

MOU with the “American Medical Response”

Santa Barbara Unified School District (SBUSD)

Standard Response Protocol (SRP)

Memorandum of Understanding with the “American Medical Response” (AMR)

Program description

The Standard Response Protocol (SRP) is a classroom response based on four actions. When communicating these actions, the action is labeled with a Term of Art and is then followed by a directive. Execution of the action is performed by active participants, including Students, Staff, Teachers and First Responders.

The “Term of Art” **Lockout** is followed by the directive “**Secure the Perimeter**”. The action associated with Lockout is to bring participants into the school building and secure the building’s outside perimeter by locking appropriate windows, doors and other access points.

The “Term of Art” **Lockdown** is followed by the Directive “**Locks, Lights, Out of Sight**”. The action associated with Lockdown is to secure individual classroom doors, move away from inside corridor line of sight and maintain silence until first responders release the room.

You “Term of Art” **Evacuate** is followed by the Directive “**To a Location**” (Where location is announced). The action associated with Evacuate is to move students and staff from one location to another.

The “Term of Art” **Shelter** is followed by the “**Hazard and Safety Strategy**” (Where hazard may include: severe weather, hazardous materials, bomb threat, tsunami, Etc. Safety Strategy may include: seal the room, evacuate to shelter area, drop, cover and hold.) The action is associated with Shelter is dependent on the stated Hazard and Safety Strategy.

COMMUNICATIONS

Communication between the School District and AMR may be accomplished through written correspondence delivered by the US Postal Service or other private carriers. Communication may also be accomplished through electronic means utilizing electronic mail, facsimile or other electronic text communications.

PURPOSE

By standardizing vocabulary, all stakeholders can understand the response and status of the event. For students, this provides continuity of expectations and actions throughout their educational career. For teachers and staff this becomes a simpler process to train and drill. For First Responders, the common vocabulary and protocols establish a greater predictability that persist through the duration of an incident. Parents can easily understand practices and can reinforce the protocol. Additionally, this protocol enables rapid response determination when an unforeseen event occurs.
