may withhold the student's grades, diploma, and/or transcripts in accordance with law.

Appendix K: Dress and Grooming- Board Policy 5132

Santa Barbara Unified School District Board Policy

BP 5132

Students

DRESS AND GROOMING

The Governing Board believes that appropriate dress and grooming contribute to a productive learning environment. The Board expects students to give proper attention to personal cleanliness and to wear clothes that are suitable for the school activities in which they participate. Students' clothing must not present a health or safety hazard or a distraction which would interfere with the educational process.

(cf. 4119.22/4219.22/4319.22 - Dress and Grooming)
(cf. 5145.2 - Freedom of Speech/Expression)

Students and parents/guardians shall be informed about dress and grooming standards at the beginning of the school year and whenever these standards are revised. A student who violates these standards shall be subject to appropriate disciplinary action.

(cf. 5144 - Discipline)

Gang-Related Apparel

The principal, staff and parents/guardians at a school may establish a reasonable dress code that prohibits students from wearing gang-related apparel when there is evidence of a gang presence that disrupts or threatens to disrupt the school's activities. Such a dress code may be included as part of the school safety plan and must be presented to the Board for approval. The Board shall approve the plan upon determining that it is necessary to protect the health and safety of the school's students.

(cf. 0450 - Comprehensive Safety Plan)
(cf. 5136 - Gangs)

Uniforms

In order to promote student safety and discourage theft, peer rivalry and/or gang activity, the principal, staff and parents/guardians at a school may establish a reasonable dress code requiring students to wear uniforms. Such a dress code may be included as part of the school safety plan and must be presented to the Board for approval. The Board shall approve the plan upon determining that it is necessary to protect the health and safety of the school's students.

If a school's plan to require uniforms is adopted, the Superintendent or designee shall establish procedures whereby parents/guardians may choose to have their children exempted from the school uniform policy. Students shall not be penalized academically, otherwise discriminated against or denied attendance to

school if their parents/guardians so decide. (Education Code 35183)

The Superintendent or designee shall ensure that resources are identified to assist economically disadvantaged students in obtaining uniforms.

Marvin H. Jeglin et al v. San Jacinto Unified School District et al 827 F.Supp. 1459 (C.D. Cal. 1993)

Policy: SANTA BARBARA UNIFIED SCHOOL DISTRICT

Adopted: February 10, 2009 Santa Barbara, California

Appendix L: Dress and Grooming- Exhibit 5132

Dress Code Policy

The Santa Barbara Unified School District is committed to establishing a safe and secure learning environment. While a student's attire is generally at the discretion of a parent/guardian, appropriate dress standards are necessary for the healthy, safe and undisrupted operation of a school.

The district's dress code policy will be enforced consistently and fairly on all school campuses and at school sponsored functions. Additionally, each individual school site reserves the right to add items to the district's dress code as necessary for the health and safety of the school environment. School sites are responsible for notifying the students and parents of established site standards.

Appropriate Dress Standards

Our district's students are prohibited from wearing clothing that (a) causes an actual distraction from or disturbance of any school activity, or interferes with participation of a student in a school activity or (b) creates a health or safety hazard.

1. Clean and Neat Dress: Students shall be neatly dressed and shall show proper attention to personal cleanliness. All pants and shorts must be hemmed. Cut-off shorts are not permitted.

2. Size and Fit (Oversized Clothing): Students shall wear the correct size of clothing. Pants worn well below the waist and oversized or bagging pants are not permitted. Students are prohibited from wearing oversized jackets, parkas and other oversized outerwear.

3. Size and Fit (Revealing Clothing): Students shall not wear sexually suggestive or revealing clothing, including, but not limited to, clothing which exposes the midriff or undergarments, low cut tops, micro-mini and mini skirts, tube tops, spaghetti strap tank tops, off the shoulder tops, and see-through attire.

4. Footwear: *Safe footwear is required at all times. Bare feet, shoes without soles and house slippers are not permitted.

5. Headwear and Sunglasses: Students shall not wear hats, handkerchiefs, bandanas or other kinds of head coverings inside district buildings. Students shall not wear dark glasses or sunglasses indoors unless a student has a valid medical note on file at the school site.

Each school site shall allow students to wear sun-protective clothing while outdoors during the school day and during school functions open to the public. The type of sun-protective clothing permitted at a school site is determined by the individual site.

6. Dangerous Clothing: Students shall not wear any clothing that may be used as a weapon, including but not limited to, steel toed boots, long waist chains, items with spikes or studs and other items deemed inappropriate by an individual school site.

