The Driver is the Difference!

Designated Stops

Other than medical emergency, vehicle breakdown, or when the driver determines that it is unsafe to continue operation because of reduced visibility, the driver will make **designated stops only** in compliance with state regulations for school activity trips. Therefore we will require you to provide an itinerary of all stops, including all meal stops, rest stops, and all stops to be made by the bus driver even if they are tentative or not likely to happen. The itinerary must include specific locations, addresses and/or street names and cities. Example: McDonald's at Seaward St. / Ventura CA.

Conduct

Please note that California law makes the driver of the bus directly responsible for the safety and orderly conduct of the pupils while they are on the bus. Continued disorderly conduct or persistent refusal to submit to the authority of the driver shall be sufficient reason for the pupil to be denied transportation. The driver shall not require any pupil to leave the bus between home and school, or between school and other "designated" locations (5CCR 14103), unless the pupil is given into the custody of a parent or guardian, or someone designated by the parent or school district.

Pupil Safety and Security

School activity trips should be a learning and positive experience for all passengers aboard the bus. To insure the success of the trip, the driver should receive information in writing of any prior arrangements made for children to be discharged from the bus into the custody of a parent or guardian at any point during the trip; or if a pupil is to be discharged from the bus at a different location other than the one(s) specified in the contract for the trip. Also, any contact information such as Main Contact Person's name and phone number should be forwarded to our office to be used in the event of an emergency, or in case special instructions are required.

Standing passengers

According to the California Code of Regulations the bus shall not be put in motion until all passengers are seated, and all passengers must remain seated at all times when the bus is in motion (13CCR 1217). Only an adult acting **upon request by the driver** to supervise or assist a pupil is permitted to stand.

Driver Hours Regulations

California Code of Regulations prohibits the driver of a school activity trip from driving more than ten (10) hours total during any sixteen (16) hour work period. The driver shall not drive again without first being off duty for at least eight (8) consecutive hours. Also, a School Pupil Activity Bus (SPAB) Driver shall not drive again after sixteen (16) hours have elapsed since first reporting for duty without first having been off duty for eight (8) consecutive hours. (CCR1212)

Please help us achieve the best service possible by making sure you inform the driver of any changes in your itinerary that may be likely to affect the driver's on duty status. **These are laws set forth by the state of California and we have no flexibility to accomodate trips or schedules that will violate these hours regulations.**

Please feel free to contact us if you have any questions (805) 964-7759. We are happy to work with you to make sure that your trip is successful and complies with all local, state and federal regulations.

Please sign below acknowledging that you have read and understand these regulations regarding School Pupil Activities Busses. Please email this form to your contact with Airbus or FAX to (805) 683-0307. Thank you!
