

The Single Plan for Student Achievement (SPSA) is a plan of actions to raise the academic performance of all students to the level of performance goals established under the California Academic Performance Index. California Education sections 41507, 41572, and 64001 and the federal No Child Left Behind Act (NCLB) require each school to consolidate all school plans for programs funded through the School and Library Improvement Block Grant, the Pupil Retention Block Grant, the Consolidated Application, and NCLB Program Improvement into the Single Plan for Student Achievement.

For additional information on school programs and how you may become involved locally, please contact the following person:

Mission Statement(s)	Analyze Student Data	Conclusions from Parent, Teacher, Students
	Summary of Data:	Conclusions Data Performance:
<ul> <li>The mission of the Santa Barbara Unified School District is to ensure the educational success of all students through high expectations and a commitment to excellence and to empower them to reach their full potential as responsible, ethical and productive citizens in a diverse and changing world.</li> <li>Core Beliefs and Commitments</li> <li>We believe that the achievement of the district's mission is a shared responsibility requiring the cooperation and commitment of students, parents, staff, board members and the community.</li> <li>We will ensure academic excellence by providing quality educational programs with all staff members focused on continually improving</li> </ul>	<ul> <li>API: Dos Pueblos increased its overall school API 2 points to 821. This exceeds the state benchmark of 800. Statistically significant sub-group API performance is as follows: <ul> <li>White students decreased 7 points to 882,</li> <li>Asian students increased 11 points to 926,</li> <li>English Learners increased 1 point to 632,</li> <li>Socio-economically disadvantaged students increased 20 points to 696,</li> <li>Latino students increased 15 points to 718, and</li> <li>Students with Disabilities increased 40 points to 542.</li> </ul> </li> </ul>	Dos Pueblos is extremely proud of its overall API gains, especially since the school-wide API represents a historic high and places DP as a close second in the County. We attribute improvement in student performance on CSTs to several factors: a targeted focus on test preparation undertaken by the staff as a whole in advance of the spring standardized testing; the impact of programs such as Read 180, English Strategic, and AVID; and school-wide emphasis on building students' literacy skills across all subjects and content areas, including Special Education. The data show the following noteworthy achievements: *Measurable progress in closing the achievement gap between whites and Latinos in a multi-year analysis, as supported by gains made by the
<ul> <li>We will effectively and transparently manage our financial and human resources to support our educational goals.</li> </ul>	Federal Accountability/ESEA: Dos Pueblos met 17 of its 21 AYP criteria. Dos Pueblos met all participation rate targets. 71.5% of students school-	SED, Latino and SpEd subgroups. *The decline in EL performance was halted and reversed, although previous performance levels were not regained (peaked in 2010 at 652).
<ul> <li>We will maintain safe and orderly school environments for all students and employees.</li> <li>We will promote a culture of mutual trust and respect among</li> </ul>	wide achieved proficiency in ELA, which fell short of the state target of 77.8% and represents a decrease of 6.3% over the previous year. 76.5%	
<ul> <li>We will promote a culture of mutual rust and respect among students, parents, staff and community members.</li> <li>We value student and staff diversity in our schools and classrooms and will promote equal access across all educational programs and activities.</li> </ul>	of students school-wide achieved proficiency in Math, which fell short of the state target of 77.4% but represents an increase of 6% from the previous year. Data for our statistically significant sub-groups is as follows: • White: 87.4% ELA, 89.4% Math • English Learners: 23.5% ELA; 40.4% Math	*Latino students achieved an all-time API high of 718. We believe this is connected to our increased and ongoing efforts to support LEP students in qualifying for re-classification (49 students were reclassified in Spring 2012) and to increase the proportion of Latino students in the most rigorous curricular pathways.
Dos Pueblos High School's Expected School-wide Learning Results: All students will be given instruction and support to access success through a rigorous standards-based curriculum while developing their	<ul> <li>Socio-economically Disadvantaged: 39.5% ELA; 52.7% Math</li> <li>Latino: 49.8% ELA; 57.7% Math</li> </ul>	*It is especially pleasing to see the gains for Students with Disabilities as that subgroup was identified as a pressing area for growth.
ability to participate effectively and positively in a democratic society.		Growth targets for Math were met school-wide and by all statistically significant sub-groups. White, EL, SED, and Latino students increased
The "Cornerstones of Student Success" at Dos Pueblos include: Academic Achievement, Responsible Citizenship, and		6.2%, 9.5%, 9.2%, and10.5% respectively. Only the white student sub-group increased performance (5%) and made its growth target in ELA. EL, SED, and Latino students posted