7. Writing, Insignias and Pictures: Students shall not wear clothing, jewelry, hairstyles, bodyart, or other personal effects with writing, insignia or pictures which disrupt the educational process. This includes, but is not limited to, writings, insignia and pictures that:

- display commonly known gang and gang affiliation symbols;
- display products or slogans which promote alcohol, tobacco, drugs, violence or sex;
- are obscene, libelous, slanderous or profane;
- create a clear and present danger of the commission of unlawful acts, violation of school regulations or injury to the people or property of the school community;
- discriminate against others or are violations of hate-crime laws.

8. Gang Related Apparel: When there is evidence of a gang presence that disrupts or threatens to disrupt school activities, the principal, staff and parents/guardians may work with local law enforcement to establish a reasonable dress code which prohibits students from wearing gang related apparel. The dress code must specifically list what clothing is defined and prohibited as “gang-related apparel.”

A gang-related apparel dress code is included as part of the school safety plan and must be presented to the board for approval. The board shall approve the dress code upon a determination that the dress code is necessary to protect the health and safety of the school’s students. Once the policy is in force, site administrators and the safe school committees should review the policy once a semester to ensure that it is current and specific to the local gang issues.

Any clothing or apparel that a student or a group of students wear to identify themselves for the purposes of harassing, threatening or intimidating others is not permitted while on district property or during school or district-sponsored activities.

Consequences for Dress Code Violation

Students who fail to follow the provisions of the dress code will be held accountable in accordance with the established district/site discipline policy.

- Before sending students to the office/administration for dress code violations, teachers will first counsel students about their dress and seek voluntary compliance with the policy.
- First Offense: Student conference with administration and attire altered;
- Second Offense: Attire altered, parent conference, and possible 1 - 3 day suspension;
- Third Offense: Attire altered, parent conference, and possible 1 - 5 day suspension.

Persistent and flagrant violations of the dress code may result in further consequences, up to and including expulsion.

***Safe Footwear**

Of great concern regarding student safety is the style of footwear appropriate for students. To reduce the risk of injury, the following footwear guidelines will apply to students in the Santa Barbara Unified School District:

- Shoes must be worn at all times. Site administration reserves the right to determine the safety of footwear on any given occasion.
- No student shall wear shoes with wheels, heels exceeding 3" in height, slippers (e.g., ballet, bedroom, etc.), or any shoes that disrupts the instructional process.
- Students must wear appropriate athletic shoes during recess or physical education activities for safety reasons. Specialized footwear (e.g., cleats) shall only be worn during appropriate activities.
- Students in grades K-6 may not wear backless shoes (footwear without heel straps); students 7-12 may wear sandals or similar styles as long as they do not present a safety concern.

Appendix M: Positive School Climate- Board Policy 5137

Santa Barbara Unified School District Board Policy

BP 5137

Students

POSITIVE SCHOOL CLIMATE

The Governing Board desires to enhance student learning by providing an orderly, caring, and nurturing educational and social environment in which all students can feel safe and take pride in their school and their achievements. The school environment should be characterized by positive interpersonal relationships among students and between students and staff.

(cf. 0410 - Nondiscrimination in District Programs and Activities)

(cf. 3515 - Campus Security)

(cf. 3515.2 - Disruptions)

(cf. 5030 - Student Wellness)

(cf. 5131.4 - Student Disturbances)

(cf. 5142 - Safety)

(cf. 5145.3 - Nondiscrimination/Harassment)

All staff are expected to serve as role models for students by demonstrating positive, professional attitudes, cultural sensitivity, and respect toward each student and other staff members. Teachers shall use effective classroom management techniques based on clear expectations for student behavior.

(cf. 4119.21/4219.21/4319.21 - Professional Standards)

Staff shall consistently enforce Board policies and regulations which establish rules for appropriate student conduct, including prohibitions against bullying, cyberbullying, harassment of students, hazing, other violence or threats of violence against students and staff, and drug, alcohol, and tobacco use.

(cf. 0450 - Comprehensive Safety Plan)

(cf. 3513.3 - Tobacco-Free Schools)

(cf. 4020 - Drug and Alcohol-Free Workplace)

(cf. 5131 - Conduct)

(cf. 5131.1 - Bus Conduct)

(cf. 5131.6 - Alcohol and Drugs)

(cf. 5131.7 - Weapons and Dangerous Instruments)

(cf. 5136 - Gangs)

(cf. 5144 - Discipline)

(cf. 5144.1 - Suspension and Expulsion/Due Process)

(cf. 5144.2 - Suspension and Expulsion/Due Process (Students with Disabilities))

(cf. 5145.2 - Freedom of Speech/Expression)

(cf. 5145.7 - Sexual Harassment)

(cf. 5145.9 - Hate-Motivated Behavior)

Safe School Plan –

The district's curriculum shall include age-appropriate character education that includes, but is not limited to, the principles of equality, human dignity, mutual respect, fairness, honesty, and citizenship. Teachers are encouraged to employ cooperative learning strategies that foster positive interactions in the classroom among students from diverse backgrounds.

(cf. 5131.9 - Academic Honesty)
(cf. 6141 - Curriculum Development and Evaluation)
(cf. 6142.3 - Civic Education)
(cf. 6142.4 - Service Learning/Community Service Classes)
(cf. 6142.94 - History-Social Science Instruction)
(cf. 6161.1 - Selection and Evaluation of Instructional Materials)

The Superintendent or designee may develop other strategies to enhance students' feelings of connectedness with the schools, such as campus beautification projects, graffiti removal, development of cocurricular activities and after-school programs, pairing of adult mentors with individual students, recognition of student achievement, and encouragement of strong family and community involvement in the schools.

(cf. 1240 - Volunteer Assistance)
(cf. 5126 - Awards for Achievement)
(cf. 5131.5 - Vandalism, Theft and Graffiti)
(cf. 5148.2 - Before/After School Programs)
(cf. 6020 - Parent Involvement)
(cf. 6145 - Extracurricular and Cocurricular Activities)
(cf. 6145.5 - Student Organizations and Equal Access)

Students shall have opportunities to voice their concerns about school policies and practices and to share responsibility for solving problems that affect their school.

The schools shall encourage attitudes and behaviors that foster harmonious relations. As part of this effort, students shall be taught the skills necessary to reduce violence, including communication skills, anger management, bias reduction, and mediation skills.

(cf. 5138 - Conflict Resolution/Peer Mediation)
(cf. 6164.2 - Guidance/Counseling Services)

Staff shall receive professional development designed to improve classroom management, conflict resolution techniques, and communications with students and parents/guardians including persons of diverse backgrounds.

(cf. 4131/4231/4331 - Staff Development)

Technical Revision: December 3, 2010

Appendix N: Dropout Prevention- Board Policy 5147

Santa Barbara Unified School District Board Policy

BP 5147

Students

DROPOUT PREVENTION

The Governing Board recognizes that regular school attendance is critical to student learning and achievement. The Board desires to provide a learning environment that engages students, helps them become self-motivated, encourages regular attendance, and enables them to meet district standards and to graduate.

(cf. 5113 - Absences and Excuses)
(cf. 6011 - Academic Standards)
(cf. 6146.1 - High School Graduation Requirements)
(cf. 6146.5 - Elementary/Middle School Graduation Requirements)
(cf. 6162.52 - High School Exit Examination)

The Superintendent or designee shall develop strategies to identify and serve students at all grade levels who are at risk of dropping out of school. Students may be identified on the basis of indicators such as frequent absenteeism, truancy, or tardiness; below-grade-level achievement; or personal, social, health, or economic concerns that may make a student more likely to drop out of school.

(cf. 5113.1 - Truancy)
(cf. 5123 - Promotion/Acceleration/Retention)
(cf. 5146 - Married/Pregnant/Parenting Students)
(cf. 5149 - At-Risk Students)
(cf. 6164.2 - Guidance/Counseling Services)
(cf. 6164.5 - Student Success Teams)
(cf. 6178 - Career Technical Education)
(cf. 6178.1 - Work Experience Education)
(cf. 6179 - Supplemental Instruction)

The school site council at each school shall develop a comprehensive school plan for student retention in accordance with law, Board policy, and administrative regulation. The plan shall be designed to help reduce student absenteeism and dropout rates and to improve student achievement.

Santa Barbara Unified School District Board Policy

BP 5149

Students

AT-RISK STUDENTS

The Governing Board recognizes that, for a variety of reasons, students may be at risk of school failure. The Board believes, however, that each student can succeed in meeting district academic standards with appropriate educational programs and support services.

(cf. 6011 - Academic Standards)
(cf. 6146.1 - High School Graduation Requirements)
(cf. 6146.5 - Elementary/Middle School Graduation Requirements)
(cf. 6162.52 - High School Exit Examination)

District assessments and ongoing classroom evaluations shall be used to identify students performing below grade-level or at risk of failing to meet district standards. The Superintendent or designee shall develop strategies to address the needs of at-risk students, which may include but are not limited to instructional strategies responsive to the needs of individual students, provision of supplemental instruction outside the regular school day, provision of effective support services, parent involvement, and/or enrollment in an alternative program.

(cf. 0420 - School Plans/Site Councils)
